

**AT THE HOTEL RANDOLPH
MONDAY AND TUESDAY,
APRIL 14TH & 15TH
DORENWEND'S of Toronto**

Write you to their display of the newest creations in artistic hair-goods. If your own hair is thin, dull and unbecoming, let us demonstrate just what can be done to supply your lack of hair, and how perfectly it is accomplished.

FOR LADIES:—Switches, Transformations, Waves, Pompadours, Chignons, Etc.
FOR BALD MEN:—DORENWEND'S TOUPEE

will make you look years younger and improve your health. Light as a feather and undetectable on our sanitary patent structure.
This display is for two days only.
APRIL 14TH AND 15TH
Appointments can be arranged at residence if desired.

THERE IS NO CHARGE FOR A DEMONSTRATION
The DORENWEND COMPANY of Toronto.
Limited, Head Office: 103-105 Yonge Street

**Combination Gas and
Coal Ranges**

We have in stock a full line of Moffatt's gas and coal ranges and gas stoves. These stoves are guaranteed to give you perfect satisfaction.

Let us show them to you.

Lemmon & Sons

187 Princess Street. Phone 840

Let the picture above remind you that the real cake of Gold Soap is big. It is not only the best quality of laundry soap you can buy, but it is the largest cake offered for the money. Five cakes of Gold Soap are as large, and last as long as six cakes of the next largest size. Isn't that advantage worth the trouble of saying to your grocer, "I prefer Gold Soap"?

Gold Soap is made in the Procter & Gamble Factories at Hamilton, Canada

Gold Soap

**A SPLENDID PORTRAIT
Of The Late
SIR WILFRID LAURIER**

Is now on sale at the Whig Office. It measures 12 1/2 x 19 inches, and is a splendid likeness of Canada's greatest statesman. These pictures will be sold almost at cost, as follows:

Over the Counter 10c each
Delivered by Mail 15c each

Order early. The supply is limited.

INCREASE POTATO CROP

How to Check Serious Diseases in Ontario.

Leaf Roll and Mosaic Are Firmly Established and Reduce Yields One-third—How to Detect Diseases and Only Way to Control Them.

(Contributed by Ontario Department of Agriculture, Toronto.)

THE two most serious seed-borne potato diseases in Ontario are Leaf Roll and Mosaic. Other seed-borne potato diseases common in the Province are Black Leg, Rhizoctonia, Blight, Wilt and Scab. Leaf Roll and Mosaic cause a very marked reduction in the yield, and the fact that these two diseases are so prevalent in Southern Ontario accounts for the poor crop of potatoes that has been obtained in many parts of the Province for the past four years.

Leaf Roll.—The cause of this disease is unknown. Data gathered by the pathologists of the United States and Canada shows that Leaf Roll may reduce the yield to about one-third of the normal crop.

Symptoms.—Symptoms of Leaf Roll are very variable. Affected plants are always more or less dwarfed and in some varieties the leaves assume a characteristic upright, almost staling habit, instead of drooping over in the normal way. Rolling of the lower leaves is always associated with the disease. The rolled leaves on plants affected with this disease begin to die early. The harsh, leathery texture of such leaves is a constant symptom. The tubers of affected plants are small and are borne generally on very short tuber-branches (stolons) or even attached in a cluster to the stem. Tubers from affected plants invariably produce diseased plants. There is also evidence to show that the disease may spread from plant to plant in the field.

Prevention.—The only sure way of avoiding loss from Leaf Roll is to secure fresh seed from districts free from this disease. Fortunately, this is possible, as Northern Ontario and certain sections of New Brunswick and Nova Scotia and Prince Edward Island are comparatively free from this trouble. In experiments carried on in Old Ontario by the Agricultural Representatives with seed potatoes from South Ontario, New Brunswick and Northern Ontario, it was found that the average amount of Leaf Roll in the plants from the seed from the three different sources was as follows:—

Old Ontario 45.5%
New Brunswick 5.1
Northern Ontario 1.4

These figures strongly emphasize the desirability of obtaining northern-grown potato seed.

Mosaic.—The cause of this disease is also unknown. It has been observed in many fields in Ontario. When severe there is a very noticeable reduction in the crop. Data gathered by the pathologists of the United States and Canada shows that this disease may reduce the yield by one-half.

