BIG MISSION GATHERING DINNER GIVEN AT SYDENHAM
HELD AT QUEEN'S UNIVERSITY ON MONDAY EVENING.
Addresses by Mrs. McGillivray of China, Dr. Farquhar of India and Mr. Clark, Travelling Y. M. C. A. Secretary.
A united meeting of the students of Queen's University who are members of the Y.M.C.A. and the Y.W.C.A. was held in Convocation Hall on Monday evening to hear Dr. Farquhar, who has been in India for a number of years actively engaged in Y.M.C.A. work among the natives. Dr. John Watson occupied the chair, and introduced Dr. Farquhar as a fellow student in Edinburgh. Dr. Farquhar, since taking up Y.M.C.A. work in India, has made a study of native religions and was the author of a number of books on the subject.
Mrs. McGillivray, returned missionary from China, was the first speaker. She gave an interesting account of the domestic life of the Chinese women. Home comforts that are enjoyed by the women of Canada are unknown. They have no books, pictures or social companionship and live in superstitious fear of a god of wrath. Custom prevails such as the enforced deformity of the feet, and the speaker exhibited a tiny shoe worn by adult women there. She then presented a strong contrast in the life of the native women of the Y. W. C. A. at Shanghai and Hong Kong. All of them were brought under the influence of the Christian missionaries and performed valuable Red Cross work during the war. They were much happier and were glad to do the work because it was being done by the rest of the young women in Christian countries. Classes were formed and demonstrations were given in the care of infants. A native woman is president of the association in Hong Kong. The Chinese language is not as difficult as Greek. Mrs. McGillivray made a strong appeal for help in the work.
Dr. Farquhar told of the organization of the Y.M.C.A. in India. It was at first designed to win the educated natives to Christianity, and the first work was done in the army. Much good resulted in strengthening them against temptation, and the association has won the confidence of both Europeans and natives. There is a native secretary at the head of the army work and secretaries with each regiment. The representatives of the association went to the battlefields with the troops and made their way into the confidence of the men, although at first they objected, and it is hoped that this relationship may open the way to winning many to Christ. He told of the extreme poverty that prevails among the natives of India and the social work carried on among them. Banks were opened and the people were taught thrift as well as given assistance in financing. The association is working in 130 villages. But its chief work is among the educated Hindus and Mohammedans and the results among the young men are very satisfactory. Twenty Bible classes are carried on weekly in Calcutta, and the extreme value is in touching the natives. There is a great future for Christian work in India. Dr. Farquhar concluded by calling for volunteers to take up Y. M. C. A. work in India.
Mr. Clark, travelling secretary of the Y.M.C.A., explained the object of the meeting, which was to raise a fund for the missionary work of the association. The students of Canada are being asked to contribute for the assistance of the students of America raised \$1,500,000, and this year the objective is \$2,000,000, and students are also to be asked to go and take up the work there. Denominational colleges will give for denominational work, and interdenominational colleges to interdenominational work. Queen's University is asked to help send a Canadian secretary to India; and there is under consideration a proposal to bring students from India and China to finish their education in Canadian colleges. The students at Dalhousie, Halifax, raised \$3,600 and the professors an equal amount. The medicals at Toronto University are raising \$2,000. McGill students \$2,500. The women of Queen's are asked to raise \$1,000 and the men \$1,500.
Mr. Perry, secretary of Queen's, made a strong appeal for the support of the students, and expressed the opinion that Queen's students would not fall behind the other colleges.

Mrs. Plante Found Relief In Dodd's Kidney Pills
She Tells How They Helped Her Kidney Disease and Made a New Woman of Her.
St. Florence, Que., Feb. 3.—(Special).—"Two boxes of Dodd's Kidney Pills made a new person of me." The speaker is Madame M. L. Plante, of this place, and her numerous friends here fully verify her statement.
"For nearly two years," Mrs. Plante continues, "kidney disease tortured me. I heard of Dodd's Kidney Pills, and made up my mind to try them, and to my surprise they did me good almost at once. Two boxes cured me completely. I recommend them to all my friends."
Mrs. Plante is only one of many who have had a similar experience. They were weak and run-down, and sick all over. Dodd's Kidney Pills helped them. How? Simply by curing the kidneys. The diseased kidneys were the cause of all the trouble. They were failing to strain the impurities out of the blood, and the result was disease all over the body. Dodd's Kidney Pills helped the kidneys, the impurities were strained out of the blood. The result was pure blood and good health all over the body. The cause of the disease had been removed.
