Sporting Notes

The first game of the Hamilton season will be played next Friday night when Bill Marsden will take up his Aura Lee juniors, strengthened by a couple of seniors, for an exhibition contest.

"Red" Batstone, the star backfield player of the Excelsiors football team, will turn out with St. Patrick's sextette. He is said to possess a fair turn of speed and a wicked shot.

Stinson, a former Kingston player, who performed at centre for the Frontenac juniors, and afterwards for Queen's University in the O.H.A. senior series, is a candidate for a place on the St. Patrick's senior six.

Dunne, who formerly played senior hockey in the Ottawa City League, and is now attending St. Michael's College, is expected to turn out with St. Patrick's. He is reputed to be exceptionally fast and a heady player.

Shiro Akahoski is not the name of new trick kitchen mixture or of the latest Russian Minister of Foreign Affairs. It is the moniker of a new candidate for the Penn. football team. Shiro Akahoski is a Chinaman, although you would never guess it from his name. He weighs only 135 pounds.

Brown, who played last season with St. Michael's, is showing up splendidly at the Dental practices, and is expected to make a place. He is very fast and one of the smoothest stick-handlers in the game. He is a defence man, but is also a capable forward.

"Ruby" Millan has announced that he will not play hockey this winter. He is in his final year at the Dental College and is putting business before pleasure in his desire to succeed. The Toronto fans will miss this popular player, who has performed so capably in other seasons.

The Ottawa Club has written Frank Nighbor asking him to state his intentions. He may be discharged shortly from the Royal Air Force, to which he has been attached for the past year. If Nighbor cannot go to the Capital again he will be used in a trade to the Toronto Arena Club.

Montreal Star—Albert Allard still maintains that George Kennedy is going to have the first call if he wants to pay the price, and Allard seemed to think that his contract with the Jubilee Rink might be signed this week. His agent, partner, Leo Forteous, announced that what ever Allard said "went," as far as he was concerned.

They do say that "Newsy" Lalonde asked the C.H.A. for \$5,000 for his services this season, and the money must be in the bank before the season starts. If "Newsy" receives what he asks—and there isn't much chance of it—he can stay at home and mind the baby and let the magnates fight over what they will do.

The pros are still squabbling, but the amateurs are going merrily along and gathering in many new fans who in the past have looked upon these teams as merely secondary to the moneyed artists. Not only are the pros going to lose money if they continue at their present gait, but they will also lose patronage, which is much more important.

Officers of military hockey teams and for that matter teams should always bear in mind that "Too many cooks spoil the broth," says the Toronto Telegram. Many a good hockey team has fallen by the wayside just because there was no one who had complete say. One manager with all the say is better than a half dozen pulling against one another.

A GOOD IDEA

First Minnow—My but it's chilly this morning.
Second Minnow—Yes, let's go find the sun-fish and warm up a bit.

Horse Racing. With the prospect of racing being resumed in Canada next year automatically under the order-in-Council passed in the Dominion Government and which became operative August 1st, 1917, something should be done to regulate the affairs of racing by which there would be no inordinate profits by jockey clubs. A limit of say 7 or not more than 10 per cent. on the capital invested should be allowed and the balance taken by the Government and used for the benefit of horse breeders or agricultural pursuits. The clubs should be compelled to increase their purses to a minimum standard and the sport otherwise regulated so that it would be beyond criticism. Such restrictions would also wipe out by the fly-by-night half-milers, the get-rich-quick promoters and other undesirable.

Golfers Go South. Owing to the coal shortage this winter, there promises to be a record flight of Canadian golfers southward after Christmas. It is really astonishing the number of players from all parts of the Dominion who go to the Carolinas, Florida and California every season now. A few years ago the exodus could be numbered by the dozen. Now it runs into the many hundreds. With well-to-do golfers it is becoming quite the vogue to stay home during the summer and autumn months and take the annual vacation instead in the winter. Golfing and motoring are ideal in Canada from May to November. Then southward to enjoy the twin sports. It's a splendid combination if one has both the necessary time and the money.

Saved Many Lives. "Mickey" McKay, of the Vancouver hockey team, brings word from Britannia Mine that Gordon (Doc) Roberts, one of Seattle's greatest players, has been obliged to take a rest, following the outbreak of illness among miners and citizens there. Roberts intends to get back into the game again this winter. Roberts, according to McKay, worked day and night among the sufferers and was the means of saving many lives. He told McKay he would be glad of the opportunity of leaving his practice for a few weeks to play in the Pacific Coast League again.

Praise For Canada. New York Herald: Never once during the period of the war did the Canadian fancy let interest in kennel affairs lag. Shows went along just the same as usual, and most of them compared favorably with anything we have in the United States. At the recent Toronto fixture there were 700 dogs tenched. In the Dominion judges who are barred here are in great demand. Alf Delmont officiated at Toronto and George Thomas at Ottawa. Some of the best dogs on this side of the Atlantic are owned across the border.

Some Baseball Dope. Max Carey, captain of the Pittsburgh Pirates, has the distinction not only of being the leading base stealer of the National League, but also of being the only player left in that circuit who has the honor of making two home runs in consecutive innings. He performed this feat on August 19th, 1913, at the Polo Grounds when Arthur Fromme was pitching against him. No National Leaguer was able to duplicate the double homer at last season. Casey Stengel, now in the navy, and Bill Fischer, descended to the minors, were two others who had the same performance to their credit.

Hockey Star Decorated. Another sportsman has been decorated for bravery on the battlefield. Word comes from Brantford to the effect that Lieut. Roy Brown is the proud possessor of a Military Cross, which he gained by tackling a Hun paymaster singlehanded and bringing him to the Canadian lines, with 2,000 German marks on his person. Brown first gained fame as a member of the famous Paris (Ont.) O. H. A. team some years ago, and later as manager of the International League team at the South. He was interested in baseball and was part owner of the Brantford Canadian League Club.

"Bad Man" Joe Hall wants to play in Ottawa. He still belongs to the Quebec and Canadian clubs, and has been sent a contract by George Kennedy, but there is just a chance that Ottawa will work a deal to get him. The O. H. A. claims to have organized a four-club league, but refuses to divulge its make-up. It proposes to get players by outbidding the N.H.L.

BAN LIFTED ON BOXING.

Baltimore Fans Will Again Enjoy Fights in That City. The ban which had been placed on boxing in Baltimore since the United States entered the war, was lifted when the board of police commissioners gave permission to local promoters to stage a boxing carnival for the benefit of the United War Work campaign. This action, which had been previously refused, is taken to indicate that this show will be followed by renewal of regular boxing exhibitions in Baltimore.

Powder Shortage, Boys. Powder for trap shooting may be limited to about 50 per cent. of the normal output next year, in spite of the end of war. In this sport the wastage of powder is not so grave as the waste of lead, for the powder that is used in shotguns for the clay birds is not the type that is suitable for war purposes. Some bright light should devise a means of recovering the lead that goes to waste. There must be thousands of tons of it which could be mined at some of the most popular shooting grounds.

A CONGENIAL OCCUPATION

"What is Mr. Woodpecker doing now?"
"He has a job riveting."

Manly Flake has sold his farm in Athol to Malcolm Wadsworth, Milford. Mr. Flake has bought Hugh Gilmour's house and intends moving to Picton. The death is recorded of Captain the Rev. Eric Johnson of pneumonia in England. He was aged twenty-nine years and born at Carleton Place. Smith's Falls made a good record in the Victory Loan campaign, and exceeded its allotment of \$355,000 by \$50,000.
