receive careful attention. KINGSTON BRANCH,

J. F. ROWLAND,

Manager,

Sending Money to Soldiers

Those who have friends or relatives at the front, may wish to send money, but possibly do not know the best way to do so.

If time permits, the safest and most convenient method of making remittances abroad is the Bank Money Order or Draft, as issued by The Merchants Bank.

If, however, it is necessary to send money without delay, the Bank will arrange this by Cable Transfer.

THE MERCHANTS BANK Head Office: Montreal OF CANADA

KINGSTON BRANCH, H. A. TOFIELD,

ATTRACTIVE STOCKS AT PRICES To Yield 7 to 9 Per cent.

Exceptional market conditions—due to the war have caused many high grade Canadian Industrial and public utility stocks to sell at prices that yield 7 to 9 per cent. on the investment. This is the investor's opportunity-leading bankers have indicated that many stocks are selling at below their intrinsic value. Our Statistical Department will be pleased to discuss your investments with you.

You can foretell

the future' You say "The man who could If you want to keep well-wholly fortell illness would make a fortune!" Of course no man canin the sense you mean. But you can tell pretty accurately what to expect your own body to do.

How?

Get this simple physiology: Your body machine has to be repaired. It also must have fuel to supply heat and energy. Your food supplies both repair material and fuel. But a furnace always produces ashes and clinkers. If these accumulate, the furnace becomes clogged and cannot work properly.

If your bowels become cloggedyou suffer from constipation.

Perhaps you hurry to work or play and neglect to obey Nature's call. Waste matter stagnates in the bowels. You go right on eating, drinking, working. What happens? The consipation becomes established. Waste matter undergoes decay, fermentation and germ action. Poisons are formed, absorbed, carried all over the body. They attack the weakest part of

Then you know you're sick. In reality you've been getting sick since you missed that first movement.

well, all the time, so that you're on your toes every day, remove the waste.

Many people take pills, castor oil, purgative mineral waters to force the bowels to act.

These act, but they irritate, tire out the intestinal muscles, make

the trouble worse. Others take "salts" which attract water to the intestines and flush the bowels-about as gently as a fire hose. A re-action follows that makestheintestinesdryerthanever and aggravates the constipation. You needn't do this and weaken your system just because all of

your ancestors did. The Nujol Treatment moves the waste regularly, and easily. It is a purely mechanical process, absolutely harmless, based on a simple principle - that you can move a softened mass out of a tube more easily than a hard, dry one. It doesn't gripe-you won't know you have taken anything until after a few days your bowels move at the regular hour. It makes you "regular as clockwork."

Don't try to foretell illness. Forestall it. Don't wait until you are sick. Keep well now. Your druggist has Nujol.

Warning . Nujol is sold in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
