Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary light cream, apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

AMENDMENTS TO THE O.T.A.

SUGGESTED BY EDITOR R. S. PELTON, OF IROQUOIS.

Towards Meeting the Grievances of the Hotelmen and Thereby Removing the Sting in the Traffic Against the Act.

R. S. Pelton, editor of the St. Lawrence News, Iroquois, was a caller at the Whig today. He is in the city seeking information among the local hotelmen as to their grievances, if any, against the Ontario Temperance Act, and suggestions of amendment in the hotel interests without in any sense weakening the act itself as a moral and economical force from the temperance viewpoint.

Mr. Pelton, as a member of the executive of the Dominion Alliance, the Ontario branch of which meets in a few days in Toronto, will introduce certain amendments to the O. T. A., with a view to making the hotel business pay better than it is at present, granting it certain exclusive concessions in the sale of tobacco in every form, under license and regulation of the Government as part of the conditions of licensed or standardized hotels.

While any in the draft form, pending the suggestions of the hotelmen themselves, or such of them as are in favor of the innovation, Editor Pelton suggests among other amendments:

1.—In communities where there are standardized hotels there shall be no unlicensed hotels, as a protection to those meeting the requirements of the law.

2.—Said hotels to have in addition to whatever privileges they now have, the exclusive sale of soft drinks, tobacco, cigars and cigarettes.

3.—In unorganized or rural communities to be served by licensed hotels, it shall be the duty of the License Department to name such local stores or individuals as fit and proper persons to sell tobacco, cigars, cigarettes and soft drinks, and adding accommodation and meals and stabling for beasts for the travelling public, as well as the inspector and efficient administration of the Act conforming with the licensed hotel. This would make it worth while to the none too well patronized country store, while at the same time affording the public better travelling service. The commercial travellers especially would greatly appreciate such accommodation in their behalf among their scattered rural customers.

4.—In communities where there are licensed hotels or Public Inns, there shall be no private or unlicensed restaurants catering to public trade.

5.—Children under 12 years shall not be sold cigarettes, under the heavy penalty and ultimate forfeiture of license upon second or third offence. This in itself would tend most effectively to bring this pernicious habit among the youth under better control and tend to a desired reform not now possible. It is more responsible to the public, for under the amendment act Mr. Pelton would have no division of responsibility so far as the Government is concerned, a suggestion strongly approved of by many friends of the Act.

The restrictions placed upon the sale of cigarettes must ultimately place the complete doing away of the growing evil among the children of the land and future slaves of the tobacco habit. It is the most effective weapon yet devised since it places better control of sale at responsibility higher up—the license department itself—instead of the present haphazard division of responsibility of infractions of the law.

Editor Pelton answers his temperance critics, who see in the reform a tendency to create more hotels and public resorts that might add to the difficulties of strictly temperance regulation and Government inspection, by answering that the present \$1, which is no fee at all, because of the indifferent inspection of the Government, an increase in the license to, say, \$25 per year for standard hotels, and \$10 per year for rural inns. Mr. Pelton says in his visit among the Kingston hotels he did not find a single hotelman opposed to a reasonable increase in the license if only they could make their business more profitable under the O. T. A. He also, to take the sting out of the traffic against the act by granting such concessions to hotelmen of good record and honest effort to meet the requirements of the law, we must find out what our hotel friends feel grieved about, and in so far as possible give them not their old traffic back, but the

allied traffic properly belonging to them, soft drinks and the tobacco trade of the province of Ontario, under Government regulation as to quality and price of goods and service rendered.

Mr. Pelton visited most of the hotels in the city and found them all serving the public as best they could under the limited sources of revenue granted them. The hotels visited are as good as any visited in Eastern Ontario, and yet there was plenty of evidence of need of repairs and paint to make them what they should be, and as evidence that they needed some commercial stimulant to make them pay. As one hotelman put it, "Every other business in town can branch out and sell what it likes, but we hotelmen must confine our efforts to providing meals, at which, under the present high cost of living, is not profitable, and we demand some consideration of the public whom we serve as a necessity in the community." And with inexpressible sadness in his eyes and a far-away look that bespoke of other happier days, he added, "I wish, if we had the wine and beer license back again there would be no kickin' comin' from us."

"No," said the editor-reformer, but what about the "kick in the tanglefoot?"

Any hotelman having any complaints to make is requested to mail them to Editor Pelton, Iroquois, Ont., at once, so that they can be considered before the Alliance convention, which meets early next month, and later revision of the Ontario Temperance Act by the legislature prior to submission of the referendum, which the temperance forces hope and believe will bring about provincial prohibition.

