

Specks Floating Before His Eyes

When specks start to float before the eyes, when everything turns black for a few seconds and you feel as if you were going to faint, you may rest assured that your liver is not working properly.

The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of a medicine that will clear away all the waste and poisonous matter from the system, and prevent as well as cure all the trouble arising from this accumulated mass which has collected in the system.

Keep the bowels open by using Milburn's Laxa-Liver Pills and you will have no liver trouble of any kind. They will clear away all the waste and effete matter which has collected and make the liver active and working properly.

Mr. John R. Morrison, Grand River Falls, N.S., writes: "Several months ago I was troubled with a sour stomach, and had specks floating before my eyes. I took five vials of Milburn's Laxa-Liver Pills which cured and cleaned my blood before any length of time. I told my friends about it and they got some, and they, too, find themselves different since they took them. I recommend your pills very highly."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

TAKING OF VALENCIENNES

HOW THE CANADIANS CAPTURED THIS FRENCH CITY.

Fine Generalship Was Shown—The Eastern Gates of the City Were the Only Exit For the Enemy.

With the British Armies in France, Nov. 5.—After a final desperate effort to drive back the British from the enemy abandoned Valenciennes Friday night. The Canadians entered the city at 7.50 o'clock Saturday morning. Street fighting developed then at some places where stray German machine gunners and snipers were left by the enemy to cover his retirement. These were quickly silenced by the Canadian troops.

The Boche "rearguards" stretched along the roads east of Valenciennes and leading in the direction of Mons still are endeavoring to hold out against us. Valenciennes, however, is securely in our hands. As I write this our patrols have pushed forward into the eastern suburbs of Early (on the route Nationale and just southeast of Valenciennes), and are approaching St. Saulve, 1 1/2 miles northeast of Valenciennes on the Mons road. (The official report announces the capture of St. Saulve). The attack by the British here yesterday completely broke the German resistance.

Rushing up from the south, the Canadian troops gained the first houses along the railway at the edge of Valenciennes, while other units crossed the Scheldt from the west and from the north. At the same time the enemy was completely hemmed in by floods of his own creation, and there remained for him only a single exit from Valenciennes one eastern high road.

However, he tried to gain more room by turning the Canadian lines from the southeast, and delivered several strong counter-attacks. These counter-attacks were delivered against the 17th and 22nd corps, holding the line of the Ronelle River. Tanks were used and infantry in depth, which was drawn from more than six divisions holding a front of six miles. The only effect of these attacks, however, was to drive the British from a part of the village of Maresches, all the ground that was lost during the day was retaken by our forces before nightfall. Three tanks were knocked out.

BETTER PEACE THAN EVER

FORMER PREMIER ASQUITH SAYS LEAGUE OF NATIONS NECESSARY.

No More Autocracy—The World Must be in a Position to Punish War-makers.

Cupar, Scotland, Nov. 4.—Unless the Allies are content to have made all their sacrifices in vain, they must conclude a peace "better than any of the conventional peaces of history," and secured by a league of nations able to check any attempt at aggressiveness from whatever quarter it may arise, declared former Premier Asquith in an address delivered here to-day.

"Matters have now reached the stage," he said, "at which victory must be decisive if peace is to be secured. All our sacrifices will be thrown away if we acquiesce to anything less than a peace of such a kind that it not only crushes for all time the aggressive ambition of our present enemies, but which is indeed more important from the point of view of permanent interests of civilization and humanity, render impossible a recurrence of such a war by striking at the very root of the cause of war."

League of Nations.

"We must attain something better than any of the conventional peaces of history. We must attain a league of nations. We must not have a league of nations in any but an academic sense unless those who enter it are prepared, first of all, to recognize that no country can participate in the partnership of its government is based on autocracy. If a league of nations is to be really an effective security for the peace of the world, it must be in a position, from whatever quarter war might arise, to check and even punish the offender."

After referring to the extinction of the withering and reactionary century-old rule of the Turks in Europe, Mr. Asquith said in regard to the Austrian situation:

"It is a great satisfaction that our gallant Allies in Italy are clearing their own territory of the Austrians. It is also gratifying that in the performance of that great task British troops have played a notable part."

"The artificial structures of the Turkish and Austrian Empires have a common characteristic in that they have been held together for centuries, not by the will of their own population, but by the authority of the dominant class. Their doom is sealed and thereby in eastern Europe and a part of Asia new states are springing up as a result of the war, based upon the enduring foundation of social relationship and national freedom. Their work of emancipation and self-determination has the sympathy and good-will of every lover of freedom throughout the civilized world."

