

YEAR 80, NO. 59

KINGSTON, ONTARIO, TUESDAY, MARCH 11, 1919

SECOND SECTION

MIGHT WAIVE A REFERENDUM

On Beer and Wine Licenses in the Province of Quebec.

THE TEMPERANCE PEOPLE

APPEAR TO BE SATISFIED TO DO THIS.

The General Feeling is That the Result of a Referendum Would Be Decidedly Favorable to Wine and Beer.

Quebec, March 11.—Representatives of the temperance societies of the district of Quebec, met members of the Government over the weekend in regard to the provision of Hon. Walter Mitchell's prohibition and beer and wine combination bill. Sir Francois Lemoine headed the delegation. No decision on the various points discussed was arrived at, and the temperance people will continue to study the bill. The main matter is that of referendum. The matter is about in the same state as it was Friday evening following the Cabinet meeting, but if the temperance people of the province should decide that they are willing to have beer and wine licenses, with local option for each community, it is felt that there would be no use in having a referendum. A referendum would involve heavy expense on the Government, some \$60,000, and such matters mean other expenses for interested parties.

The feeling in Government and general Legislature circles is that the result of a referendum would be decidedly favorable to beer and wine, especially as Mr. Mitchell's bill safeguards the right of local option, and those sections of rural Quebec in particular which wish to keep altogether "dry" would be able to do so without depriving the working men in Montreal and other industrial centres of their beer.

What has tended to induce some of the temperance people here to be willing to do without a referendum and accept beer and wine is what may be termed the result of the Canada Temperance Act in the city of Quebec. This city went "dry" last May, and has had such "wet" spots since that even some of the most ardent fighters in the local option campaign are almost sorry for the part they played. They feel that if the referendum is defeated and there is no beer and wine, what is going on in the city of Quebec will spread to the whole province. They fear a victory of their own prohibition ideas.

The Montreal temperance people have not been so much heard from, but it is said some of them, too, are in favor of beer and wine without a referendum.

TO ABOLISH ILLITERACY.

Quebec Government's Measure Affects the Cities.

Quebec, March 10.—The bill which Hon. L. A. Taschereau, Minister of Public Works and Labor, has before the House shows that the intention of the Government is to enact a certain measure of compulsory education for the cities at least. It is provided that practically all employers of industrial establishments may not employ a boy or girl under the full age of sixteen years unless such boy or girl can read and write.

Her Five Children

HAD WHOOPING COUGH AT THE SAME TIME

Whooping cough is one of the most dangerous diseases of children, especially to those under five years of age. It first starts with a fever and coughing, sneezing and in a short time an irritation of the throat. Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought by the "whoop."

On the first sign of whooping cough we would advise the use of Dr. Wood's Norway Pine Syrup. This famous remedy will clear the bronchial tubes of the collected mucus and phlegm, and in this way ease the racking cough and in a short time make it disappear entirely. Mrs. Walter McLaughlin, North Battleford, Sask., writes:—"I have five children, the eldest thirteen and the baby two years old. They all had the whooping cough at the same time. I tried two or three cough remedies, but none gave the same satisfaction as Dr. Wood's Norway Pine Syrup. A home where there are young children should never be without it. I will highly recommend it to those who want a quick cure."

There are many imitations of Dr. Wood's Norway Pine Syrup, so be sure you get the genuine by insisting that the package is put up in a yellow wrapper; three pine trees the trade mark; price 25c and 50c, and manufactured by The T. Milburn Co., Limited, Toronto, Ont.

WHILE HUSSY SLEEPS

Miss Mannist—Why can't women have trouser pockets into which to put their hands? Mr. Bachelor—They have—the married ones.

WANTS CHURCH UNION.

Rev. Lawrence Skye Would Abolish Denominationalism.

Toronto, March 10.—In an address at the midday Lenten service in St. James' Cathedral, Rev. Lawrence Skye made an appeal for a united church. He advocated sinking denominationalism. No more Anglicans, Methodists, Presbyterians, Baptists or Congregationalists, but one united church was what the speaker wanted to see. The speaker also pleaded with men and women to take a more active part in church work.

THINGS ARE QUIETER.

