G.W.V.A. HOSPITAL CLOSED FEELS TWENTY YEARS YOUNGER

ALL THE PATIENTS HAVE ABOUT RECOVERED.

City Hospitals Able to Cope With the Situation and the Need for Emergency Hospitals is Passed.

The emergency hospital at the G.W.V.A. rooms is now practically closed up. All the patients, with the exception of one or two children have recovered, and have been able to return to their homes, or to homes provided for them until parents have recovered. The city hospitals are now able to cope with the situation, and the need for emergency institutions has passed. This hospital has done splendid work in caring for cases that would otherwise have been neglected, and has undoubtedly saved many lives. It was opened on Friday afternoon the 18th October, and was under the management of W. F. Nickle, M.P., who had discovered a large number of cases of children suffering from influenza who were not being treated, and were in sad circumstances owing to their parents also being sick. On the first day patients were admitted, but cases multiplied so rapidly that an extension was necessary, and soon the hall was filled to capacity.

In all over sixty cases have received treatment in the hospital. The large majority of these were small children, the remainder being mothers whose families were also patients there. Out of these cases only one died, a little child who was suffering from pneumonia when it was admitted. A second death occurred, but this child was in a dying condition when it was brought to the hospital, and only lived for two hours. This is a most creditable showing, considering the heavy mortality in the city during the epidemic. The greatest praise is due the staff of volunteers who made this hospital possible.

The doctors in charge were Dr. James Third and Dr. Dolan, a fifth year medical student, who labored heroically without thought of reward to save the lives of their patients. Mrs. H. C. Nickle acted as matron, and had her hands full, for was no light task to attend to the many details of management of such an institution. The nursing superintendent was Miss Daisy McNamee, a 1918 graduate of Kingston General Hospital, who from the start bore the brunt of the nursing. She was ably assisted by Miss Grace Lyons, a nurse in training at Kingston General, and also Miss Evelyn Nickle, Miss Winnes, Miss Marion Ogilvie, Miss Helen Nicol, Catarina, Miss Margaret Bruce Taylor, Miss Chrissie Goodwin and Mrs. Rosebush, who acted as dietitian, all S. O. S. workers from the organization formed by Mrs. G. Hunter Ogilvie, Mayor Higgins, W. P. Nicol, M.P., and H. C. Nickle were all unsparing in their labors, and devoted much time and money towards making the hospital a success. Kenneth Carson and Captain Douglas Nickle were on hand daily with motors and were indispensable. The whole organization worked together like a well-oiled engine, and the warmest thanks of the people of Kingston are due to them for their services at a critical time.

The thanks of all the workers are sent to those generous citizens who by their handsome gifts of food, clothing, toys, books and other things made this great work possible.

BIG VICTORY LOAN RALLY HELD IN FIRST BAPTIST CHURCH SUNDAY EVENING.

Addresses By Revs. J. S. Laffair and W. T. G. Brown and Francis King—Several Interesting Films Were Shown.

A most successful Victory Loan rally was held on Sunday evening at 8.30 o'clock in the First Baptist Church. A large crowd attended. The feature of the meeting was the showing of films supplied by the Dominion Victory Loan organization. The chair was occupied by the Rev. J. S. Laffair, pastor of the church. In opening he said that he did not consider it an act of desecration to use the church building for such a purpose, but a proper use of God's house. This is God's war, and money is needed to carry it on, so it was a perfectly legitimate use for the church. The first film shown demonstrated the preparing and selling of bonds. Then, in order to complex a skeptical customer, the use to which the money will be put was shown in pictures of Canadian industries. The film showed British Columbia timber, being made into ships; Alberta cattle on the ranches and ready for the can-

Old Folks' Coughs, Catarrh, Bronchitis Quickly Cured

This Tells of a Method That Cures Without Using Drugs.

Elderly people take cold easily. Unlike young folks, they recover slowly. That is why so many people meet middle life die of pneumonia. Cough, Syringus, sore throat, cold, because they upset digestion. Any doctor knows that a much more effective treatment is "CATARRH-OZONE," which heals and soothes the irritated surfaces of the throat. In using Catarrh-Ozone you do not take medicine into the stomach, you simply breathe into the throat, nose and lungs rich pinoy balsamic vapor, so full of healing power that colds, catarrh and bronchitis disappear almost instantly.

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure, medicinal essences, whereas with a syrup the affected parts could not be reached and harm would result through burning the stomach with drugs.

A Catarrh-Ozone Inhaler in your pocket or purse enables you to stop a cold with the first sneeze. Large size costs \$1.99 and supplies treatment for two months, small size 50c; trial size, 25c; all storekeepers and druggists.

Can Walk a Mile Now Where Before Taking Tanlac Couldn't Go 2 Blocks

"Since Tanlac has relieved me and built me up so much I feel twenty years younger," said Mrs. W. B. Lapsley, who resides at West 2115 Eleventh Ave., Spokane, Wash., recently.

"I had suffered from stomach troubles," she continued, "until I had become almost a nervous wreck and unable to do my housework and look after my children. My stomach was so weak and upset that I could hardly retain a thing I would eat. I lived for days at a time on nothing but boiled milk and poached eggs, and half the time they failed to agree with me. I was kept on a diet all the time, and my stomach was pumped out nearly every day, but this nothing else did me any good. I was advised that a higher altitude might help me, so I took a trip to the mountain in Canada, but I came back home just as bad off as when I left. What I ate would sour on my stomach and the gas formed by it would blast me terribly. Sometimes my heart would palpitate for some one beating with a hammer, and then stop suddenly and keep still so long that I thought I would never draw another breath. My back, over my kidneys, hurt me dreadfully and at times my left side pained me until I could hardly stand it. I was constantly taking some thing to relieve constipation and was almost frantic at times with headache, and was so nervous that sleep was almost impossible for me.