The Victims of La Grippe

Every winter la grippe sweeps over Canada like a scourge, leaving behind hundreds of health-wrecked victims. Ask any of those who have been attacked by la grippe what their present condition of health is and most of them will answer, "since I had the grip I have never been well." This trouble leaves behind a persistent weakness of the limbs, bad digestion, shortness of breath, and palpitation of the heart, caused by the thin-blooded condition in which grip almost always leaves its victims after the fever and influenza have subsided. They are at the mercy of relapses and complications, often very serious. This condition will continue until the blood is built up again, and for this purpose nothing can equal a fair treatment with Dr. Williams' Pink Pills. From first to last these pills make new, rich, red blood, which reaches every organ and every nerve in the body. Thus the lingering germs are driven from the body, and the weak, despondent victims of la grippe are transformed into cheerful, healthy, happy men and women.

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

NAPANEE MAN PROTESTS AGAINST SENDING A CERTAIN SOLDIER TO JAIL.

Frederick Grange, a Returned Man, Lies in Jail in Napanee on a Drunk Charge Which He Disputes.

Napanee, Jan. 27.—(To the Editor): For weeks past the public press has been calling attention to the country to use every means possible to help our boys who are and will return home from overseas, and rightly so. One case in point I wish to call your attention to is that of Private Fred. Grange, who is now doing two months in the common jail in Napanee. I visited Fred. Grange at the jail on Sunday, Jan. 26th, and took down in writing this story as he related it to me:

"I was arrested in Napanee on the night of Dec. 21st by Night Watch R. A. Beard on order of Walter Exley, license inspector for Napanee (and possibly for the county). I was put into the lockup and after one and a half hours taken from the lockup to Dr. J. P. Vrooman's office. The doctor gave me two tablets and told me to go home and stay there. Before leaving town both Mr. Exley and Mr. Beard searched my wagon with a searchlight ere I left for my father's farm in the 5th concession of Camden.

"I was in town the following Saturday. Mr. Exley passed me on the street and Police Magistrate Rankin also passed me, and passed the time of day with me. The following Saturday evening I was in town. On Monday, Jan. 6th, George Greer served me with a summons to appear before Police Magistrate Rankin the following day on the charge of having been drunk on Dec. 21st. I, of course, looked upon the matter lightly and did not have any witnesses or lawyer at the trial.

"Walter Exley swore that he saw me on the night of Dec. 21st and so did Nightwatch R. A. Beard, but neither of these witnesses found any liquor on me, or did they see me drink any at the time. I was, of course, in the town. His Worship Rankin, in giving his judgment, fined me \$100 and costs, to be paid forthwith, or in default two months in jail at hard labor.

"Fred. Grange very properly, in my opinion, refused to pay the fine and costs, and has been in Napanee common jail since Jan. 7th. This very man, who left his father's farm on Sept. 22nd, 1914, and enlisted in Kingston in the C.F.A., spent three years overseas for King and country, and was invalided home in September, 1917, for nerve and other troubles and received an honorable discharge some six months later.

"I took the matter up with Mayor J. E. Robinson on Saturday last. He informed me that some committee had the matter in hand. In the meantime this worthy son of Canada lies in our common jail. If the war had to be won by a committee I fancy it would have been lost

Probs: Wednesday, somewhat colder; light snows.

Specials For Wednesday!

An Absolute Clearance of Winter Coats

In order to have an absolute clearance of all our winter coats we have decided to offer them to-morrow at prices which are a fraction of his original cost. All marked in plain figures and fashioned in the very latest materials and styles.

They are made of such fashionable materials as whitenys, velours, beaver cloth, blanket cloths, and tweeds priced at:

Regular \$17.50 to \$25.00 To-morrow \$14.95.
Regular \$29.50 to \$35.00 To-morrow \$18.95

Repairs to City Buildings.

At a meeting of the city property committee on Monday afternoon the chairman, Ald. Corbett, the city engineer and the caretaker were appointed to make a survey of the city buildings and report as to the repairs required. The committee would like to get a couple thousand dollars grant from the city council for this purpose.

One hundred and twenty thousand men are idle in Vienna, and the number is growing daily.

DALY'S GOOD TEA for sale in Kingston at MAHOODS DRUG STORE; in Napanee at Wallace's Drug Store. Strikes spread in England and the situation is very serious.