The Hostages Have Been Released by Soviet Congress.

Berlin, March 10.—Advices from Munich indicate that the situation there is quieter and that the Majority Socialists in Bavaria are in the ascendency. The Soviet Congress has voted to release the hostages seized at the time that Kurt Eisner, Bavarian premier, was assassinated. The strike situation in Central Germany is reported to be improving.

Celebrated 100th Birthday.

Bellefleur, March 10.—Mrs. Eliza Brooker, of this city, on Friday celebrated the 100th anniversary of her birth. She was born at Brighton, Eng., March 7th, 1819. She has lived in this city for many years. Mrs. Brooker is believed to be the oldest member of the Missionary Society of the Methodist church in Canada.

If a man has neither friends nor enemies he has lived in vain.

THE LATEST NEWS BRIEFLY GIVEN

Despatches that Come From Near and Distant Places.

TIDINGS FOR OUR READERS

PRESENTED IN THE BRIEFEST POSSIBLE FORM.

The Whig's Daily Condensation of the News of the World From Telegraphic Service and Newspaper Exchange.

No time has yet been set for the prohibition referendum, says Sir William Hearst.

Workmen's Councils are to be formed in Germany for the purpose of putting a stop to strikes.

William H. Comstock, one of the leading business men and oldest citizens of Brockville, is dead, aged eighty-eight.

Patrick Quinn, superintendent of the Criminal Investigation Department at Scotland Yard, has received a knighthood.

Maurice Knight, aged twelve, is still alive and likely to recover from a 200-foot drop over a precipice of the Niagara River.

E. A. Cohen, Winalpeg, well-known barrister, died suddenly. He was recognized as a leader in Jewish thought on this continent.

Premier Paderewski has arrived at Posen to explain to the inter-allied mission the critical position of the Poles on the Lemberg front.

The Czechoslovak military command has proclaimed a state of siege throughout Slovakia as the result of a German-Magyar plot.

One constable was shot and seriously wounded when police from Guelph were worsted in a fight with M.S.A. absentees at New Germany.

Hon. T. W. McGarry, Provincial Treasurer, is prominently mentioned as a possible successor to Sir William Hearst as premier of Ontario.

The Berlin workmen's council has decided to issue an order officially calling off the general strike in the German capital, says a Berlin message.

Police left Guelph for New Germany on Monday to arrest Mr. and Mrs. Berbluch and two sons, accused of firing on the police while resisting arrest as absentees under the M.S.A.

D. H. McDougall, president of the Nova Scotia Steel and Coal Company, was elected president of the Canadian Mining Institute for the coming year.

The percentage of members of trade unions unemployed at the end of January, as just reported by the Department of Labor, was 3.3 as against 8.7 on December 31, 1918.

Work was resumed on Monday throughout the greater part of Berlin, following the calling off of the strike. President Ebert and secretary Landsberg have arrived in Berlin from Weimar.

From the date of the entry of the United States into the war to February 21st, 1919, there were 339 cases of self-destruction in the army. Of these 193 took place in the United States and 146 overseas.

A report is current that the United States Government has purchased eighty per cent. of the dry bean crop in their country, and is now feeling out the market in Canada with a view to getting further supplies.

Dr. Henrich von Albert, privy councillor and formerly commercial attaché of the German embassy in Washington, has been appointed an under-secretary of state and given the direction of the Chancellery.

Arthur J. Balfour, secretary for foreign affairs in the Lloyd George ministry, will retire at the close of peace conference. He will be succeeded by...

New Medical School for London. London, Ont., March 11.—A grant of \$150,000 toward the building of a new medical school in connection with Western University will be asked of the Ontario Government by a deputation comprising the board of governors of the university, which will wait on Premier Hearst on Wednesday. The city has voted \$100,000 to the new building, which is proposed to be erected at the corner of Ottawa avenue and Waterloo street.

Co-operative Creamery Sold. Cobourg, March 10.—The Harwood Creamery which has been run upon a co-operative basis for some years past, has been disposed of to the Flaville Company of Lindsay, who will purchase the cream from the farmers and manufacture the butter. It is expected to commence operations about the first of April.