Symptoms.—The foliage of plants affected with Mosaic is somewhat wrinkled or corrugated and mottled with faint, light green or yellowish spots. The stalks of the diseased plants are often more bare near the ground than those of healthy ones, partly because the affected foliage does not spread out and drop down normally, and partly because the lower leaves sometimes fall off in the last stages of severe attacks. The tubers of affected plants are normal-looking and sound and their keeping or eating qualities are not impaired.

Prevention.—If Mosaic is abundant in a field the surest and quickest way of eliminating it is by obtaining fresh seed from a non-infected district. Such seed can be obtained at the present time from Northern Ontario.

General Suggestions For the Prevention of Seed-borne Potato Diseases.

In order to avoid loss from Leaf Roll and Mosaic, the source of seed is of the utmost importance. Seed potatoes free from these diseases can be obtained from Northern Ontario. Only certified seed, however, can be relied upon. For information concerning certified northern-grown potato seed write Mr. Justus Miller, Assistant Commissioner of Agriculture, Parliament Buildings, Toronto, Canada.

**GIRLS! MOISTEN A
CLOTH AND DRAW
IT THROUGH HAIR**

It becomes beautifully soft, wavy, abundant and glossy at once.

Save your hair! All dandruff goes and hair stops coming out.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knovion's Danderine at any drug store or toilet counter and try it as directed.

Save your hair! Keep it looking charming and beautiful. You will say this was the best money you ever spent.

**ZAM-BUK
MAMA!**

Mothers who have used Zam-Buk say it is so fine for the many little accidents of daily occurrence in the home—and especially where there are children—that they would not be without it. Not only so, but children who have had Zam-Buk applied to an injury or sore, when again injured, cry for Zam-Buk to be applied. They know that Zam-Buk stops pain. Nothing ends the pain of a cut, bruise, burn, or skin disease like Zam-Buk, and nothing soothes, draws out the soreness and heals so quickly.

Mrs. I. Wilson of Sarnia, Ont., says: "I could not do without Zam-Buk for my children. It is the best ointment we have ever used for burns, sores and cuts."

Mr. L. B. Andresen of 1407 E. 22nd St., Minneapolis, Minn., writes: "When any of the children, my wife or self meet with an accident, we immediately apply Zam-Buk. It has saved us many a doctor's bill."

Mrs. C. B. Ritey of Riverport, N.S., writes: "My baby had sores on her face, caused by teething. Zam-Buk completely healed her sores for eczema, ringworm, running sores, blood-poison, ulcers, abscesses, piles, hemorrhoids, etc. All druggists, etc. sell Zam-Buk Co., Toronto. Send 1c stamp for free trial."

**A New, Harmless Way
to Banish Hairy Growths**

(Beauty Topics)
By following this suggestion any woman can in the privacy of her own home, remove every trace of hair or fuzz from her face: With powdered delatone and water mix enough paste to cover the not wanted hairs; apply and in 2 or 3 minutes rub off and wash the skin. The method is unerring, harmless and quick results, but care should be employed to get the genuine delatone.

1. Select for seed smooth, sound tubers, as free as possible from scab, black, hard lumps on the surface, and abnormal discolorations of the skin or flesh.

2. Disinfect all seed before cutting with formalin or corrosive sublimate. The latter substance is the more reliable for the prevention of Rhizoctonia.

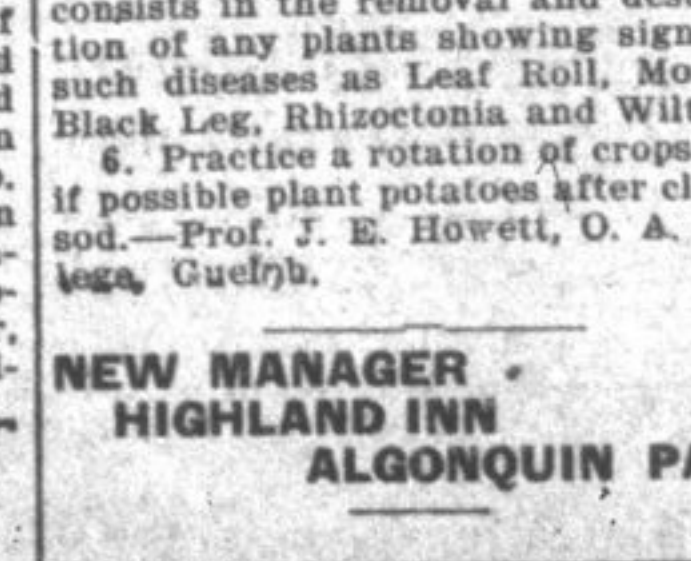

3. When cutting potatoes have at hand two or three knives and a jar containing a 20 per cent. solution of formalin. After cutting into a tuber which shows signs of rot drop the knife into the formalin, discard the diseased potato and take a fresh knife from the formalin solution for the next cutting.

