## CURES

Coughs, Colds, Grippe, Bronchitis, Whooping Cough, Asthma, Etc.

MATHIEU'S SYRUP is a sovereign tonic combining the curative properties of TAR and the strengthening virtues of COD LIVER OIL.

Colds, when neglected or badly treated give rise to consequences of such a grave character that you should not risk using inferior preparations.

MATHIEU'S SYRUP is the only genuine remedy whose reputation has caused to crop up many imitations of doubtful value.

Perhaps some persons talk to themselves because they find it impossible to interest any one else.

Even a tramp may admire pictures, but he invariably draws a line at wood cuts.

## MAKING TWELVE PER CENT. TO GRIND LIMESTONE HERE

LANDLORDS USING HOUSE SCARCITY TO BOOST RENTS.

Case Cited of Landlord Receiving Twelve Per Cent. On Actual Value Placed On House.

A citizen stated to the Whig on Monday that landlords are to blame for the present high rents as they are charging rents which are high in proportion to the money invested. The case he quoted is an interesting comparison with the pre-war conditions when the housing situation was not as much considered as it is at present.

A moderate sized house has been rented to a mechanic in the city for \$25 a month. The house was built a few years ago, and while new is not well built, being like too many others—"A house built to sell." The house was offered for sale to the On April 1st the rent was jumped \$10 a month with the reason being given, "There is a scarcity and what can you do?" This landlord received twelve per cent. on his money.

An explanation advanced is that there are a great many officers of the Militia Department who are temporarily residing here. This has undoubtedly something to do with the situation as most of them live in a house, pay a high rent and still keep a home in some other part of the country.

Another reason is the students who, however, will soon be leaving and giving up rooms, if not houses. This should ease the present situation somewhat.

**BLEW BUBBLES IN VAIN.**  
Doctors Skeptical of Von Rintelen's "Tuberculosis."

Newark, N.J., April 3.—At a time when his fellow-countrymen would have exchanged a field piece for a cake of castle, Captain Frauz von Rintelen, convicted German plotter with an aversion for the Atlanta penitentiary, was blowing soap bubbles in the Newark jail, in an effort to convince examining physicians he was suffering from tuberculosis. This became known when officials of the jail asserted the ex-German naval officer had "borrowed" all the soap possessed by his fellow-prisoners and, after having eaten it by the pound, had emitted from his lips a foam which for a time puzzled the doctors. But the unpalatable meal was eaten in vain, for, still spouting bubbles, von Rintelen was shipped south.

**GET MONTREAL SCALE.**  
Increase For Quebec Protestant Women Teachers.

Quebec, April 3.—The Protestant Board of School Commissioners of this city has accepted the increased scale of salaries submitted by the Association of Protestant Women Teachers. The scale was based on that passed in Montreal. This, together with other increased expenditure, will necessitate an increase in the Protestant school tax in Quebec, which will be brought up to seventy cents per hundred dollars' valuation.

**WITHDRAWS OPPOSITION**  
To Use of Danzig by Polish Troops in France.

Paris, April 2.—Germany will not persist in her opposition to the use of Danzig by Polish troops on the way from France to Poland, according to advices reaching Paris newspapers. Marshal Foch, who had planned to leave last night, will leave Paris to-day for Spa to meet the German representatives to discuss the Danzig question. The marshal had a long conference Tuesday with Premier Clemenceau.

**To Keep Their Promises.**  
Ottawa, April 3.—Hon. J. D. Reid presented to the Railway Committee of the Commons a copy designed to compel companies holding charters to construct their lines.

He proposed that during the first year the company should grade and provide ties for twenty-five miles. At the end of the second year twenty-five miles should be in operation and twenty-five miles additional each year until completed.

The Minister of Railways suggested that a clause of this nature should be inserted in the charter of every railway company incorporated by the Federal Parliament.

