### ELECTRICAL NEWS PRAISE SCORES POLICE SYSTEM

FOR MAYOR H. W. NEWMAN AND REEVE J. A. HALLIDAY.

NAPANET WRITER DECLARES A CHANGE IS NECESSARY.

What the February Number Has to Say About Kingston's and Portsmouth's Chief Magistrates. The February number of the Electrical News pays striking tributes to Mayor H. W. Newman, and James Halliday, reeve of Portsmouth. Regarding the mayor is said: "H. W. Newman, recently elected mayor of Kingston, Ont., has been in the electrical business in that city for eleven years. He is a native of Kingston and has lived there all his life. He employs a staff of twenty men and during the war did a great deal of work fitting out military barracks in the third military district. Mr. Newman has also carried out many other important contracts, including the lighting of the causeway between Kingston and Barrieldale, and the lighting of several military hospitals. He has been a member of the Kingston City Council for five years, serving on all important committees. During the year 1918 he was chairman of the Health Committee, and is regarded by many as the father of daylight saving, having brought the matter before the Ontario Associated Boards of Trade and worked unceasingly to have the measure put through. He brought the matter before the local branch, and was successful in having a resolution passed in favor of it. In addition to being a successful administrator of civic affairs, Mr. Newman is also a thorough business man, always on the lookout for new ideas and possessed of the 'pep' that makes the wheels go round. The city of Kingston is surely in very capable hands for the coming year."

Police Magistrates of Towns and Villages Should Be Paid Salaries Instead of Fees. "Critic" in Napanee Beaver. In the Kingston Whig of Tuesday the 28th instant appeared a letter signed by our energetic and progressive townsmen, Charles Steacy, in reference to the incarceration of Private Fred Grange, who served his King and country in the battlefields overseas for three years and was invalided home for nerve and other troubles. He was condemned by a magistrate Rankin to pay a fine of \$100 and costs, or two months in the common jail. Is this a proper welcome home for our boys after all the sacrifices they have made and the perils and hardships they have endured for our sakes, that we might be saved? I think not. The principal evidence seems to have been the keen sense of smell on the part of the license inspector and the night watchman, who swore they smelled liquor on the accused. I hope these two important smells were duly filed in the police court as Exhibits "A" and "B," and that they can be produced if required. I would think that "smells" would be just about as valuable evidence as the "hearsay" variety. One of course naturally prefers classical language to slang phrases and expressions, yet one must admit that slang sometimes "fills the bill" better than more correct English. As a case in point I am about to use that expressive word "rotten" in regard to our police system in Napanee and in other municipalities throughout the province. The system as it now exists is one for the manufacture of decent citizens into criminals often on the flimsiest of technicalities. The number of arrests seem to show the splendid activity of the police officers, and the number of convictions enables the police magistrate to live, if he is not paid a regular stipend or salary. I say emphatically this system is rotten to the core, and it is only human that a man should want to make enough to live on even at the expense of the unfortunate people who have to be convicted so that the police magistrate should make a living. I hope that no candidate will be allowed to run for member of the Provincial Legislature until he has pledged himself to see that this system is done away with and that every police magistrate shall be given a salary on which he can live, and be allowed no fees or other emoluments in connection with the duties of his office. For the town of Napanee I think the police magistrate should get a salary of \$1,200, and we should get a good man for that, one who was competent and fair-minded, and who would have nothing to gain by the absence of crime. If possible the G. W. V. A. should secure from the police court the two smells, marked Exhibits "A" and "B." They would be quite an acquisition to the Museum of the Association.

The Electrical News also has the following eulogy of James Halliday: "James Halliday, who has just been elected reeve of Portsmouth by acclamation for the sixth time, and whose place of business is at the corner of King and Princess streets, Kingston, has been in the electrical business for twenty-five years. He made his start in the electric plant at Gananoque, owned by J. M. Campbell, of Kingston. After serving there for some time he went to Kingston, taking a position with the Kingston Light, Heat and Power Company. Later he became connected with the Kingston Street Railway Company and served with this company for six years as electrical superintendent. He left the railway company to go into business for himself, and in the quarter of a century he has been engaged, has made a splendid success of his business. He is wide-awake and up-to-date and his record in one that anyone might well be proud of. He has taken a very keen interest in the village of Portsmouth, in his own residence, as can readily be seen by the results of the recent elections. He is also a member of the Frontenac County Council, and in the year 1916 had the honor of being elected warden."

