This force peppered the enemy from the roads in several positions from which bad for the opposition.

The next day the Second Division again attacked and cleared the Boche out of Iwuy, undeterred by the enemy's artillery, which put down quite a heavy barrage on our troops. By 10.30 on that morning the Germans launched a strong counter attack from the direction of Avesnes, started by artillery and seven tanks. It was a foolhardy effort on his part, knocked out, his ranks were ripped to pieces, and we got 300 prisoners. On October 12 the First Division

The enemy was evidently determined not to be driven back without a fight, so to break the monotony he delivered a counter-attack north of Aubbigny au Bac, with the result that we netted two officers and 199 other ranks as prisoners and took possession of

At Pecquencourt and villages in the neighborhood which fell to the First Division, nearly 3,000 civilians were released on October 19. On the night of October 19-29 the Tenth Brigade of the Fourth Division entered the large mining town of Denain after a sharp fight on the outskirts, and the 28,000 civilians there welcomed our men with most hilarious enthusiasm. On November 1 the Fourth Division attacked with the 22nd Corps, an attack which was an unqualified success, for over 800 enemy dead were counted after the show at the portals of the city, and we captured 1,400 prisoners, several artillery guns, and many machine guns.
