SERG. HENRY S. McIVOR
OF KINGSTON TOWNSHIP RETURNS FROM OVERSEAS.

He is Fifty-eight Years of Age—Three of His Sons Served in France With the Canadian Forces. Another of Canada's loyal citizens, in the person of Henry McIvor, of the township of Kingston, has returned home. Sgt. McIvor was born in 1861 and occupies at present a modest home in the city of Kingston, which was his birthplace when the present city of Kingston was composed of only a few scattered buildings. Feeling it incumbent to do his part in the interests of humanity and being considerably past the age of active military service in the trenches, he joined the C.F.C. in the spring of 1917, as a private, sailing on the S.S. Statichia for England the 25th of June, and landing at Liverpool on the 4th of July. This mammoth vessel was afterwards torpedoed off the coast of Ireland. Mr. McIvor was put on a draft with the 125th Battalion for two months, and most successful forestry outfits operating in England, having camps in Buckinghamshire, Bedfordshire and Wiltshire. He had full charge of the Railway Department, both construction and upkeep. He also acted as his own driver when laying out the different lines and supervising. When first entrusted with the Railway Work he was promoted to Corporal but weeks later he was made a Sergeant and if the war had not terminated before the advent of the new year, he would have received a Lieutenant's commission.

Sgt. McIvor visited nearly all the principle military centres and cities in England, besides crossing the channel on two different occasions temporarily in connection with his line of work. Mr. McIvor was offered good inducements to remain for the purpose of reconstruction in Northern France and Belgium and he may possibly avail himself of the opportunity later on. The home voyage was made by the S.S. Olympic. The Sgt. has just cause to be proud of his career both civil and military as he has creditably filled many positions of public trust in the township, besides raising a large and respectable family, consisting of seven sons and four daughters. Three of his sons are in France at the present time. Percy, the eldest, is the first to volunteer his services for King and country, enlisting at Brandon. He has served nearly the entire duration of the war, acting in the capacity of scout and saliper and is the only member of his platoon being killed a few feet distant from him by a bursting shell at the engagement of Le Sans and he getting badly wounded in the left arm from the same source and was sent to England for treatment, his father meeting him at a separate camp for the first time after a separation of over twelve years. After recovering he took a course in signalling and went over to France the second time as a drill instructor. Russell, his brother volunteered in 1914, joining the 162nd at Pary Sound, and was in the machine gun section. The Sgt. and Clarence, his son, a young man of twenty went over-seas in the spring of 1917. The Sergeant and his sons get their fighting propensities by heritage, his grandfather having served through the Crimean war and the Sergeant himself has seen twenty years of volunteer and active military service, having belonged to the 47th Infantry, 5th field artillery and the 4th bussars.

TWO LOCAL QUESTIONS

Better housing conditions and a free public library are two things urgently needed in Kingston. The first of a series of articles, treating exhaustively of these matters, begins to-day on the Editorial page.

A Wolfe Island Play. The Anglican Young People of Trinity Church, Wolfe Island, are preparing a two and a half hour play to be put on on Shrove Tuesday, 4th March, in the C.M.B.A. Hall.

Given Her Liberty. A young woman from Toronto, who was placed under arrest and charged with vagrancy when a raid was made on a down-town office last week, and a drinking party disturbed, has been given her liberty and returned to Toronto. She had been remanded to jail for a week by the magistrate.

Recommends Them To All the World

New Brunswick Lady Tells of Dodd's Kidney Pills.

Find Them the Best Medicine She Has Ever Taken—Best for Herself and Best for Her Child. Madran, Gloucester Co., N.B., Feb. 14—(Special).—"Dodd's Kidney Pills are the best medicine I have ever taken." These are the words of Mrs. Anoline J. Grant, a well-known and highly-respected lady who lives here. And it is no exaggeration to say that she voices the sentiments of a large number of the people of Gloucester County. They have had kidney trouble; they have used Dodd's Kidney Pills; they have found them good. Mrs. Grant was a sufferer for one and a half years. She was troubled with neuralgia, pain in the back and palpitation of the heart, and had a pressure or sharp pain in the top of her head. She took just four boxes of Dodd's Kidney Pills, and they did her so much good she is enthusiastic in their praises. "I have also given Dodd's Kidney Pills to my child," Mrs. Grant concludes, "and I find they are the best remedy for the kidneys. I recommend them to all the world." If you haven't used Dodd's Kidney Pills, ask your neighbors about them.

KINGSTON EVENTS 25 YEARS AGO.

James K. Hackett, who was born near Kingston is playing, "The Private Secretary," in Toronto. His acting is worthy praise. On the capital invested in the Wolfe Island cheese factory, a dividend of nine per cent, was realized, a good showing for a year's work. The officers of the 14th Battalion had a meeting and decided to organize a rifle club. A great deal of hay is being rushed to the market. The price ranges from \$7 to \$8 per ton. The ice in the harbor is now from twenty to twenty-two inches thick. The British Whig has been given the contract for city printing. The binder twice industry at the penitentiary will be in operation in April.

