Passing of W. D. Patterson.
Carleton Place, Jan. 13.—W. D. Patterson started out from Calgary via Chicago for Carleton Place to wed Miss Bessie McLean, daughter of Alex. McLean, the wedding to take place on Christmas. He either came out of or entered into a flu zone, and when he reached town he was obliged to go to bed at Mr. McLean's, and call a physician. It was seen that he was in a most serious condition and the wedding was postponed. Day after day passed with reports that he was "holding his own," or "slightly improving," or "slightly worse." His bride elect, who is a professional nurse, and had just emerged from a similar sickness, was his devoted angel and was constant in her care which had double driving power. In spite of everything Willie's life ebbed away and he "crossed the bar" at nine o'clock on New Year's evening, and was buried, on the doctor's advice the next afternoon. The deceased was born in Carleton Place, thirty-one years ago next month.

William Bryans, a well known resident of Lindsay, was found dead in bed on Friday morning.

Demobilizing Canada's Army

THE actual work of bringing back our soldiers to Canada and getting them out of khaki is in the hands of the Department of Militia and Defence. Complete plans have been made and machinery organized to handle the work. Every detail has been considered. The plan is harmonious and will work smoothly. It is described here. Notice how every contingency has been considered. How the soldier is cared for at every step. How everything is done for his comfort and to inform his waiting relatives and friends.

From France to England.

Peace is not yet signed. The victorious Canadian Corps is still a fighting unit. But as fast as the situation permits the Canadian Corps in France will be returned to Canada by units allotted, as far as possible, to the areas from which they came. These units will be reconstructed so as to include only men desirous of returning to the area to which the unit has been allotted.

The remainder of the Canadian forces overseas will be returned in drafts of 500 men for each area. Married men first, according to length of service. Then single men, according to length of service.

Preparing to Leave England.

Canada has been divided into 22 dispersal areas for demobilization, with a dispersal station for each.

1. The province of Prince Edward Island—Charlottetown.
2. The province of Nova Scotia—Halifax.
3. One half of New Brunswick—Moncton.
4. One half of New Brunswick—St. John.
5. The north country of Quebec down to Three Rivers—Quebec.
6. The remainder of Quebec—Montreal.
7. The Ottawa Valley and Ontario down to the Thousand Islands—Ottawa.
8. The Kingston district west to Oshawa and north to the Madawaska River—Kingston.
9. The Toronto district north to the French River and the north mining country—Toronto.
10. The Niagara Peninsula—Hamilton.
11. Southern Ontario—London.
12. From White River to the Lake of the Woods—Port Arthur.
13. All of Manitoba except the Brandon territory—Winnipeg.
14. The Brandon territory—Brandon.
15. Southern Saskatchewan—Regina.
16. Northern Saskatchewan—Saskatoon.
17. Southern Alberta—Medicine Hat.
18. From Calgary north to Nordegg—Calgary.
19. Northern Alberta—Edmonton.
20. All of British Columbia except 21 and 22—Vancouver.
21. Vancouver Island and the immediate mainland—Victoria.
22. Cariboo, Kootenay and Gale—Revelstoke.

Each soldier overseas chooses the dispersal area in Canada to which he wishes to go.

A report of the number of men for each dispersal area is cabled to Militia Headquarters.

As fast as they can be absorbed by the dispersal areas—a cable is sent to England for drafts.

Prior to sailing, a cable is sent from England stating how many men are coming and giving their occupations.

In this way arrangements are made to handle the men, to care for them, and to find employment for them.

Before a man leaves England he is medically examined, his discharge papers and other documents are made out. All delay in Canada over these details is avoided.

On the Ship.

The transport staff check the medical and pay documents. The Y.M.C.A. provides recreation and entertainment. Twenty-four hours before arrival in Canada a wireless is sent to the port giving details of any men who are sick and in need of hospital care, and general information that will ensure speedy transport from boat to train.

WHERE COLDS STRIKE

The throat, breathing passages and lungs are the weak spots at which colds strike. And these are the very organs most difficult to treat, because only a breathable remedy is capable of reaching the troubled region there. Peps provides a breathable remedy, and their superiority over remedies which are swallowed into the stomach is therefore obvious. For convenience, this breathable remedy is condensed into tablet form. To take the treatment, merely dissolve Peps in your mouth, and the medicinal vapor that is released is exhaled by the breath to the remotest parts of the breathing passages and lungs, healing, soothing and strengthening every part with which it comes in contact. At the same time, by destroying all disease germs, these medicinal fumes prevent the development of colds, coughs and serious chest trouble.

Carry Peps with you, and when you go from an overheated building to the bitter cold of outdoors, put a pastille in your mouth. Also as a protection against germs, keep a Peps in your mouth, when breathing the impure air of a crowded theatre or store.

For colds, asthma, or chest troubles, which have already developed, Peps are equally invaluable; also for bronchitis, sore throat, laryngitis, etc. All dealers, etc. box.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend a Few Cents! Dandruff Disappears and Hair Stops Coming Out.

Try This! Hair Gets Beautiful, Wavy and Thick in Few Moments.

If you care for heavy hair, that glistens with beauty, and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

SURE! BUY A BOTTLE! SEE WHAT IT DID FOR RUSSIA

BEFORE AND AFTER TAKING ONE DOSE OF DANDERINE

These figures do not include Macedonia, when many died of influenza, exhaustion and famine, and 99,000 were taken prisoner. Wisdom consists in knowing what you should learn in order to live.