### WRITES FROM MANCHURIA

Dr. Stanley Martin, Queen's Graduate, At Work There.

The Queen's University Missionary Association has received an interesting letter from Dr. Stanley Martin, graduate of Queen's who is now engaged in medical work in Manchuria. In part he says: "We have almost completed our fifty bed hospital, and you will be glad to know that your money is being used in furnishing the operating rooms, where the greatest amount of good is done in our hospital. It is only three years since we left Canada, and there we are with as fine a hospital plant as one could wish. Don't any of you fellows funk when the graduation time comes, as some of our men have done in the past. Forget about that big man on the corner that the theologues are supposed to get in our song (On the old Ontario Strand.) "If any medical graduate wants a hundred patients a day, he can have them, easily out here. All the medical men can't be here. Jimmy Third, that dear old professor of ours, some one has to get out to the wilds and distant places and uphold the honour of the profession. Remember what Oser says—You may have the skill of Harvey and the art of Sydenham, but without the qualities of head and heart your work avails nothing. And these humanities of medicine are best expressed in medical mission work, where men are turned from the 'Gilded Buddha' to the Christ who went about doing good. An arts graduate, W. Scott, is on our station and perhaps we didn't surprise the Chinese soldiers when we celebrated 'Der Tag' and gave the Queen's yell by the light of burning tar-barrels. The marriage took place in England recently of Nursing Sister Margaret Foster, daughter of Mr. and Mrs. Ira Foster, Barroft, to Capt. Chaplain Ernest Harston, formerly of Madoc. Capt. Harston is a former Methodist minister."

### NOW AND THEN

The Rev. Dr. Robert Campbell, of Montreal, as he is at present (above) and as he looked forty years ago.

### It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezeone, the other discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezeone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

### MOTOR BOAT TRIP ON RIDEAU.

Smith's Falls Men Beat All Winter Records. Smith's Falls, Ont., Jan. 31.—Messrs. T. W. Cadwell and A. Robinson have the record for navigation on the Rideau. They made a trip to Pomonaham on Tuesday of this week in a motor boat. Ordinarily the Rideau river between here and Pomonaham is sealed up under ice about two feet thick and the trip on Tuesday demonstrates the difference between this winter and any other winter that every was known.

A Kingston Lady. Mrs. J. J. Allen, who is at the head of a committee to raise a fund of \$100,000 for the relief of poverty-stricken Hebrews in Palestine, is well known in Kingston. She is a daughter of Joseph Abramson, who for twenty years was in business in this city, and a niece of Louis Abramson of 202 Queen street.

The total British casualties in the air service for the entire period of the war was 16,627. Of this number 6,166 were killed.

### BIG THINGS EXPECTED

At the Good Roads Convention in Ottawa This Week. Big things are expected as the result of the Eastern Ontario Good Roads convention to be held in Ottawa on Tuesday and Wednesday of this week. As a result of organization, Eastern Ontario occupies today the most forward position in the province as far as good roads go. The district is thoroughly organized for the big programme which has been promised. The main object of the convention is to show the Dominion Government and the Ontario Government that Eastern Ontario is road ready, and expects action.

Moscow Lady Dead. Moscow, Jan. 30.—There is much gloom throughout the community over the death of Mrs. Hicks Milesap, who passed away after a brief illness on Monday, Jan. 27th. The funeral services were conducted on Wednesday at the residence. Many friends were present to extend sympathy to the sorrowing family and pay their respects to the deceased, who was beloved by all who knew her.

The Moscowites spent a very pleasant social evening at the parsonage at Yarker recently. Miss Ruth Lamplin spent a few days at her home, en route to Toronto, where she will take up her new duties as social welfare worker among four thousand women employees of the Bell Telephone Company. Miss Lamplin has recently returned from the Savage Arms Corporation, Utica, N.Y., where she was supervisor of the women's personal department, conducting employment and welfare work among the manufacturing workers.

### Can't Find Dandruff?

Every bit of dandruff disappears after one or two applications of Danderine rubbed well into the scalp with the finger tips. Get a small bottle of Danderine at any drug store for a few cents and save your hair. After several applications you can't find a particle of dandruff or any falling hair, and the scalp will never itch.
