ENGINEER TRAINING DEPOT

DID SPLENDID TRAINING DURING THE PERIOD OF THE WAR.

The Depot Trained 5,000 Men and 70 Officers. The Unit is Being Disbanded Upon General Demobilization and Establishment Moved to Barriefield Camp.

One of the district units that has done remarkably good work since the war began is the Engineer Training Depot, which was established at Brockville in May 1918. It has been under command of Lt.-Col. Henry Harrison, C.E., officer commanding the 4th Division, Canadian Engineers.

Col. Harrison is one of the senior officers in the engineer service, having taken courses at the Test, Dupont barracks and R.M.C., thirty years ago. He also took the staff course in 1911. In 1914 he went overseas, and was engaged on special duty in 1915, 1916 and 1917, in England and the United States. Part of the time he spent at the front. He took over the command of the training depot in May, 1918. The depot trained 5,000 men and 70 officers, who upon reaching England underwent further training at Seaford. Col. Harrison speaks in the highest terms of the quality of the men received at the depot. They were, for the most part, mechanical, civil, mining and electrical engineers, and skilled tradesmen. As a result of this, the training they received was very satisfactory and they became most proficient.

The unit is being disbanded upon general demobilization, and the establishment moved to the Barriefield Camp last week, where the men will receive their discharge through the District Depot. Col. Harrison speaks in the highest terms of the hospitality of the citizens of Brockville. He expects that he will return to civil life in about ten days. Previous to the war, the engineers were trained at St. John's, P.Q., but the demands of the war for engineers could not be met by the single training school so an engineer and signalling school was opened at Ottawa under Col. J. A. McKenna, of the headquarter staff, who was in charge during 1914, 1915, and 1916. He was succeeded by Col. W. W. Melville, but when that officer was appointed to command the depot at St. John's in 1917, the school was transferred with him. Col. T. E. Powers, D.S.O., succeeded him at Ottawa and continued the training of signalers, but the need for a training school for engineers was felt as St. John's could only serve recruits from Quebec and the maritime provinces, and the school was opened at Brockville for Ontario and Western Canada on May 1st, 1918, and Col. Harrison was placed in command. Col. McKenna and Col. Powers are both on the headquarters staff, Ottawa.

GOOD ROADS CONVENTION

In Ottawa Next Week Will Be A Big Event.

The Eastern Ontario Good Roads Association is to hold its annual meeting and convention in Ottawa on Tuesday and Wednesday of next week. The convention opens with a dinner to be held in the Chateau Laurier on Tuesday evening, and will be a notable gathering of good roads men and governmental representatives. The speakers are expected to be Sir Thomas, acting Premier, Hon. J. D. Reid, Minister of Railways and Canals, Sir William Hearst, Hon. F. MacDermid, Minister of Highways, A. W. Campbell, Dominion Highways Commissioner, W. A. MacLean, Deputy Minister of Highways, B. Michaud, Deputy Minister of Highways, Property Commissioner of Ottawa, C. J. Fox, Perth; A. M. Rankin, M.P.P.; A. D. MacCallum, Commissioner of Works, Ottawa; C. K. Wheelock, Ontario Good Roads Association; S. E. Squires, Canadian Good Roads Association.

It is announced that there will be little on the programme in the way of good roads, but the main part of the programme will be devoted to considering ways and means, the location of leading roads and the extension and connecting up of the various county road systems.

In view of the present national roadbuilding programme, it is anticipated that this dinner will be interesting in every respect. A general invitation and the convention, representatives of the city of Kingston are to be present to ascertain what part the city is to play in future road building programme.

Evidence Crops Up Every Day

That Dodd's Kidney Pills Always Help Kidney Disease. Quebec Man Who Suffered From a Rounding System and Kidney Disease Finds Quick Relief.

Miguasha Point, Que., Jan. 31st. (Special).—More evidence crops up in this vicinity every day to prove that for rounding people there is no remedy to equal Dodd's Kidney Pills. Among the many who have come forward with statements is Mr. Paul Landry, a well-known resident, whose testimony can easily be corroborated.

"I'm with great pleasure that I write to tell you your Dodd's Kidney Pills are the best medicine that I have ever taken," Mr. Landry states. "When I commenced to take them there was not much hope for me. After taking four boxes I felt like myself again. I had all the pain and suffer from kidney disease to take Dodd's Kidney Pills."

