

THE BRITISH WHIG 85TH YEAR

Published Daily and Semi-Weekly by THE BRITISH WHIG PUBLISHING CO., LIMITED.

J. G. Elliott, President; Leman A. Gould, Editor and Managing Director.

Subscription rates: One year, delivered in city, \$5.00; One year, if paid in advance, \$4.50.

Special Representative: F. W. Thompson, 57 Mail Bldg., Toronto.

Attached is one of the best job printing offices in Canada.

The circulation of THE BRITISH Whig is authenticated by the A. B. C. Audit Bureau of Circulations.

There is one thing about Sir Clifford Sifton, rightly observes the Brockville Recorder-Times; he raised a family of boys who were not afraid to face the Hun.

For the first time in the history of Britain the labor party occupies the opposition benches. It is an important fact in the steady rise of the industrial class to power.

German prisoners, to the number of 200,000, are to be utilized in making good the destruction the Hun armies caused in France.

Toronto, "the good," will require one million dollars to maintain its police force this year, an increase of more than \$230,000 over last year.

The second issue of the Whig's new little magazine, "More Pop," is now being circulated.

A registered Holstein cow in California has made the unprecedented record of producing 33,424 pounds of milk in a year.

There will be no patriotic fund campaign this spring. The Salvation Army appeal has the right of way.

"The Americans—the real Americans—were in this war from the very first," declared Harry Lauder Tuesday night.

The Indian Association at Nairobi recently asked that German East Africa be reserved for Indian colonization under the direct control of the Indian government.

The war debts of the Allied nations increased from \$18,400,000,000 in 1914 to \$130,000,000,000 in 1919.

There are those who saturate themselves with the idea that the days of the Union government are short, that it cannot weather the coming session.

the people, save the extremists of the old and defunct parties.

A local coroner's jury, on Tuesday recommended that the provincial government conduct an advertising campaign in order to educate the people concerning the deadly effects of wood alcohol.

DO WE EAT TOO MUCH?

There died in California the other day a man who for more than the last half of his life had advocated periods of fasting as the way to good health and long years.

The three allied religions of the world—the Christian, the Jewish and the Mohammedan—all recognize and impose the practice of fasting.

Most of us eat, too much, too often and in too great quantities. Scientific observation has proved beyond a doubt that overfeeding is fully as dangerous as underfeeding.

CANADA'S DAIRY INDUSTRY.

The report of the Eastern Ontario Dairymen's Convention, held at Belleville last week, shows that great strides have been made in the development of this industry.

While there was a decrease in the quantity of cheese produced, compared with the previous year, the value was \$351,356 greater.

COLD FACTS ON A BURNING MATTER.

An adequate supply of cheap fuel is a prime necessity in Canada. Life cannot be preserved throughout the winter without it.

men to cope with the situation in an effective manner, and to do it now.

No determined and systematic effort has ever been made by the federal government in this direction.

When the country was first penetrated sparsely by settlers, the land was covered by forests which supplied fuel in seemingly inexhaustible quantities.

There are great quantities of coal in Canada. But, being situated at the extreme confines of the continent, its distribution to the middle regions is almost a physical impossibility.

When we consider the basic facts of combustion we find that heat is evolved in every fuel by the development from the fuel of gas and its burning in union with air.

PUBLIC OPINION

Publicity Pays. (Brantford Expositor) Publicity was found to be most advisable in war.

Keep Them Out. (Montreal Herald-Telegraph) Our motto should be Canada for Canadians and men who want to be Canadians.

Germany Must Pay. (Toronto Star) Germany may protest she is gone mad, or she may go, but when she recovers the expense account for reparation and restitution will be right there, and unreduced by a farthing.

Both Dissatisfied. (London Free Press) There is such a thing as not knowing when we are well off.

Watchword of Industry. (London Advertiser) Co-partnership and co-operation are the watchwords of industry.

Moderate laborites defeated the radicals for control of the Toronto trades and labor council.

Rippling Rhymes

SOME OTHER THINGS

Oh, partners, let us not forever discuss the war and what it cost; it is not wise or sane or dignified to turn our faces forward, and think of things that should be done, and not be always gazing backward.

—WALT MASON.

Maine Shoemaker

Tired All Time, Did Not Want to Work. How He Regained Strength. Sanford, Maine.—"I suffered so much from a run-down, nervous condition and stomach trouble that I never felt like working and had tried almost everything without relief.

There is no secret about Vinol. It owes its success to beef and cod liver peptones, iron and manganese peptones, and glycerophosphates.

Cocoanut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly.

You can get muscified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion, or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.
