The Promoter's Wife

By Jane Phelps

NEIL TELLS BARBARA MORE ABOUT HIS BUSINESS

CHAPTER XXIX.

"What in the world did Mr. Rayburn mean when he said I was asking a good deal for a promoter's wife?" I asked.

"What did you say to him to call forth a remark like that?"

"I said I was more anxious to see the workings of the mines in which you were interested than I was in seeing the people of Mexico."

"What brought up the subject? There was a frown on Neil's face—the kind of look I had learned to dread."

"He asked me if I ever had visited Mexico."

"And you told him?"

"That I hoped to go with you if you went again," I interrupted.

"Rayburn is all right, but he is apt to think things. Be very careful what you say to him."

"Think things?—what do you mean?"

"Oh, nothing in particular. He prides himself upon his skill in reading character; and sometimes he is

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated, Give California Syrup of Figs.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given to-day saves a sick child to-morrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Alkali in Shampoos Bad For Washing Hair

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain purified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Where Is the Tame Cat

Have you noticed that the tame cat has gone out of fashion? I mean the harmless sort of admirer who used to hang round the young married women of social circles. He could play the violin a little, and he usually had a thin tenor voice, and he always sang "Oh Believe Me If All These Dears Young Charms, very meaningfully after dinner. He always remembered the kind of bonbons his lady liked, and he never failed to get her the first violets procurable.

He was the only respite from boredom for the lady who had a "Too-Busy-Husband." He could dance well, and he would trail round the picture gallery, or through the stores, in the wake of his queen without looking

DEMAND 8-HOUR DAY.

Snow Shovelers on I.C.R. Are on Strike.

Quebec, March 12.—The heavy snowstorm that swept the entire district Sunday piling drifts ten, fifteen and even thirty feet high in cuts and curves along the railway lines, brought the snow shovelers employed by the Intercolonial Railway to strike. They demand the eight hour day instead of the nine hour day, but they want the same pay, three dollars per day. At noon to-day the company had not acceded to the demand.

Sir Thomas Lipton has offered another cup to replace that won by Nutmeg III, which latter boat was recently purchased at Marblehead, Mass., from the Royal Canadian Yacht Club of Toronto.

Getting Too Fat?

Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist (or if you prefer write to the Marmola Co., 864 Woodward Ave., Detroit, Mich.) for a large case of Marmola Prescription Tablets. 75c is the price the world over. By doing this you will be safe from harmful drugs and be able to reduce two, three or four pounds a week without dieting or exercise.

OUR NEED.

What we lack and sorely need, For want of which we bleed, and bleed.

Honest men in highest places— Men with single aims and faces, Men whose nobler thought outpaces

Thought of self, or power, or pelf— Men whose axes need no grinding, Men who are not always minding First their own concerns, and blinding

Their souls' eyes to larger things, Men of wide and Godly vision, Men of quick and wise decision, Men who shrink not at derision, Men whose souls have wings.

O for one such man among us— One among the mobs that throng us?

And for self-advance do wrong us? Him we would acclaim— Hold in highest estimation, Reverence with consecration, As the saviour of the nation, Dower him with fame.

Lord, now raise us one such man— Patriot, not partisan— Thy might plan, And complete Thy mighty plan.

—John Oxenham.

The fact that "fault heart never won fair lady" must be a source of much satisfaction to old bachelors. An honest man wants only what belongs to him—and what he can persuade others to let him have. Free speech is no excuse for talking too much. Prejudice is the stepfather of slander.

HOW CANADIAN WOMEN discovered their own truly Canadian Sugar

A light, fluffy cake—it depends partly upon the sugar you use in it. Brown sugar makes a moist cake, powdered sugar a dry cake, granulated sugar a cake of the finest texture, Dominion Crystal Granulated the "just right" cake.

Use this finest of sugars—this "truly Canadian" sugar—not only for the cake itself, but for the icing too.

A PRODUCT UNTOUCHED BY HUMAN HANDS

The Canadian housewife who has used this sugar has found it to be all that sugar should be; and has accordingly adopted an attitude of extreme friendliness toward it, and pride in its use. It is a matter of pride that we have the ability to produce our own truly Canadian sugar from our own Canadian grown beets.

You should know more about this splendid Canadian product. You should read the whole interesting story as told in our beautifully illustrated book, "Sugar from Beet to Bowl." Those who can come, are welcome at any of our

three refineries, welcome to see the whole process. For those who cannot come, we recommend a reading of our book, and the following of the sugar through its pages, from the time the juice is extracted from the beets, until the sugar is packed in bags as a refined white crystal. All through the process—the slicing of the beets, the extraction, the repeated purifying and filtering, the boiling, the drying, the cooling and the packing—all through this intricate system, not a single human hand is permitted to touch