4. Spray every year with Bordeaux mixture for the prevention of Late Blight and Rot. Such spraying is an insurance which it is not safe to neglect.

5. Rotate the growing crop once or twice during the summer, or at least that portion of it from which the seed is to be saved. This operation consists in the removal and destruction of any plants showing signs of such diseases as Leaf Roll, Mosaic, Black Leg, Rhizoctonia and Wilt.

6. Practice a rotation of crops and if possible plant potatoes after clover sod.—Prof. J. E. Howett, O. A. College, Guelph.

**NEW MANAGER
HIGHLAND INN
ALGONQUIN PARK**

N. T. Clarke has been appointed manager of the Highland Inn, the Grand Trunk Railway System hotel in Algonquin Provincial Park of Ontario. Mr. Clarke has been in the accounting department of the Chateau Laurier, at Ottawa, for the past two years, joining the staff of that hotel after being in charge of the outfitting stores at the Highland Inn for a season. As manager of the Highland Inn he will also have jurisdiction over Nominigan Camp, the log cabin hotel enterprises on Smoke Lake, Algonquin Park, owned by the Grand Trunk Railway.

The girl who tries to imitate a man is idiotic, but the imitation is flattering just the same.

WOLFE ISLAND NEWS.

Daylight Saving Plan Likely To Be Inaugurated.

Wolfe Island, April 3.—The Silver Spring cheese factory has started its operation, and is getting a fair supply of milk for so early in the season. The council will meet on Saturday to discuss the daylight saving scheme. It is likely to be put into effect, so as to be in line with Kingston.

Pressed hay is in great demand, the buyers are very anxious for it. The hay is frozen over and there are about six or seven feet of snow piled up on the roads in some places. Richard O'Shea has moved onto Oscar Fawcett's farm. Patrick Griffin has purchased the house and lot lately occupied by Louis Larush. Mrs. Thomas Dee, who has been dangerously ill, is slowly improving.

Born to Mr. and Mrs. George Rogers, a daughter, George Russell, Philadelphia, is visiting relatives here.

Grippe is quite prevalent here. The local doctor is overworked on account of so many cases. Mrs. Payne, who has been very ill is steadily improving.

Mr. Arthur, New York, is here buying hay for the American market. Ernest Crawford, Cleveland, Ohio, is here visiting his relatives. Louis Larush is moving into Mrs. James Coyles' house.

Bob's Lake Items.
Bob's Lake, March 31.—There was a bad snow storm here on the 28th. The black birds are here again. C. Stoness' mines are running again.

A great quantity of wood has been taken to the mines. Hugh Lewis and Russell Badour intend to trap rats at Mud Bay. J. J. Badour is on the sick list yet. Mrs. Lewis is ill yet. Daniel McEwen visited at Mrs. Lewis' last Sunday; Mrs. J. J. Badour made a flying visit to Burridge last week. Last week Walter Woods sold his colt to Daniel McEwen. The sale on March 17th at Daniel McEwen's was well attended.

A big dance was held at night. Miss L. Badour, Miss Nellie May and her sister, Miss Emma Badour, are working at the mines. Last week Daniel McEwen made a flying visit to Kingston. Hugh Lewis bagged a large number of foxes this winter.

Dominion Raynsters

"Made-in-Canada" Raincoats

Are Guaranteed

We say that Dominion Raynsters are absolutely waterproof.

We say that Dominion Raynsters are the best and most carefully made waterproof coats on the market today.

We say that Dominion Raynsters are attractive and stylish, resembling in appearance the better tailor-made spring garments.

And we back up our statements by placing in every Dominion Raynster the guarantee label of the Dominion Rubber System, the largest rubber manufacturing organization in Canada.

The best stores that carry clothing also carry Dominion Raynsters. Ask to see the spring styles; and look for the guarantee label of the Dominion Rubber System.
