141 Princess Street

Kingston

GOSSIP HEARD ON THE SIDE

"BIG NOISE" SHOULD FOLLOW PEACE ANNOUNCEMENT.

Large Number of Citizens Were Inoculated Last Week Against "Flu"—"Bob" Bushell Wants Kaiser For His Midway at Kingston Industrial Fair.

A citizen suggested to the Whig that the city prepare for a "big noise" when the word is received that peace has been declared.

The suggestion has been made that the "noisy time" committee that arranged for the programme for the opening of the Victory Loan campaign be given the job of arranging for the noise that shall follow the receipt of the news that the war is over. Every whistle and bell in the city should be sounded, and every flag and piece of bunting available should be put out in honor of the occasion. No doubt a holiday will be declared for a big peace celebration, but when the news is received that the war is over, all the noise-making devices should be made to work overtime. Kingston should make a noise that can be heard all over the surrounding district.

According to the reports of the doctors, a large number of citizens were inoculated against the "flu" last week. Many of the doctors were engaged until a very late hour every night inoculating citizens. The doctors have been spending all day looking after sick patients, and devoting the evening hours to the work of inoculation. Their offices have been crowded with people every night. Business has certainly been rushing with them.

Not one sound of protest was heard from the kiddies' over the schools remaining closed to-day. The general opinion is that the Board of Education acted very wisely in not opening the schools. Similar action has been taken in other places, as it was feared that children might come to school from houses where members of the family are laid up with the disease.

"Bob" Bushell, the hustling manager of the Kingston Industrial Fair, has been heard from in regard to the discussion over what shall be done with the Kaiser. He suggests that "Bill" be handed over to his midway next fall as a special attraction. He says he is sure to be a big drawing card.

Judging by the number of liquor cases before Magistrate Farrell the past few weeks, a goodly number of citizens have been indulging in "flu" preventive. And the strange part of it all is that the people coming before the magistrate are for the most part first offenders. Where are all the "old timers" who in the old days bobbed up before the magistrate every little while. The Ontario Temperance Act must be a good thing for them.

The municipal pot has commenced to simmer. Ald. H. W. Newman has started the mayoralty contest. He is the first to get in the fight, and is hoping that he will be first choice when the citizens give their verdict.

Miss Ida Miller, of U.S. Consul Johnson's office, is quite ill.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend a Few Cents! Dandruff Disappears and Hair Stops Coming Out.

Try This! Hair Gets Beautiful, Wavy and Thick in Few Moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of anything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

To Avoid and Relieve Influenza.

By Dr. Franklin Duane.

Many people have been frightened by what they have read or heard of influenza. The more you know of the disease, the surer you are to get it right about your business and forgo the right to spread it. As the disease is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with a one-to-five hundred solution of zinc sulphate. It is worn in and out before wearing over the nose and mouth. You should avoid crowds, common drinking cups and spittoon. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food. If you have any of such symptoms as chilliness, nasal obstructions, flushed face, weakness, or irritating cough, give up work at once and go to bed. This will save your strength. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild laxative as Peppermint Tablets, or an equal quantity of castor oil. Drink principally of hot drinks. Then cover up with plenty of warm clothing and get a good sweat. When sweating is free and the fever reduced take a dose of two Aspirin Tablets every four hours, followed by drinking at least a glass or two of hot water. Drink principally of hot drinks in same relief. Empirical as it is, it is as good as made for use in the nose, strength as made for use in the nose, and as hot as can be borne, it is quite an effective remedy for the influenza soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is a danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength, in and out of bed, take at least two capsules of "Ironite" or that well known hereditary medicine, Pierce's Medical Discovery, which has been used by thousands in the past two generations.

LEUT. J. A. SANFORD.

The New Soldiers' Aid Commission Representative.

Lieut. J. A. Sanford, appointed representative of the Soldiers' Aid Commission here, is well known in No. 3 military district. He went overseas as a corporal in the first contingent in the 8th Battalion of the "Little Black Devils" from Winnipeg, and was wounded at St. Julien. He was included home, and after recovering from his wounds was given a commission and appointed adjutant of the 15th Battalion. He did great work in recruiting in Eastern Ontario military district. After going overseas he was transferred to an Eastern Ontario Battalion, but took ill while that unit was on its way to take part in the battle of Passchendaele. He was granted furlough to Canada, and while in Toronto suffered from a serious nervous breakdown, and was sent to hospital. After receiving a few months' treatment at the Ontario Military Hospital, Cobourg, he was discharged and he has now been given this position in Kingston.

WARM APPRECIATION

Of Work of Press in 1918 Victory Loan Campaign.

The following letter from Sir Thomas (White, Minister of Finance, speaks for itself:

To the publishers and editors of the press of Canada: I desire personally and on behalf of the Government to express our most earnest thanks to the press of Canada for the splendid support given so freely and generously to the Victory Loan. This fine patriotic service is all the more deeply appreciated by reason of knowledge of the many difficulties which have been imposed upon the press by war conditions, and of the disorganizing conditions owing to the prevailing epidemic. I feel that the success of the loan will be in large measure attributable to the invaluable assistance of the press.

D.C.M. Awarded To Canadians.

An interesting record of long and continuous service in France is furnished in connection with the conferment of the Distinguished Conduct Medal on the following: Sergt. H. C. Stone, Bloomfield, Ont., has done three and one-half years and has evacuated wounded in hazardous conditions without casualties, showing great judgment and ability. Quartermaster-Sergt. W. R. Garrison, Hastings, has done three and one-half years delivering rations under circumstances of great difficulty and danger.

For Railway Commissioner, The Ottawa Evening Citizen says: W. F. O'Connor, K.C., of the Justice Department, former general returning officer, and Cornelius Birmingham, of Kingston, are two reported aspirants for the vacant railway commissionership due to the expiration of D'Arcy Scott's term.

In The Casualty Lists.

Henry Jay Hilliker enlisted at Cornwall on May 26th, 1915, and came to Kingston to join the 59th Battalion. He trained with that unit at Barrfield camp and Cornwall, and went overseas in April, 1916. Two months later he went to France. He has now been reported wounded. His parents live at Clarenceville.

Sale Of Real Estate.

A detached brick dwelling, No. 107 York street, to L. Nour; stone dwelling on King street, Portsmouth, to W. Wood; bungalow, St. Lawrence avenue, owned by H. A. Derbyshire, by E. W. Mullin & Son.

Capt. W. Wallace McKay, a graduate of Queen's, was very low grade influenza and pneumonia in an English camp, but he pulled through and is now rapidly convalescing.

Public is Warned against using Dangerous Hair Preparations

Recent research on the part of hair specialists reveals the fact that many dangerous and delicate scalp diseases are caused and rendered incurable by the indiscriminate use of shampoo preparations. Chemical analysis proves that most liquid preparations for shampooing contain an excess of alkali (a harmful irritant) which cuts its way into the pores of the scalp, rots the roots of the hair, thus causing it to fall out. The surest, safest and most efficient way to make your own liquid. Buy a carton of Velsor at any drug store. Dissolve one of the small packets into half glass of fresh water and you will have an abundance of pure non-injurious liquid that will relieve itching of the scalp, falling hair and dandruff, also improve the natural color of the hair. Velsor being in concentrated form never spoils and will keep forever.
