A Blood-food Discovered That Entirely Overcomes Anaemic Weakness

CAREFULLY INVESTIGATED REPORTS ESTABLISH TRULY WONDERFUL RESULTS. Heretofore, it has often been a hopeless task for a thin-blooded person to gain either strength or weight. Neither food or medicine in many instances has beneficial effect. What is practically a perfect blood-food, containing such elements as Iron, as at last been produced, and when taken after meals will put new life and vigor into people that have despaired of ever being strong again. This truly wonder-working treatment consists of taking two small chocolate-coated Ferrozone Tablets at the close of every meal. This wonderful blood-food supplies nourishment, vim, energy—sends a stream of vigorous, strength-making blood to every nook and corner of the body, makes every muscle and fibre sing with new found life and health. That gnawing tiredness leaves you—Ferrozone drives it away. Sleepless nights are turned into periods of rest, and you pick up fast. Day by day your appetite improves—this means more food is transformed, in this nutriment that will build and energize weak organs. The inclination to worry passes away because Ferrozone imparts nerve-tone and bodily strength that prevents depression. Think it over—Ferrozone is a wonderful tonic, in fact, it is more than a tonic, because it establishes health that lasts. Thousands use it and thereby cleanse and restore the entire system to a perfect condition. You'll feel the uplifting power of Ferrozone in a week. It's bound to help you. If you only give it the chance. Sold by all dealers, 50c a box or six boxes for \$2.50; is pure of the name Ferrozone.

More Eggs GUARANTEED PURINA SCRATCH FEED CHICKEN CHOWDER. Hens are supplied by nature with 1,200 to 4,000 rudimentary yolks. But a yolk is only half an egg, and a hen won't lay half an egg—it's the whole egg or nothing with her. To lay a whole egg, the hen must have a "white" or "yolk." Hence to lay 1,000 eggs, her food must supply 1,000 whites as well as 1,000 yolks—2,000 yolk-forming units as the hens call them. Purina's Scratch Feed and Purina's Chicken Chowder is very little more than ordinary feed, but they make a hen lay so many more eggs that there is no comparison of values. If you keep hens, you will never get eggs more readily than you will feed them Purina's Scratch Feed and Purina's Chicken Chowder. Ask your dealer—INSIST on the Purina name. CHICKEN CHOWDER is only 84 Page Poultry Book FREE. Write for it NOW. THE CHISHOLM MILLING CO., LTD.

HOW CANADA CHANGED GERMAN TRAIN SERVICE AT MONS

This most interesting photograph (Canadian official, copyright) shows the German railway service board at Mons station, with two Canadian soldiers studying it. Note the cancelled trains to places captured by Canadians—Valenciennes, Tournai, Ghent. The Germans left in such a hurry that they didn't wait for scratch of Maubeuge.

MOVING TO PITTSBURG.

Founder of Montreal Live Stock Exchange Joins Packing Concern. G. L. Franklin, who for several years has been vice-president and managing director of the Montreal Abattoirs, Ltd., is leaving Montreal. On February 1st he becomes general manager of the Dunlevy Packing Company, of Pittsburg, one of the largest independent companies in that line of business in the States.

Standard Oil Dividend. The Standard Oil Company of Kansas to-day declared the regular quarterly dividend of \$3 per share and an extra dividend of \$3 per share, payable February 14th. Stock books will not be closed.

Bearish Schwab Talk. The United Press service has sent out an interview with G. M. Schwab at Coblenz, Germany, in which he is quoted as expecting an era of financial depression in the U.S. and that there will be little business expansion for a long time.

Brompton Earnings. Brompton Pulp and Paper Company reports earnings of \$1,051,274 for the year ended October 31st last, a decrease of about \$20,000 from 1917.

British-American Tobacco. Net profits of the British-American Tobacco Company for the year 1918 after providing for income and excess profits taxes amounted to \$3,140,174, compared with \$3,105,002 in 1917 and \$2,233,361 in 1916. The directors have declared a final dividend of 6 per cent. on the common stock, making 30 per cent. for the year 1918, also an interim dividend of 6 per cent., both payable January 31st. In 1917 the company paid 29 per cent., and in 1916 32 1/2 per cent.

A Late Dividend. Ontario Steel Products, Gananoque, preferred 2 1/4 per cent., being regular quarterly of 1 1/4 per cent. for quarter ended December 31st, plus 1/2 to 1 per cent. on account of arrears. The whole is payable February 15th of record January 31st.

