NOT A PARTICLE OF DANDRUFF OR A FALLING HAIR

Save Your Hair! Double Its Beauty In Just a Few Moments

"Dandergine" Makes Your Hair Thick, Glossy, Wavy and Beautiful.

Within ten minutes after an application of Dandergine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

Dandergine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

A little Dandergine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Dandergine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Dandergine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Dandergine.

YOUR FRECKLES

Need Attention in March or Face May Stay Covered.

Now is the time to take special care of the complexion if you wish it to look well the rest of the year. The March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use Ochine—double strength.

This preparation for the removal of freckles is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get a ounce of Ochine—double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely.