Propose Memorial Hall. Cobourg, March 10.—A movement is on foot for the erection of a community hall as a memorial to local soldiers who made the supreme sacrifice. It originated with the G.W.V.A. and local chapter of the Daughters of the Empire.

J. M. Spadai, who is removing to Toronto, has resigned the office of recording clerk of Ward 4 Street Methodist Church, Brockville. His successor is W. T. Rogers.

Heart Fluttering Easily Corrected

GOOD ADVICE TO FOLKS BOTH-ERED WITH PALPITATION, WEAKNESS, ETC.

If your heart flutters, be careful. An attack is liable to come on at any time. Excitement, over-exertion or emotion may cause it.

If blood rushes to the head, if palpitation and short breath are noticeable, there's cause for alarm.

If you want a good honest remedy try Ferrozone. We recommend Ferrozone because we know it's just right. It cured A. F. Beattie, who lives at Allen Hotel, Bay City, Mich. See if your symptoms resemble these:

Some Symptoms of Weak Heart: Nervousness, Palpitation, Trembling, Dizziness, Sinking Feeling, Heart Pain, Shock, Breath, Weakness.

Mr. Beattie says: "I was weak and miserable. I was subject to heart palpitation and dizziness."

"As I grew worse I began to have trembling and sinking sensations. Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

By strengthening the muscles of the heart, giving proper circulation and causing a general rebuilding of the whole system, Ferrozone is bound to do grand work. Try it, 50c per box, or six for \$2.50.

ceded by Earl Curzon, President of Council and Government leader in the House of Lords.

Premier Foster of New Brunswick told a temperance deputation there would be no increase in alcoholic percentage in beer till the people declared for it by referendum, and no referendum till the soldiers are all home.

London, March 11.—The Daily Express understands that wireless telephony by the use of light rays has been discovered and successfully experimented with by a young doctor of physics at University College of London. A message sent by the new wireless telephony is, in effect, a spoken heliography, and whatever it has been practicable to send a Morse code heliogram by flashes it will be possible, when the invention is developed, to send spoken words. The experiments were carried out for Mr. Balfour, then First Lord of the Admiralty, and Admiral Beatty, sitting in a flagship in the "Firth" of Forth, were able to talk over the light ray telephone direct to the Admiralty and receive messages back. Later the apparatus was placed in submarines and used with success.

William H. Comstock of Brockville Dies. Thrice Mayor, Member of Commons, a Leading Business Man.

Brockville, March 11.—William Henry Comstock, one of Brockville's oldest and leading citizens, died on Sunday at the family residence, King street east, after a few days' illness. Owing to his advanced years his death was not unexpected.

He was born at Batavia, N.Y., August 1st, 1830. He came to Brockville 24 years later, and resided here continuously since.

He was one of the builders of Brockville, and one of its largest real estate holders. He was mayor three times, and in 1899, on the death of Hon. John F. Wood, he successfully contested the riding in the federal by-election against the late Hon. Peter White. He had held every position of trust and honor in the gift of the citizens.

The business of which he was head, and which is incorporated as W. H. Comstock Company, Limited, with head office at Brockville, and factory at Morrisstown, N.Y., is known throughout the world, and met with such success that Mr. Comstock amassed a handsome fortune. He is survived by his wife, four daughters and one son, namely: Mrs. C. S. Costello, Misses Wilhelmina and Griswold Comstock, Brockville; Lieut. W. H. Comstock, Royal Air Force, recently returned from overseas; and Mrs. John W. Langmuir, Toronto. He was a Presbyterian. The funeral will take place Tuesday afternoon.

Prussian Women to Fight the Reds. Will Organize a Border Militia to Withstand Bolshevik Hordes.

Weimar, March 11.—Frau Bronner, an authoress and publisher and a delegate of the German Democratic party in the National Assembly, has left for home in Koenigsberg to organize the women of East Prussia into a border militia against the Bolsheviki.

Frau Bronner declares her action was prompted by reports that a Bolsheviki force, 1,000,000 strong, was advancing toward the German frontier and her fear that the men alone would be unable to withstand the Bolsheviki hordes. Therefore, she thinks the women must help in the defence.

New Medical School for London.
