Mr. and Mrs. Lawson have lived in this vicinity for about fifty years and Keplerites sincerely regret their departure. As a token of the esteem in which they are held, each was presented with a handsome oak chair, and Miss Evelyn with a necklace. Rev. Mr. Charleswood gave a short address, referring particularly to their lives as Christian citizens. Mr. Lawson replied in a very suitable way, and recounted reminiscences of bygone days.

On Friday evening over fifty of the friends and acquaintances of Sergeant Stanley Hansen gathered at the home of Mr. and Mrs. William Horning to welcome him back after an absence of over two years overseas. Games were indulged in until a late hour, when refreshments were served.

**What Happens to the food you eat?**

During digestion certain kinds of food containing proteins, such as meat, egg white, milk casein, wheat gluten, etc., are split into many different substances. Some of these the body uses to rebuild damaged or dead tissues; some, however, are not only useless and harmful but in some cases actually poisonous. Regular, thorough bowel evacuation gets rid of the latter.

Constitution permits stagnation and absorption of these poisons into the blood, with injury to the whole body.

Taking castor oil, pills, salts, mineral waters, etc., in order to force the bowels to move does not—cannot cure constipation—but makes it worse.

On the other hand Nujol overcomes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug.

Nujol brings about a return to Nature's methods of supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal and protection of the defensive properties of the blood itself.

Nujol has no deleterious after effects, produces no bad habits, makes the bowels regular as clockwork.

Nujol is efficient at any age—under any conditions—is satisfactory and safe.

How and Why Nujol overcomes constipation is described in an interesting and authoritative booklet, "Thirty Feet of Danger" free on request. Send for it and get a bottle of Nujol from your druggist today.

**Warning:** Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. All druggists in U. S. and Canada. Insist on Nujol. You may suffer from substitutes.

**Fulton Trucks come to town**

This town needs trucks—good trucks.

That is why I have contracted with Grace Motors Limited, of Toronto and Winnipeg for the Fulton selling franchise in this territory.

Fulton 1 1/2-ton Trucks mean much to this community. They mean increased transportation facilities under efficient economical conditions. And every man in this whole district must wake up to the fact that transportation is the big problem of the day.

The Fulton Motor Truck is the best answer I know of—I won't sell you a truck if you don't actually need it. But I want everybody to know how good Fulton Trucks are. Come around and see them, or let me bring it to you.

Fulton Motor Trucks are built by the largest exclusive builders of 1 1/2-ton trucks. The "go-everywhere, do-everything" truck of America. It is scientifically designed to haul a 3000 pound load of feathers or pig-iron. You can't "feaze" the Fulton with a ton and a half of anything.

A-pretty useful truck for your business, this Fulton. You only need to use it to recognize its quality. And Fulton owners are getting 14 to 17 miles to the gallon of gasoline.

Let's talk Transportation—Truck Transportation—at your office or mine.
