Jack Johnston's Shoe Store
 70 Brock St. - Kingston

Kingstonian, has been repatriated, is an Englishman, who came to Canada after being a prisoner-of-war for two and a half years ago. His home is in years. After going overseas, he was in Toronto, and he has a brother transferred to the 4th C.M.R. After serving in the R.E.D.

HEARD ON THE SIDE

Harry Lauder is writing a book on his present tour. One page is to be devoted to his trip to the outer station in Mayor Harry Newman's auto, which ran into a snow bank when the two Harrys had to hoof it to the station in time to catch the train. Harry Lauder remarked that the incident would make fine "copy."

Up in Windsor the Board of Education is thinking of installing a time clock so as to keep tabs on the pupils. The men under Chief "Bob" Nesbit look after the bad boys and girls here, so there is no need of the Kingston Board of Education thinking about any such scheme for this seat of learning.

Have you been fishing yet? Some of the winter followers of Isaac Walton are having a great time on the harbor, catching members of the army tribe, but they state that the ice is very dangerous in some places. One fisherman caught upwards of one hundred fine perch on Thursday.

The members of the Board of Education will now have an extra treat to add to the programme at the farewell suppers held at the end of the year, and it will be "The Ladies," for they now have two members of the fair sex on their roll.

The keepers are sitting up late at nights trying to figure out how they are going to get in their usual crop of ice. The Weather Man is certainly giving them some worry at the present time. But cheer up, February has yet to come but it will mean that the ice will have to be hauled in at a fast rate.

The cotton mill girls who have been amusing themselves, while on strike, pelting the employees who want to work, are pretty good shots. They should have been sent overseas and attached to the bomb-throwing battalion. Kaiser "Bill" would sure have been landed had these lassies got their eyes on him.

The local doctors are "flicked to death" to learn that the Government is going to take over the work of giving out prescriptions for liquor. "Giving this work over to the doctors was one of the worst pieces of legislation the Government ever put through," remarked one local physician on Thursday, when he read the bulletin from Toronto about the change to be made.

The Whig's "More Pep" magazine was much in evidence on Thursday. Business men and citizens in general are catching on to the keynote of this little magazine. "Even the street cars can stand a little more pep," one citizen was heard to remark as he stood on a corner waiting for a car to go home to dinner.

The other day a woman came here from a western town to corral her hubby, whom she claimed, had deserted her. She found him laid up in a local hospital, suffering from the "flu." Her heart melted, and she had the police put aside the warrant she had issued for his arrest. Now, hubby is better and able to be around, but declares that he will have nothing to do with his wife. That's gratitude for you.

Mayor Newman made a great hit with the members of the Board of Education. He is the first mayor of Kingston in many moons who failed to appeal to them to cut down their expenditure. Evidently Mayor Newman believes in putting all the money the board can possibly get into education for the children.

Last winter coal was the burning question of the hour, and the cold weather kept it burning. This winter, thanks to the Weather Man, there has been no talk about a coal famine. The coal dealers are even advertising coal for sale these days.

There is too much abusive language heard on the street these days on the part of drivers. And for the most part, this bad language has been heaped upon the poor horses. Some of these days there will be a gathering of some of the offenders in Magistrate Farrell's court. Men who use such language are not fit to be drivers.

The pupils of the Kingston schools are soon to take up music, according to the note dropped by Chairman Frank Anglin, in his inaugural speech to the Board of Education. All the boys and girls should be able to sing patriotic songs at any rate.

"BILL" ANSON IN GERMANY
 Member of Fighting Family Writes to His Mother.

Mrs. F. G. Anson has received a couple of letters from her son "Bill" Anson, one of the members of a well-known "fighting family." One letter is written from Belgium, under date of November 2nd, and the other from Wallerberg, Germany, on December 12th, 1918. In his letter written from Belgium, he stated that he was

TAKES ABOUT TWO WEEKS

TO DISCHARGE A MAN AT THE DISPERSAL STATION.

It is hoped to be able to give a man his discharge within three days after his arrival at Barriefield.