**Local Option in Assessment.**  
Toronto, April 3.—Important amendments to the Assessment Act were adopted by a special committee of the Legislature last night which will be received with approbation by a large section of the people of the province. The important changes in the act are to grant local option to municipalities to grant partial exemption from assessment on the moderately priced houses; and to increase the amount of personal income that is exempt from taxation. Both these changes were adopted by the committee without opposition.

**Tells About Siberian Natives.**  
In a letter from a member of the Siberian force now stationed at Vladivostok, much detail is given about the customs of the natives of that place. They are described as being very fond of wearing uniforms, and carrying revolvers and knives or daggers. The uniform is of bright color and elaborate. The houses of the people are of poor construction, and there are no sanitary conveniences. Animals run about the dwellings and streets. The Canadian boys are anxious to "do something" or get home.

**27,463 Canadians in Hospitals.**  
Ottawa, April 3.—It was stated to the Parliamentary Pensions Committee that there were still 16,313 Canadian soldiers in hospitals in the United Kingdom, and 2,954 in hospitals in France. These include 5,000 venereal cases. The number of soldiers still in hospitals in Canada was given as 8,296, including 501 suffering from venereal diseases.

**Pembroke citizens advanced their clocks one hour April 3rd.**

PLANS BEING MADE TO ESTABLISH A COMMERCIAL PLANT.

Pulverized Limestone Has Been Found to Be Beneficial to Worked Out or Soured Soil.

Plans are now being made to establish here a big commercial plant which will be similar to a plant which is now being installed at the penitentiary to grind up limestone and use it as an alkali to counteract the acids of the soil on farms which have been worked out or become soured.

The plan has proven very successful in the United States, particularly near Chicago, where there is a big commercial plant which pulverizes the limestone of that district and after it is prepared it is shipped all over the country.

Exhaustive tests and experiments have been made of the limestone of this district and it has been found to be equal, if not superior, to that of the Michigan deposit. When the local stone is ground up very fine and spread on land it will accomplish the same results—assist in the vegetable growth on the land.

**SUES PARISH PRIEST.**  
Man Who Was Not Allowed to Worship Behind Altar.

Quebec, April 3.—The Rev. Father Theodore Dumas, pastor of the parish church at St. Raphael, Bellechasse county, is the defendant in an action for damages filed here, claiming \$500.

The plaintiff is one A. Leblanc, of that parish, who claims that after being allowed to worship behind the altar at mass, he was one day expelled from that part of the church, hence the action.

**FIRST TIME IN 70 YEARS.**  
The Harbor of Rimouski Is Clear of Ice.

Quebec, April 3.—For the first time in seventy years the harbor of Rimouski, down the gulf, is clear of ice at this date. The ice bridge between Rimouski wharves and St. Barnabe Island broke up on the 29th of March and canoes and flats are paddling all around.

**Perth Customs Official Loses Wife.**  
Perth, April 3.—J. V. Watson, collector of customs, Perth, is receiving sympathy of the citizens in the sudden loss of his wife. When Mr. Watson left home on Monday to go to work, Mrs. Watson was in her usual good health. About ten o'clock their little son went down town for the mail, and returning shortly before noon could not locate his mother, until he went out in the yard. When Mr. Watson came home a few minutes later the house was empty and on going to the yard he found his wife lying on the ground, and the little son, about five years of age, breaking his heart over the prostrate body of his mother. Mrs. Watson was an exceptionally robust-looking lady, but it is evident the bursting of a blood vessel in the head was the cause of death.

**Britain Looks For Trade.**  
London, April 3.—The new Department of Overseas Trade is ready with a plan for the reform of the Consular service and the establishment of commercial attachés. It is proposed to spend at least £1,000,000 annually on the Consular service and nearly £250,000 on the commercial attachés.

Several associations of British manufacturers intend to take advantage of this new activity on the part of the Government. The largest of these represents directly or through Allied organizations, nearly 20,000 firms, with a capital of £4,000,000,000.

