LABOR BUREAU IS OPENED KINGSTON HAD POOR LUCK

ADDRESS BY MAJOR HAMILTON ON THE WORK.

The Bureau Enables Discharged Soldiers to Get Into Touch With Employers of Labor Needing Help.

A meeting of citizens was held in the council chamber on Tuesday afternoon for the purpose of hearing an address by Major Hamilton, special representative of the Repatriation Employment Committee, on the opening of the labor bureau in Kingston. A small number of citizens were present. W. G. Bailey, unit demobilization officer for this military district, gave a report of the work of the local office in handling unemployed soldiers in the last ten days. Fifty-five soldiers have applied for positions. Of these twenty-four were placed, eleven reside out of the city, fourteen are skilled mechanics for whom there are no vacancies, and six are physically unfit for the positions which they sought.

Major Hamilton outlined the work of the labor bureau in enabling the discharged soldiers to get in touch with employers of labor having vacancies, and in assisting the manufacturers and employers in filling any vacancies on their plants. He stressed the necessity of having the whole-hearted support of all the labor organizations and of the employers of labor, and recommended that a repatriation committee be formed in Kingston to look after the employment situation in an advisory capacity. He gave some very interesting figures of the work done by the labor bureaus in other cities and also of the work of the T. Eaton Company of Toronto in taking back 1,187 returned soldiers into their employment.

The labor bureau in Kingston is to be opened in a short time. A. T. Tugwood, a returned soldier, is to be the Soldiers' Civil Re-establishment representative on the bureau, and every employee of the bureau who is dealing with returned men is a veteran of the war. In reply to questions, Major Hamilton stated that the repatriation labor bureau is the only officially recognized office for handling the employment problems of returned soldiers. He also said that, if possible, a representative of Kingston labor would be placed in charge of the Kingston Labor Bureau.

Entertained Aged People.
On Monday evening, the members of the Recreation Club, of the A.W.C.A., paid a visit to the Home for the Aged and Infirm, and provided a most enjoyable entertainment for the inmates. Miss Foster, general secretary of the A.W.C.A., accompanied the members. During the evening, the inmates were treated to oranges and candies.

LOST FIRST GAME TO COLLINGWOOD BY 6 TO 4.

But the Westerners Have Not the Championship Won Yet—Ruby Millan Was the Kingston Star.

A Toronto despatch to the Whig says: Despite the fact that Collingwood defeated Kingston 6 to 4 in the first game of the intermediate final last night, the northern town team can hardly count the title won. Kingston battled all the way and had anything but the better of the breaks. Collingwood's last trench was one that tripped up the Kingston attack. McLeod and Belcher towered above eight Kingston forwards like giants, and they bunched off the puck carriers until it was maddening to Kingston. Kingston came strong in the last period, but their method was wrong. Down would dash the defence man, and he would forget to pass. If Millan got the puck, he had to squirm in alone, as his wings were lagging on the plays. The whole Kingston forward line relied upon expert Millan. They passed to him every time, and Collingwood checkers stuck to him like leeches. At that, Millan got in a couple of times in the last round, when only bad luck stopped him from getting a goal. The big Collingwood defence, backed up by Cook's goal keeping was what kept Kingston from tying the score in the last period.

Collingwood had the better of the play in the first half of the first and second periods, and Kingston came strong in the latter half of each round. In the third period Kingston had a margin, but could not get the goals. Up at the Kingston end, the defence work was not as strong as it should have been. Collingwood drew them aside time after time and the puck was passed over to an uncovered man to get the score. With airtight work at this end, the result would have been reversed. Collingwood took more time with their passing, and it was this that made them dangerous when at close quarters. Kingston had speed, but were not so good on their shooting. Rupert Millan was the best of the losers. He used his head all night. Brown had a barrel of speed, but generally skated into the corner. Time after time Millan trailed him down the ice and was waiting at the goal mouth for a pass, but Brown took a lone flier at it on every occasion.

Kingston put in their best ticks in the last session. They checked closer and rushed up men two and three at a time and paid some attention to their passing. Derry scored first from a three man combination. The Kingston team bored in and were sadly outchecked, but couldn't get a rebound, and the last goal of the game was scored by Hagerman on a lone effort. The final was six to four. The teams:

Collingwood	Kingston
F. Cook goal	W. Walsh
McLeod defence	Hagerman
McLeod defence	Brown
Foulis centre	R. Millan
Erwin right	T. Millan
Sanderson left	Smith
Herberts sub.	Derry
Burns sub.	Elmer
Referee—Lawson Whitehead.	

The Scoring Summary.
First Period:
1. Collingwood—Fryer 8.00
2. Collingwood—Foulis 4.00
Second Period:
3. Kingston—R. Millan 2.30
4. Collingwood—Herberts 5.30
Third Period:
5. Kingston—Derry 5.00
6. Collingwood—Foulis 2.00
7. Kingston—R. Millan 1.00
8. Collingwood—Fryer 2.00
9. Collingwood—Fryer 2.00
10. Kingston—Hagerman 7.00

Clarkson-Wood Nuptials.
The marriage took place in Kingston on Monday afternoon at Arthur T. Clarkson, formerly of Tweed, who served overseas with the 21st Battalion, and Miss Lily Iva Wood, of Tweed, daughter of H. J. Wood. The wedding, which was a very quiet nature, took place at Sydenham street Methodist church parsonage, Rev. W. T. G. Brown officiating.

The groom is taking the vocational training course in Kingston. Mr. and Mrs. Clarkson will reside in Kingston.

Recovered Stolen Brass.
W. N. Tisdale, chief special agent for the Grand Trunk Railway at Montreal, spent the past couple of days in Kingston and district, and, with the assistance of Sgt. James Bateson, succeeded in locating a quantity of brass belonging to the company which had been reported missing.

KINGSTON EVENTS 25 YEARS AGO.

Mr. Madden shipped 240 boxes of winter-made cheese and a lot of dairy butter to England.

The seats for the new Roman Catholic church at Portsmouth have arrived.

The stone masons will ask for \$3 a day on May 1st.

Mr. Friendship, gardener, exhibited on the market square a branch of a plum tree containing blossoms. The tree grows on his farm on the Bath Road.

The ice has shoveled out into the lake at Portsmouth. The bay will be open in a day or so.

Principal Grant spoke to a crowded audience at Convocation Hall on the Book of Jonah.

It sometimes happens that a domestic exhibition is the result of a lot of theories getting into a man's mind.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about \$2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain granulated sugar syrup. To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pinex (50 cents worth) in a 16-oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for \$2.50. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membrane—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Maty a man's word is like an echo—merely a hollow mockery.

YOUR FURNITURE

Is It Worthy of Your Home?

Good furniture is an essential part of the beautiful home. It gives an air of taste and refinement. It is really not how much you spend on the furnishing of your home, as how and where you spend it. We offer our unexcelled store service.

To Grow Hair On Bald Heads

Specialist Gives Simple Recipe That Works Fine

Thousands of people suffer from baldness, and falling hair, who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist. Be Run 6 ounces, Lactogen de Composee 2 ounces, Menthol Crystals, one half drachm. If you wish it perfumed add 1 drachm of your favorite perfume. This preparation is highly recommended by physicians and specialists and is absolutely harmless, as it contains none of the poisonous alcohol so frequently found in hair tonics. Ladies using this prescription should be careful not to get it on the face or where hair is not desired.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble Caused By Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach, and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisulphated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and blast right out of the body, soothe the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisulphated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.