Owing to the prominence that is given to the discharge of the returned soldier, and the varying comments on the subject from time to time, a representative of the British Whig paid a visit to Dispersal Station "G" on Thursday to ascertain at first hand just what the procedure was. This station is situated in Barriefield and consists of a group of buildings recently erected on the government reserve a short distance from the approach to LaSalle Causeway. No inner barracks can be found anywhere. There are at the present time between 400 and 500 returned soldiers domiciled there and the colony is absolutely self-contained. Major Hooper is O.C. and Lieut. "Jack" Williams, adjutant. There is a dental corps and a final medical board, the head of which is Captain Stevens. Lieut. Westmore represents the district vocational officer.

The present accommodation is 1400 men, but when all of the buildings are completed there will be accommodation for 5000. There are twelve dormitory buildings divided into quarter sections, each having a capacity for 256 men. There is a dining room and kitchen adjoining each, a recreation room and canteen. All of the buildings are heated by stoves, contain electric lights and are well ventilated. The men when questioned regarding the accommodation replied that it could not be better. It was the best they had had since joining the army. There is a separate hospital building for the sick.

The camp may be said to be divided into two parts, reception and disposal. When the soldier returns from overseas he is assigned to the reception barracks. Here he turns in his kit to the quartermaster. He then visits the dentist for dental tests and receives treatment. From the dentist he goes before the vocational officer with the object of ascertaining the extent of the disability the soldier suffers from as a consequence of his service in France or England. All men handicapped by disability are reported to the district vocational officer for M.D. No. 3, and when re-education or vocational training is decided upon, they are invited to choose one of courses provided. Up to the present time the percentage of men refused re-education is very low. During the past two and a half months 590 men have been examined for re-education.

The next step is the final medical board, and after passing this board, the soldier is transferred to the disposal barracks to await discharge. About two weeks elapses from the time of admission to discharge, and the men are being discharged at the rate of from 50 to 70 per day; but it is understood that arrangements are being made for the acceptance in Canada of the last medical board in England. This will eliminate the medical board here, making it possible for the man to get his discharge within three days after arrival, unless he is a subject for medical treatment.

CAPT. EDWIN A. BAKER
 Is Appointed Head of Pearson Hall in Toronto.
 Another appointment has been found for Captain Edwin A. Baker, M.C., Croix de Guerre, who graduated from Queen's University in 1915, and was blinded in action in Belgium in the early part of the war. He has been appointed head of Pearson Hall, Toronto, for the re-educating of blinded soldiers. Pearson Hall was officially opened on Tuesday last. Captain Baker was the first Canadian to graduate from St. Dunstan's Hospital for the Blind, and the most accomplished man ever to have gone out from there. His one ambition now is to afford all the blinded soldiers with the opportunities which St. Dunstan's give to the military sightless, and to this end he has been given this new appointment. His parents reside near Collin's Bay.

HELD INAUGURAL MEETING

Health Committee for 1919 Held First Meeting on Thursday.

The inaugural meeting of the health committee for 1919 was held on Thursday afternoon. The chairman, Ald. Norman A. Smith presided, and the other members present were Aids. Anglin and Stroud.

It was decided to have the city clerk write dealers in wood in the surrounding district regarding the supply of wood necessary for the season. Prices will be secured by the carload and by the cord. The committee is anxious to get figures and to see what the outlay will be and to make the best possible deal. The usual motion giving the chairman the power to make purchases up to \$50 was passed.

Soldiers From S.S. Metagama.
 A telegram from St. John, N.B., on Thursday stated that the following men had arrived on the S.S. Metagama and would leave on the troop train about 9 p.m., arriving in Kingston on Saturday:

Corp. D. Clissold, Athens; Pte. H. E. Babcock, Napanee; Sergt. F. J. Blue, Hastings; Lance Corporal, J. A. Durr, Ottawa; Pte. W. T. Dyer, Peterboro; Lance Corporal, A. D. McKinnon, Williamstown; Sergt. J. A. Ferguson, Belleville; Pte. D. O. Fraser, Arden; P. E. Doonan, Kingston.
