

A COLD PREVENTIVE

Have you ever come out of a theatre, or church or over-heated room and felt, immediately the cold night air caught your throat and breathing passages, that you were going to catch cold? That is the time to take Peps. Two or three Peps taken at once will prove an unfailing preventive. A cold developed means needless suffering and expense. Safeguard yourself by always keeping a box of Peps on hand. They are also best for coughs, sore throat and bronchitis. All dealers, 50c. box.

Why Hair Falls Out

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of Dandee at any drug store for a few cents, pour a little in your hand and rub well into the scalp. After several applications all dandruff disappears and the hair stops coming out.

Heart Fluttering Easily Corrected GOOD ADVICE TO FOLKS BOTH-ERRED WITH PALPITATION, WEAKNESS, ETC.

If your heart flutters, be careful. An attack is liable to come on at any time. Excitement, over-exertion or emotion may cause it. If blood rushes to the head, if palpitation and short breath are noticeable, there's cause for alarm. If you want a good honest remedy try Ferruzone. We recommend Ferruzone because we know it's just right. It cured A. Beadie, who lives at Allen Hotel, Bay City, Mich. See if your symptoms resemble these: Some Symptoms of Weak Heart Nervousness Palpitation Trembling Dizziness Sinking Feeling Heart Pain Short Breath Weakness. Mr. Beadie says: "I was weak and miserable. I was subject to heart palpitation and dizziness. As I grew worse I began to have trembling and sinking sensations. Ferruzone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great restorer." By strengthening the muscles of the heart, giving proper circulation and causing a general rebuilding of the whole system, Ferruzone is bound to do grand work. Try it, 50c per box, or six for \$3.50.
