Try Making Your Own Cough Remedy. You can save about 50% and have a better remedy than the "made kind." Easily done. If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple, home-made syrup, which is easily prepared in a few minutes. Get from any druggist 2 1/2 ounces of Pinex (50 cents worth), pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made, and saves nearly \$2. Tastes pleasant and never spoils. This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the hoarse, larynx tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing. Day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. TRIED TO KILL FRENCH PREMIER

(Continued from Page 1.)

Policeman Was Shot. (Canadian Press Despatch) Paris, Feb. 19.—Police Constable Courant, who was wounded in the right eye, although not seriously, by one of the shots, said that Premier Clemenceau rushed up to the would-be assassin and grappled with him. An enormous crowd, which observed respectful quiet gathered near the Clemenceau residence after the occurrence. Within half an hour President Poincare arrived, followed by various members of the cabinet, high officials of the Government and representatives of the army and navy. The man arrested was Emile Cotein, aged twenty-five, and born at Creil. He said his home was in the Montreux quarter, Paris, but people think he is Russian.

Favored Balance of Power. (Canadian Press Despatch) Paris, Feb. 19.—Clemenceau was credited at first with being opposed to the plan for the League of Nations in his phases, expressing preference for a balance of power secured by France, Great Britain, United States and Italy. His representatives, however, have joined freely in the work of framing the covenant of the league, and with some reservations expressed approval of it as it was laid before the Peace Conference. Despite his advanced years—he is seventy-six years of age—M. Clemenceau has continued in recent months to justify the sobriquet of "the tiger" which long has been applied to him, going through the trying work of the Peace Conference with its many long consultations without often showing signs of fatigue.

Found Bullet Near Right Shoulder. (Canadian Press Despatch) Paris, Feb. 19.—The bullet which entered Clemenceau's left shoulder has been found near the right shoulder but is not yet extracted. The patient coughs considerably, but no complications are expected. The premier's chauffeur, Brabant, was also slightly wounded.

Will Delay Peace Conference. (Canadian Press Despatch) Paris, Feb. 19.—Delegates to the Peace Conference, when they learned of the attempt upon Premier Clemenceau's life to-day, began to consider the effect of the event upon their own plans in connection with the conference. The belief was expressed that there would not be any great delay in the execution of the comprehensive plans laid out for the proceedings of the Peace Conference during the absence of Premier Lloyd-George, and President Wilson. Premier Clemenceau, when shot, was on his way to the conference with Arthur J. Balfour, British Foreign Secretary, and Col. E. M. House, of the American delegation, concerning more rapid procedure before the supreme council. Owing to the fact that Clemenceau had in hand personally certain subjects now under negotiation, it follows that so far as these are concerned there must be a suspension of activities for the time being. As a matter of fact these subjects were of vast importance as affecting the whole plan of the conference's operation, inasmuch as they related to the consummation of an early treaty of peace.

He states that the fighting is very different from the trench fighting of France, but they were able to adapt themselves very readily to the new conditions and methods. The early part of the winter was very mild and there were many deaths from influenza. Mr. and Mrs. Cook are also happy in the receipt of a letter from their son Arthur, who had been with the R.F.C. but had not completed his training before the armistice was signed.