At the Theatres

"The Other Man's Wife." Miss Dorothy La Vern, who is important in cast of "The Other Man's Wife," Victor Emanuel Lambert's celebrated play which is proving the talk of the present season, is to be seen here at the Grand Opera House on Wednesday, Feb. 19th, matinee and night, takes emphatic exception to the statement recently attributed to Mrs. Emmeline Pankhurst, that "the most useless, brainless, selfish and purposeless order of human beings constitutes the society world of the United States." "But rarely are foreign critics of America's society people qualified to speak on the subject," says Miss La Vern. "The real society of our country is heard of seldom and is practically unknown, even to us, for its members do not seek notoriety."

"The Man Who Came Back." Next week's attraction at the Grand Opera House for two nights, Thursday and Friday, Feb. 20th and 21st, will be William A. Brady's production of "The Man Who Came Back," the virile melo-drama by James Eckert Goodman based on the widely read story of John Fleming Wilson. Everyone admires and loves the man, who having gone wrong, fights his way back to a position of honor. In this drama the regeneration of this boy is brought about by a cabaret singer, who proves that a woman will go to any lengths to save the man she loves. "The Man Who Came Back" is emphatically the biggest dramatic success of the decade, having enjoyed long and prosperous runs in New York, Chicago, Boston and Philadelphia. The cast includes James Dymforth, Katherine Cornell, James Sealey, Jane Carleton, Richard Clark, Esther Howard, Peter Lang, Sophie Allen, Thomas Magram and Fran Howson. (Continued on Page 8.)

SCARCITY OF HOUSES

Makes It Possible For Landlords to Be Autocratic. A returned soldier living in the east end of the city, in conversation with the Whig, speaks very strongly regarding the treatment his wife and himself have received at the hands of his landlord. In two years his rent has been raised from eight to twelve dollars a month. This case is not by any means an isolated one. Many complaints have been received of similar action being taken by other landlords. The scarcity of houses has made it possible for them to adopt an autocratic attitude. It is to have the condition of things remedied that the Whig is interesting itself in the housing situation, and is trying to awaken public sentiment in the matter. Apart altogether from the fact that this soldier has fought in France, and is therefore entitled to a little consideration from the landlords, the whole policy of such property owners calls for condemnation, and deserves to be given the fullest publicity.

Sentiment in Business.

It is a very unusual thing for a newspaper to comment on an announcement to be found in advertising columns, but in this issue to-day there is a very unusual advertisement—unusual because the advertiser uses more of his space to do a good turn for the "other fellow." The advertiser—The T. H. Estabrooks Company, the proprietors of Red Rose Tea—have used a large space to pay a tribute to the grocery trade. This indicates a generous, broad-minded spirit, and shows that there is a great deal more sentiment in business than one would generally think. It shows that advertising is progressing and that it can be used to do other things than to sell goods.

Engaged in the West.

Rev. John Dawson, former pastor of the Presbyterian church, at Portsmouth, is spending a few days in the city. Mr. Dawson has been engaged in special military work for the Y.M.C.A. at Winnipeg, and took part in the recent appeal made for funds there. Frank Williams, former member of the Whig reportorial staff took part in the campaign and did good work. Mr. Dawson is returning to the west on Monday.

May Search Baggage.

T. A. Wilson, superintendent of the Smith's Falls division of the C.P.R., has issued the following bulletin to all conductors: "License inspectors have the right to search baggage suspected of containing liquor whether in the possession of passengers or under the protection of our baggage checks in the baggage cars. Trainmen are not justified in refusing permission in such cases."

The Point.

A member of Parliament was ambitious to distinguish himself by his oratory, and watched for a favorable opportunity. A motion was proposed in the House for enforcing the execution of an ancient statute, "whereupon the would-be orator rose and, after solemnly raising around in silence for a moment, said: "Mr. Speaker, have we laws, or have we not laws? If we have not laws, and they are not observed, to what end are these laws made?" So saying, he sat down, his chest inflated with conscious consequence. Instantly another member rose and said: "Mr. Speaker, did the honorable gentleman who last spoke speak to the purpose, or did he not speak to the purpose? If he did not speak to the purpose, to what purpose did he speak?"

AFTER INFLUENZA

The Grip, Fevers and Other Blood-Poisoning, Prostrating Diseases. The best course of restorative treatment, purifying the blood, stimulating the liver, building up the whole system, is: Hood's Sarsaparilla, the standard blood purifier, before eating. Hood's Pills (cathartic, mild and effective) as needed. These two great medicines work in perfect harmony; improve appetite, aid digestion, they make convalescence real, rapid and perfect. They are also of service in the prevention of disease and the preservation of health. Each is good alone; both are good together. Get them to-day.
