Has Resigned Position.

Pictou, Jan. 28.—H. D. Cleminson has resigned the office of county road superintendent. For five years Mr. Cleminson has performed the duties of the office with much credit to himself and benefit to the county. Retiring from the wardenship at the end of 1918, he was appointed road superintendent, and has held this onerous position ever since. Mr. Cleminson has accepted the position of manager of the Dominion Cannery farms. His resignation as road superintendent will take effect in March.

Loses Sight from Snowball.

Carlton Place, Jan. 28.—An unfortunate accident occurred on Bell street on Monday whereby Edward Chamney may completely lose the sight of one of his eyes. He and J. C. Buchanan were coming in with a load of wood when some boys snowballed them. One of the missiles struck Mr. Chamney in the eye, injuring it so seriously that he had to be taken to Ottawa for treatment. We understand the specialist holds out small hope of saving the sight.

One might as well attempt to dip Lake Ontario dry with a pint cup as to get a girl to give up the man she really loves.

Judge William McKay Reside, sent for Judge Waterloo county, is dead.

NEW ISSUE EXPECTED.

Absorption of Bank May Lead to Small Issue.

The Royal Bank, the Union Bank, and the Bank of Hamilton have successfully offered new stock to shareholders in recent weeks. The Bank of Nova Scotia may be fourth in the list.

It is understood that, in order to round out the capital of the combined Nova Scotia-Ottawa institution to an even \$10,000,000, a small amount of stock (\$300,000) will be offered to shareholders when the amalgamation is complete. Whether a dividend increase is also a possibility of the future is open to surmise. One consideration suggests itself. The holder of five shares of Bank of Ottawa received an annual income of \$50 which would be reduced to \$36 when he exchanged for four Nova Scotia shares. The adjustment would be complete if the Nova Scotia dividend became 15 per cent.

No Big Financing.

It is learned that no big private financing operations will be undertaken in the United States until the next Government loan is disposed of, and as the offering of this issue will not be made for two months, it is believed that Wall street and other financial centres will be very quiet until May.

Offer Great Inducements.

An investment banker in discussing the situation in New York stated that he was advising his clients to put idle cash into long-term bonds. With the Government about to issue some \$4,000,000,000 bonds or notes, he said, he was of the belief that well selected long-term bonds offered the best inducements to investors.

Sugar Corporation Issue.

At the meeting of the Cuba Cane Sugar Corporation it was decided to ask stockholders to authorize an issue of \$25,000,000 of first mortgage bonds for the purpose of financing the company's floating debt, which, according to the last balance sheet, totalled in the neighborhood of \$12,000,000. It has not been definitely decided just how much of the authorization will be put out at this time, this being a matter for future consideration of the board.

The factory received 2,410,000 pounds of milk, making 216,312 pounds of cheese, and paid an average of \$1.89 1/2 per cwt. for milk. Whey butter was made, for which an average price of 39 1/2 cents per lb. was received. Next season the whey cream is to be sold to Trenton creamery.

A man may take in sufficient liquid refreshment to throw his conscience temporarily, but it will be on hand ready to resume business the next morning.

Free Medical Treatment for Ex-Soldiers and Sailors

THOSE discharged soldiers or sailors who become ill or disabled again as a result of some disease or injury suffered during war service receive free medical and surgical treatment.

This service is provided by the Medical Branch of the Department of Soldiers' Civil Re-Establishment.

An ex-soldier or ex-sailor who has a recurrence of a war disability should, if he is not too ill, go at once to the local medical officer of this Department.

If he is too ill he should have that medical officer notified at once.

Should he be taken ill in a place where there is no representative of the Department, he should call in a local physician to give him the necessary immediate treatment and ask him to communicate immediately all details of the case to the nearest medical officer of the Department.

The name of the authorized medical representative of this Department for each locality is given alongside.

Treatment at the expense of this Department can only be secured through these representatives. The Department cannot pay any bills for treatment which have not been authorized by the Department.

If the medical officers recommend it, pay is given to patients, and allowances are granted to their dependents by the Department, during the period of treatment.

The established scale of pay and allowances that may be granted depends upon the extent to which the treatment recommended by the medical officer of the Department prevents the patient from doing his regular work.

Arrangements for special care of patients of the Department have been made with hospitals in all the larger towns and cities from coast to coast.

Sanatoria for treating tuberculosis under most favorable conditions are operated in every Province under the direct supervision of the Department.