**Will Boycott Towns.**  
Whitby, April 3.—Fred Rowe, the president of the local United Farmers' Club, which was organized recently at Brooklin, says that if Whitby and Oshawa adopt daylight saving as they did yesterday he will organize the farmers of this district to boycott the two towns.

In this connection it is odd to note that it was the only actual farmer of the town council of Whitby, W. A. Broughton, who moved the adoption of daylight saving.

**Gets Con tract.**  
Belleville, April 2.—L. E. Allen, C.E. of this city, has secured, through the provincial government, a large contract which involves a considerable sum of money. It is the construction of all concrete work on bridges and culverts between Prescott and Ottawa on the Ottawa and Prescott provincial highway.

A quiet wedding was solemnized in Brockville on Monday at the residence of the bride's parents when Miss Mary Staker Conn, only daughter of Mr. and Mrs. Neil Conn, was united in marriage to Frederick Johnston Curran, late of the 2nd C.M.R., who recently returned from France.

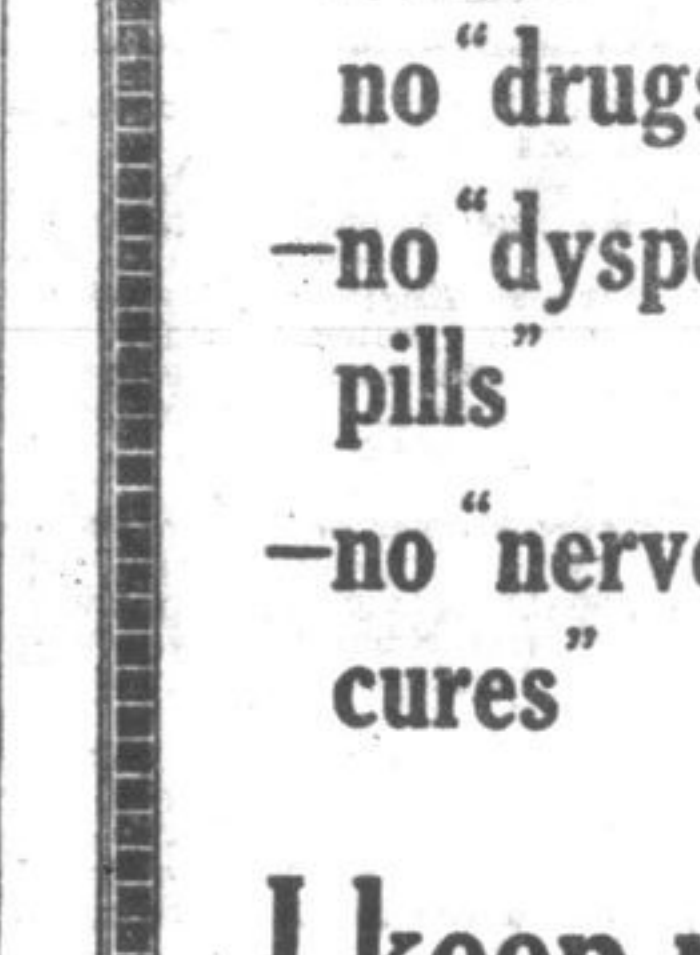

J. E. Chrysler, who for the past thirty-three years has conducted a jewelry store in Brockville, has disposed of his business to W. M. Haskins, Ottawa.

## WAR PUZZLES

### LA FOLLETTE

**SENATOR LA FOLLETTE**  
Prevented passage of war resolution, two years ago today, April 3, 1917. Find another Hun sympathizer.

**YESTERDAY'S ANSWER**  
Right side down nose at elbow.

**SAID HE WAS DEAD**  
And Government Must Repay the Insurance Companies.

Niagara Falls, April 3.—James McChesich arrived home last night. "This is my second time on earth," he was humorously telling his friends, as he shook hands. Among his trophies from the war are memorial cards with his own name on them, and divers clippings from newspapers telling how he was killed at Vimy Ridge. The memorial cards were sent to him by relatives when he came out of Germany after the armistice was signed. It developing he had been taken prisoner instead of being killed and another man's body taken for his. The Government officially reported him dead. As a result several insurance companies and societies paid his mother insurance. The Government will now have to make this good to the insurance companies, it is said, because of its official report of his death. He went with the 98th Battalion.

