The New Better and Safer Way to Wash Your Hair

Dandruff is the primary cause of falling hair. This disagreeable condition of the scalp and hair glands is almost certain to cause temporary or permanent baldness.

Loss of hair may also be attributed to the use of improper shampoos containing irritating substances, animal oils and alcohol, any of which may produce gradual decay of the hair.

Don't use a stale liquid preparation that contains too much alcohol (a harmful irritant). The surest, safest and easiest way is to make your own liquid. Buy a carton of Vaseline at any drug store. Dissolve one of the small packets into half glass of fresh water and you will have an abundance of non-injurious liquid that will relieve itching of the scalp, falling hair and dandruff also improve the natural color of the hair. Vaseline being in concentrated form never spoils and will keep forever.

A Little Sugar Goes a Long Way

THE Canada Food Board has put the homes on their honour to save sugar. But a little sugar goes a long way when you use Corn Syrup for cooking, preserving and on cereals. It makes it easy to obey the War Order!

CROWN BRAND AND LILY WHITE CORN SYRUP

Corn Syrup, is corn starch converted into its "sugar" form, making it even more digestible and palatable. It is therefore made from the most nutritious and wholesome part of the corn.

And as corn is grown in North America, and does not require for its transportation the ships still needed so urgently for carrying food and supplies to Europe, you can use all you wish of Corn Syrup.

Write to the Canada Food Board for Bulletin on Corn Syrup, and in the meantime, get a tin of CROWN BRAND Corn Syrup or LILY WHITE Corn Syrup and try it in your favorite recipes in place of sugar.

Sold by Grocers everywhere in 2, 5, 10 and 20 lb. tins.