CHINA IS CRITICIZED.

The Allies Dissatisfied With War Behavior, Says Note.

Pekin, Nov. 5.—The Allied Governments have presented a note to the Chinese Government expressing dissatisfaction with China's war behavior, complaining especially in regard to the internment of enemies. The appointment of Obata as Minister of Pekin is adversely criticized here, and is declared to be the most unpopular selection Japan could make.

War Tidings.

British in their attack on Monday reached the Annelle river, near the Franco-Belgian border. The American forces west of the Meuse are within ten miles of the main German communication line. The German party leaders in their recent discussions decided there was no necessity for the abdication of the Emperor.

All the German merchant vessels interned in Chilean harbors have been seized by the Chilean Government.

A Gruesome Curiosity.

Renfrew, Nov. 4.—James Irving, Renfrew, who is now up at Magnificent Depot as a foreman for the Colonial Lumber Co., recently came across a rather gruesome curiosity. He was out looking up some timber and came upon a small lake. On the shores of this he found an old-fashioned shoemaker's boot with a man's foot and part of his leg in it. At first he could hardly believe his eyes, but when he split the boot open with his knife he further found that the sock was still on the foot but badly decayed. He took it to the camp and showed the men, and still has the boot in his possession.

Death Of A Nurse.

Bellefleur, Nov. 5.—Nurse Clara May Linn died at the hospital here. She was twenty-three years of age and was born in Rawdon township, being a daughter of William Linn, a prosperous farmer. A sad feature of the case is that a younger sister was buried the day previous.

German divisions are now appearing on the firing line with many hundreds of rifles below the German normal of 6,750.

Getting Back \$12,000,000.

The paper controller for Canada a few weeks ago added \$12 a ton to the price of newsprint paper—the kind of paper used in printing the British Whig. This addition, following closely upon several previous increases authorized by the paper controller, has meant to Canadian newspaper publishers a total increased publishing cost in the matter of paper alone, in the past eighteen months, of three million dollars! This very considerable sum Canadian publishers must recover from their customers, their readers and advertisers.

In connection with the earlier increases the readers of many daily newspapers have been required to pay \$1 or more per year for their newspapers, while the subscription price of very many weekly newspapers has been increased from fifty to one hundred per cent. In many cases still further increases will be necessary.

But all the three million dollars increase in paper costs cannot be loaded on readers; some of this sum must come from advertisers—this in the form of increased advertising rates. Advertising rates in Canada are, generally speaking, much lower per thousand of circulation than in the United States. Speaking on this point the editor of Marketing, a Canadian advertiser's newspaper, published in Toronto, says in his last issue: "In meeting the Canadian publishers' calls for higher rates, advertising buyers should not fail to recognize that for years they have benefited by the publishers' undervaluation of his space, and should be the more willing on that account to recognize the present necessities." To all of which the Whig agrees.

Colborne Doctor Dead.

Bellefleur, Nov. 5.—Dr. Willis A. Sargent, aged forty-four years, of Colborne, died Friday after a brief illness. A widow and two children survive. The son is overseas, having enlisted while attending Albert College, in this city.

LEMON JUICE WHITENS SKIN

Girls! Make beauty lotion at home for few cents. 2,900 CANADIANS ARE CAPTIVES OF GERMANY

Some Have Escaped, Others Died, Some Are Interned, Most Yet Prisoners.

Ottawa, Nov. 5.—Canadians have a strong interest in the London contention that all Allied prisoners of war in Germany should be returned as one of the terms on which an armistice should be granted. Although about 2,900 Canadians have been taken prisoners by Germany. From time to time one or more Canadians have escaped, some have been exchanged, and others have been interned in Switzerland. A number have died in prison, but the great majority are still in Germany.

The London Times, discussing the necessity for preparedness for diplomatic work with a view to peace, says it is high time for Britain to assemble representatives of the Dominions whose full participation in the peace conference is a matter of course.

GERMANS PLOTTED TO KILL KNEELING WORSHIPPERS

London, Nov. 5.—American troops occupying the village of St. Martin Riviere on the British front, found within the bell of the church a powerful bomb connected by wire with the monstrances on the high altar.

The removal of the monstrances for benedictions must have caused the wreck of the church upon the kneeling worshippers. American engineers have prepared a report upon this attempted crime.