Nothing else works the bile, sour fermentations and poisons from a child's tender stomach, liver and bowels like good old harmless Cascarets. They never gripe, never injure, never disappoint the worried mother. Give Cascarets to children aged one year and upwards. Directions on each 10 cent box.

**NEWS FROM THE DISTRICT.**  
Clipped From the Whig's Many Bright Exchanges.

Hiland D. Robins of Clayton, N.Y., and Green Island, N.Y., died at Clayton on March 27th, aged fifty-four years. He was a famous river guide.

Mr. and Mrs. David Lowery, Kinburn, announce the engagement of their eldest daughter, Beatrice May, to Wilbert Lorne Steen, son of Mr. and Mrs. William Steen, Falkenhain.

The death occurred on Sunday of James Hodgen, at the home of his son-in-law, Hartford Parliament, third concession of Ameliasburg. He was a retired farmer, eighty-six years of age.

The King bestowed the distinguished service order on Major Robert Harkness, son of Rev. Dr. Harkness, pastor of Knox church, Cornwall. This is the second occasion the young Cornwall officer has had honors bestowed upon him.

Mrs. Ida C. Bellows, widow of the late Dr. Caleb Bellows, died at Ottawa on March 31st. Mrs. Bellows' maiden name was Ida C. Huntington, daughter of the late Erastus Huntington, Kemptville.

Mrs. Bellows was born in Kemptville on April 5th, 1853. A former resident of Brockville, N. B. Colcock, passed away last Thursday in London, Eng. He had been in ill-health for a long period. He was the former proprietor of the Brockville Times.

