Change in Ford Policy

Genuine Ford Parts at any Reliable Garage

The Ford policy in the past has been to supply repair parts only through Ford dealers.

The number of Ford Cars in use is growing so rapidly that wider provision for Ford service must now be made

Many Garages not authorized to handle Ford Service have been repairing Ford cars and using parts of inferior quality (parts not manufactured by Ford Motor Company of Canada, Limited,) thus causing inconvenience and additional expense to the Ford owner.

It has, therefore, decided to supply genuine Ford parts—made in the Ford plant—to any reliable Garage which is rendering service to Ford owners.

TO THE OWNER — This means that wherever he goes he will find a Garage giving an authorized Ford Service.

The familiar Ford Sign will be displayed everywhere, and it will mark the Garages where genuine Ford parts are supplied.

It will no longer be necessary to "hunt up" any special Garage to obtain genuine Ford parts.

It will not be necessary to accept any parts that are not made by Ford—the Ford owner can demand genuine Ford parts.

This will mean authorized Ford service everywhere — greater convenience— better service—prompter service.

TO THE GARAGE MAN—This new Ford Policy makes it possible for every good Garage to become a Ford authorized Service Station. This means that he can secure genuine Ford parts—made by Ford Motor Company of Canada, Limited—at a discount; that he can, by improving his service to Ford owners, build up a larger trade in this rapidly growing part of the Garage business.