"Now this is just the condition I was in when I began taking Tanlac and I commenced to pick up with my first bottle. It was only a short time until I was eating most anything I wanted. I can now eat all kinds of vegetables, or anything else I want, without the least bit of trouble from it. My headaches and pain in all gone and I have already gained ten pounds in weight. I sleep like a child every night and have so much more strength and energy that I can walk a mile, where before I took Tanlac I couldn't walk two blocks without being all tired out. Tanlac has not only helped me, but my husband, who has been troubled with his stomach for a good many years, is now taking it with just as good results. Some of my neighbors are also taking it on my recommendation, so you can see what I think of it. I am thankful enough for what it has done for me to tell everybody about it."

Tanlac is sold in Kingston by A. P. Chow, in Plattsburgh by Gilbert Oster, in Battersburg by C. S. Clark, in Fernleigh by Eyrin Martin, in Ardoch by M. J. Scullion, in Sharbot Lake by W. Y. Cannon.—Adv.

ing factory, and Saskatchewan wheat fields at harvest time. It showed the wheat from the farm to the elevator.

At the first film, Francis King, vice-chairman of the Victory Loan Committee, gave a short address. He stated that Kingstonsians must buy bonds, and buy heavily. Canada has done well in sending men. It is a tremendous thing to ask a man to go over there to risk his life. But it is a small thing to lend their money to counterbalance his sacrifice. It is not patriotism, but good business. The present issue is under more favorable conditions than that of 1917. The boys going over now are going to join in the sweep of victory. So that there is no fear of the loan not being repaid. The speaker said that by the end of the campaign the wave on the big tell-tale must come over the Kaiser's head. By giving quickly others will be encouraged to subscribe. This loan is a patriotic partnership scheme for Canadians, and all must take part by buying as much and as quickly as possible.

Following this address the second film was shown. It demonstrated all the war time activities of the middle class in the most impressive way. The Manitoba wheat fields were shown; the Ontario munition factories and aeroplane shops, the Quebec boot factories, creameries and cheese factories, the shipyards and coal mines of Nova Scotia and the fishing boats of Prince Edward Island were in turn flashed on the screen. In every scene there was thriving industry, all created by the funds raised on Victory Bonds. This film ended with Sir Thomas White's appeal. "Canada depends upon Victory Bonds to enable her to carry on."

Rev. W. T. Brown, Sydenham Street Methodist Church, spoke next, and in eloquent language told of the two kinds of people who ought to buy bonds, but were hanging back. The first is the man who has money and has a chance to invest it at a higher rate of interest than five and a half per cent. If that man takes the bigger interest and neglects to buy bonds he is a traitor. Many of the boys who have given their lives could have put them out of business had they not sacrificed all, so this class must make a small sacrifice to buy bonds. The second class is made up of those who are afraid they have not got the money. The money can be secured by rigid economy in clothing and pleasures. Canadians are far too extravagant, and by more economy all can buy bonds. If peace comes to-morrow, the government will need every cent for the work of reconstruction, and a solid financial backing will save the situation. It is of great value for a nation for its people to own a stake in their country. The speaker finished by urging all to buy bonds.

The final film was entitled "A Victory Loan Appeal," and was a film produced by the Famous Players Corporation to help the loan. It shows some stirring battle scenes, and a most pathetic incident when a hospital is bombed by Hun aeroplanes. A ward is hit, and a nurse in charge is dying from her wounds she sends out an appeal for help, help which can only be sent by Victory Bonds. And Canada's answer is "Buy, buy, buy Victory Bonds."

To Remove Dandruff

Get a small bottle of Danderrin at any drug store for a few cents, pour a little into your hand and rub well into the scalp with the finger tips. By morning most, if not all, of this awful scalp will have disappeared. Two or three applications will destroy every bit of dandruff; stop scalp itching and falling hair.

Temperature For Buildings. In a bulletin just issued by the Ontario Fuel Administration's Committee on Public Information, the temperature recommended for working and living rooms is 64 degrees. This is the degree at which science agrees man is at his best. The temperature recommended for sleeping rooms is 59 degrees.

The funeral of Thomas E. Connell took place from James Reid's undertaking parlors on Tuesday last. Rev. T. W. Savary conducted the service. The deceased was a bright little fellow and was loved by all who knew him.

Every dollar makes them holler. Pte. Edward E. Moorehead, Toronto, a first year medical student of Queen's, was recently wounded, but has returned to duty.

HAD WEAK and FAINTING SPELLS.

Those feelings of faintness, those weak "all gone" sinking sensations, which come over some people from time to time, are warnings that must not go unheeded. They mean an extremely weakened condition of the heart and a disordered nervous system. When the system is in this condition there is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off, but the next may be more serious. Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep rooted and perhaps hopeless.

They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor. Miss Mary McCoy, Algoma Mills, Ont., writes: "I was awfully troubled with fainting and weak spells, and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of those spells, and she got me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to any one."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto.

THOUSANDS OF ARTISTIC HOMEY HOMES Have been furnished the money-saving Reid way. Thousands of wives now find home a happier, brighter place in which to spend their lives.

Thousands of husbands more keenly than before anticipate the home-going, all due to Reid way of furnishing with Reid's High Quality and Reid Low Prices.