Financial Notes. Montreal Tramway & Power Company sold \$7,800,000 6 1/2 per cent. 5-year gold notes to a Montreal syndicate of bankers. The total number of Canadian failures for 1918 was only 873, the smallest failure-list since 1882. Canadian bonds maturing in the United States during February amount to \$700,000.

It is announced that the Nipissing Mines Company has taken an option on the Ophir Cobalt property. The Financial Post says that it hears that the Huron and Erie Mortgage Corporation, the important loaning organization with head office at London, has decided to enter the field in the International Nickel dividend. The International Nickel dividend will probably be reduced owing to the decrease in the company's output.

The Bank of Nova Scotia will erect a new building on the present site of the head office in King street west, Toronto. The Shawinigan Water & Power Co. has disposed of an additional \$500,000 stock. The National City Company, New York, which has just recently formed a Canadian organization, with an office in Montreal, has purchased \$3,000,000 Province of Ontario three year 5 per cent. gold bonds.

To have absorbed in one year approximately 95 per cent. of their own bond issues is a performance so significant that Canadians may well be proud of their record, indicating as it does that in financial not less than in military effort our country can be counted upon to meet every emergency. Practically 90 per cent. of the total electrical capacity of Canadian plants, comprising 1,844,571 horse power, is derived from water power, indicating the extent and availability of the water power resources of the Dominion and of the remarkable degree to which their adaptability for central station work has been appreciated in principle and realized in practice.

U. S. ARMY LIKES PRUNES.

Approved by Food Experts and Surgeon-General. The prune has a most important place on the United States Army bill of fare, says a War Department announcement. This place has been won by merit for it has been proven that the prune has food value, fruit value, tonic value, and value as a confection. It has the high approval of the food experts in the subsistence division of the quartermaster corps, and what is more, it has been recommended by the Surgeon-General of the army.

Out of the 1917 crop the army used 20,000,000 pounds of prunes. Based on size 55, this amounted to 1,100,000,000 prunes. In order that the army may have its prune supply the requirements for a year are figured out in advance prior to the time the new crop is ready for harvest. This avoids delay in making shipments, and assures the army of getting the size of prunes most suitable for its use.

A WOMAN ATE 1,036 PINS

Operation to Remove "Junk" From Stomach Was Successful. Twelve hundred and ninety pieces of steel, iron and bone, including 1,059 ordinary steel pins, were taken from the stomach of Mrs. Lena Sass, 32 years old, a patient at the University of Maryland Hospital in an operation performed recently. Hairpins, buckles, safety pins, an iron hook, and a small paper clamp are included in the list. The woman, who has been insane for some time, will recover from the operation.

Stuffed Baked Apples.

Core and pare nice, large, juicy apples, put one teaspoon of molasses into each cavity, then fill with stewed dates; place the apples in a baking dish, cover and bake until the fruit is soft, but not long enough for the apples to lose their shape. Fried Hominy Squares. This is made from the remains of boiled hominy, which is a firm jelly, when cold. Cut the cold hominy into slices or neat uniform squares, flour them, egg and bread-crumbs them, plunge them into boiling fat until they are of a bright golden color.

Why Hold Anglo-French United Kingdom Or Canada 2-Year Notes Until Maturity? These are payable in New York. By allowing you the high premium now ruling for American funds we could net you about 90-100 for Anglo's, par for U. K.'s and 101 for Canada notes. Just what you could re-invest your money to advantage. Neither good Canadian securities nor par American funds are going to continue at today's advantageous rates. "Falling Thrones and Rising Nations" THE nations are "in the melting pot" just now. The world knows not in the morning what new danger may be threatening it by night. Amid all these uncertainties in which individual fortunes are at stake, we look anxiously for permanence, and we find it in life insurance companies. Canadian, British and American life companies have defied war and pestilence, and continue day by day on their courses unmoved. What is it that gives to life insurance its solidity? The first is: the theory of life insurance agrees with the facts of experience. And then unity: life insurance embodies as nothing else does the principle that in union is strength. A large group of men united for a single purpose are irresistible, so, amid the chaotic conditions in the world to-day, swept by war and plague, and threatened with social revolution, the life company holds on its way. The wise man will put every available dollar into sound life insurance. Write for information about Mutual Policies. The Mutual Life of Canada WATERLOO ONTARIO S.