Dodd's Kidney Pills are popular all over this country, because they not only cure the pains and aches of the different diseases springing from disordered kidneys, but also give new life and energy all over the body. They do this naturally. They cure the kidneys. Cured kidneys strain all the impurities out of the blood, and the pure blood carries nutriment instead of poison to all the nerves and muscles. You have never heard of a person's Dodd's Kidney Pills harmed. You hear of thousands who have benefited by them.

NEW COUNTY TREASURER

FRANK H. PURDY APPOINTED TO SUCCEED HIS FATHER.

The Suburban Area Commission Granted \$6,500 For Year's Road Work—Reports of the Various Committees.

David Purdy resigned his position as county treasurer at the meeting of the Frontenac Council on Friday afternoon, and his son, Frank H. Purdy, was appointed in his stead. The latter served in France as lieutenant in the Canadian Infantry. The Council passed the following resolution:

"That this Council accept with regret the resignation of David Purdy as treasurer of this county and extends thanks to him for his long and faithful service, covering a period of twenty-one years."

The appointment of Frank H. Purdy as treasurer was made on motion of Councillors Reed and Wensley. Mr. Purdy thanked the Council for the confidence expressed in him by selecting him to succeed his father. It would be hard to equal his father's good record, he said, but he would try and be worthy of the Council's trust.

Ex-Treasurer Purdy served Frontenac for twenty-one years and the township of Kingston for the previous eleven years, making a municipal service of thirty-two years in all. He was a painstaking and faithful official.

The Council decided to petition the Minister of Public Works for Ontario to send an engineer to inspect the Sharbot Lake bridge in contemplation of making the bridge a solid instead of a floating structure.

The patriotic committee was appointed as follows: Clerk J. W. Bradshaw, Treasurer Purdy and School Inspector S. A. Truscott, with the councillors as honorary members.

A grant of \$100 was made to the Ladies' Auxiliary of the Army and Navy Veterans' Association of Kingston to assist them in their good work of serving refreshments to returning soldiers as they came from troop trains which arrive here two and three times a week.

Charles Smith, of Kingston township, and John Quinn, of Pittsburg township, were re-appointed trustees of the Sydenham high school.

The report of the public school inspector showed that out of the 100 teachers engaged, only four are men. Fifty per cent. of the teachers came from outside of Frontenac—a very different condition of things as compared to some years ago, when the county itself supplied over ninety per cent. of its own teaching staff.

Peter Ritchie, high county magistrate, asked for an increase allowance to enforce the Truancy Act. He could not do anything unless more money was provided.

These recommendations of the Finance Committee were adopted: That the suburban road area grant for this year be \$2,000 of which the county and the city will each pay \$6,500; that the matter of a grant to the Salvation Army war fund be left over till the June session, when the budget is struck; that the House of Commons be petitioned for the care of county poor be increased fifty cents a day; that no action be taken on the request of the Frontenac Law Association for the appointment of a court stenographer.

The Committee on Education decided not to grant the request of the Gananoque high school for a special grant to cover part of the expense incurred by it as the result of the recent fire in the school.

Road Superintendent R. H. Fair reported that about \$28,400 would be expended this year on the county roads, of which \$40,000 would be for new roadways, \$6,000 for machinery and \$15,000 for maintenance.

The following recommendations of the Property Committee were adopted: That the court house insurance be increased by \$25,000, the policies to be placed with J. O. Hutton.

These appointments were made: Jail physician, Dr. A. W. Richardson; county physician, Dr. H. B. Williamson; physician to the House of Providence, Dr. W. Gibson.

On recommendation of the Good Roads Committee, Warden Truscott and Councillors Reed, McFadden and MacLean were appointed directors on the Board of Eastern Ontario Good Roads Association.

(Continued on Page 6.)

For Wives Of Soldiers.

The Khaki University of Canada in London has organized a division for the wives of soldiers, where, before coming to Canada, they can learn something of the work which falls to the lot of a Canadian farmer's wife, and can receive some instruction in the customs, climate and conditions in Canada. Mrs. G. C. Cunningham, formerly domestic science instructor, has been placed in charge.

Three Deserters For Prison.

Three members of the Second Depot Battalion were sentenced to prison at Ottawa Friday for desertion. Herbert Rispo, Golden Lake, and Alfred Regnier, St. Albert, Ont., were each given one year and 24 days, while Albert Kuhn, Granville, was sentenced to one year. They were all brought to Kingston.

Real Estate.