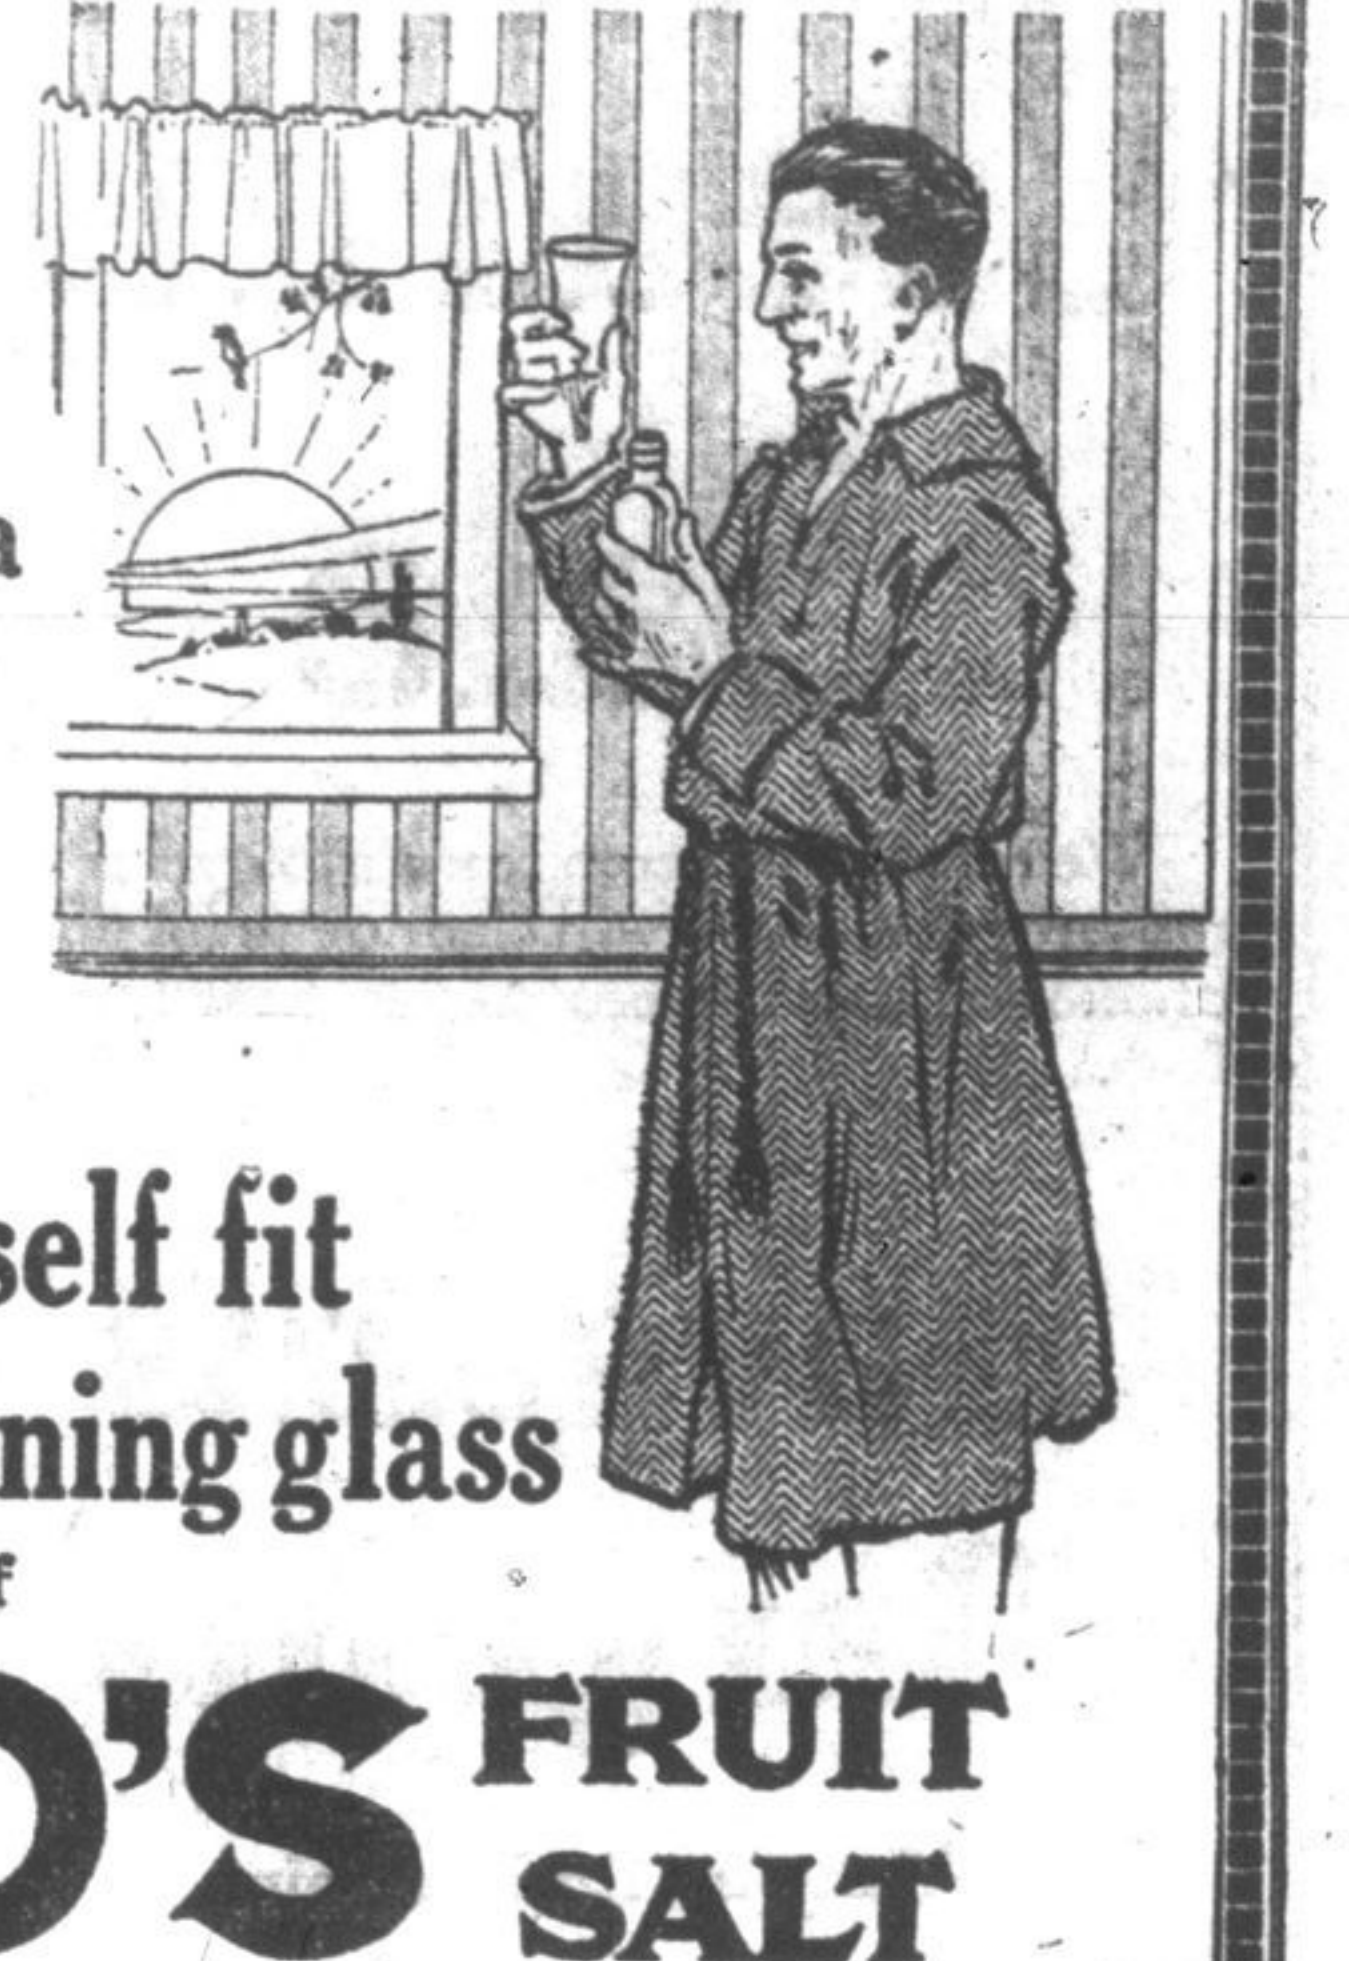

The funeral of Mrs. J. Doak, who passed away at the home of her daughter, Mrs. George Humphrey, Wilstead, took place Sunday afternoon to the vault at Lansdowne. Mrs. Doak, who resided in Lansdowne, went to visit her daughter, Mrs. Humphrey, a few days after Christmas and shortly afterwards was taken ill. She was seventy-nine years of age.

of

# ENO'S FRUIT SALT

YES, and that spoonful of Eno's taken in a glass of water before breakfast is responsible for many a man's clear-thinking and business efficiency.

For you can't have clear-thinking with a bad stomach and sluggish liver

If men of active minds were as active with their bodies, the chances are that they would not suffer from biliousness, sour stomach, constipation and kindred disorders. It is to such men that Eno's Fruit Salt proves its value as a gentle, safe and untailing regulator of the digestive and eliminative system.

Being a natural aperient—that is, composed of all cleansing and tonic elements of ripe fruit juices—it performs its work in a normal way without irritation or harmful reaction. It clears the intestines, rouses the torpid liver to activity and produces a delightful feeling of liveliness and vigor that can only arise from a sound, active physical condition

Sold by All Druggists
