KINGSTON IN THE FINAL
IT DEFEATS THE BELLEVILLE BASKETBALL TEAM

By 34 to 22 and Captures the Round—Now Meets Broadview Y.M.C.A. Team of Toronto.

One of the largest and most enthusiastic crowds witnessed the fastest game of basketball in Belleville last Saturday night when the Y.M.C.A. Intermediate team of Kingston played Belleville. It will be remembered last Wednesday Belleville won the first of the home and home games from Kingston by one point, the score being 35-34. On the return game Belleville took the count from the local boys by the score of 34-22, Kingston winning by 11 points on the round. They will now play off with Broadview Y.M.C.A. of Toronto for the championship of Ontario.
Although Belleville were ahead at half-time by four points it was easily overtaken in the last half. The locals' combination was like clock work. The Kingston boys stuck to their men like glue. Capt. McLaughlin played a horse of a game with his partner, Sugel, on the forwards. In centre Vanastyne was a marvel, out-jumping a man with six inches more of a reach than he. On the defence the reputation of F. Morris and Thompson cannot be disputed. Clarke and Brockel had their hands full at all times of the game. The line-up:
Belleville. Kingston.
Duesberry McLaughlin
Harlow Centre. Sugel
Hollinrake Vanastyne
Defence. Defence.
Weir F. Morris
Morden Thompson
Subs. Subs.
Hutchins B. Morris
S. Abramsky
Umpire, G. R. Clarke, physical director, Kingston; referee, P. F. Brockel, general secretary, Belleville; timekeeper and scorer, Mr. Buchanan, Belleville.

LETTERS TO THE EDITOR

The Milk Question.

Kingston, March 17.—(To the Editor): The milk question, like the sea serpent at Laighboro Lake, seems to come alive and occupy the lime light about this season each year, and while I have read and re-read the report of the recent meeting of the Board of Health, when Inspector Bell answered Supt. Zuleit's questions relative to the enforcing of the pure milk by-law, as an old dairy farmer I want to go on record—and I believe myself to be a competent judge—as stating that the milk being delivered to my Barrie street residence is better than I have had during my nine years' residence in the city, and I also wish to take exception to some of the statements made by Mr. Zuleit in his remarks to the Board of Health as reported.
In the first place Mr. Zuleit states that the standard of milk being delivered is deteriorating. Well, sir, he has made some tests, or rather he is supposed to have made some tests, and when said tests were handed back to the inspector and sampled again taken, it has been found in almost every case, due to the efforts of the milk inspector, the milk was up to the required standard, and I agree with Mayor Newman that a man deserves a chance before being forced out of business.
The second point Mr. Zuleit takes is, that a veterinary should not act as milk inspector. Well, if not a veterinary, then who for goodness sake is qualified to go to the farm; to test the cows for disease, to examine the containers, barns, etc., if not a veterinary. This point is so ridiculous as to need no reply from me, the only inference it being possible for one on the outside making, is that the gentleman who occupies the superintendent's chair at the dairy school is either working to feather his own nest by adding the milk inspector's salary to that of his present job, or his motive is a purely spiteful one, which if the latter is the case should be treated with the contempt it deserves.
Again Mr. Zuleit states that every farmer should be compelled to have his cows examined and health certificates issued for each animal. If the milk inspector were other than a veterinary, who could issue the certificates? The answer is obvious, the milk inspector must be a veterinary, and in my opinion the city of Kingston is fortunate indeed in having Dr. Bell, one of the most competent veterinarians in the province in charge of its milk supply.
As to my qualifications for entering into a pure milk discussion, I wish to advise that I have judged horses and cattle off and on for the past twenty years and I believe myself to be an authority on this matter, and I have served as reeve, deputy and councillor for the Township of Ernestown for ten years.
Yours very truly,
—J. T. BAKER.

The Mayor's Statement.
Kingston, March 17.—(To the Editor): I notice in your Friday's issue an item headed, "withhold orphans' Home Grant," stating that the civic finance committee had decided to withhold payment of the orphans' home grant until an explanation was forthcoming as to why two motherless children were refused, etc. I regret that such an article was published, and I beg to advise that although an informal discussion took place there was no resolution of the kind as stated.
The board of directors of the home met this morning and showed me a resolution on their minute book admitting the two children to the home, and thus proving that the complaint was not as stated by the father of the children and that he was laboring under a misunderstanding.
I thank you for this privilege of correcting a wrong impression, as I am sure the ladies in charge of the orphans' home are carrying on an excellent work in a well-organized and systematic manner, which is deserving of all public support.
Yours truly,
—H. W. NEWMAN
Mayor.

"How Advertised?"

When a salesman tries to sell you a line of advertised goods, Mr. Storekeeper, ask him: "How advertised?"
Ask him if they are advertised to the people of this city in the newspapers which your customers read.
If they are advertised in the newspapers, you can be sure they will be easy to sell.
Newspaper advertised goods are seldom "self-sellers."
