Miss Birch's rink won by one point. Two rinks were sent to Toronto to compete for the tankard in the L.O.C.A. and though they played an excellent game, they were defeated by the Granites of Toronto. They won in the second round, bringing home the consolation prize. In addition to this the club played four rounds of points. The aggregate was won by Miss Betts. Mrs. G. B. McKenna made the largest score (30 points) ever made in the club at any one time. Six rounds of doubles were also played, won by Mrs. Birch and Mrs. Asseltine. The club-room has been comfortably refurnished under the supervision of Mrs. D. G. Laidlaw, one of the associate members, who made possible the comfortable furnishings. A bridge and tea was held every Tuesday afternoon and was well attended and enjoyed. At the last meeting of the season, sterling spoons, made by hand, engraved the emblem of the club, were presented from the president, Mrs. Elmer Davis, to the rink champions, Mrs. Walsh, Mrs. Biddy, Mrs. Ashby and Miss Birch. POLICE COMMISSIONERS MET.

Resignation of Constable Graham Was Received and Accepted. The police commissioners met on Thursday afternoon. The matter of preventing restaurants from having closed stalls was discussed and a recommendation made that the city council pass a by-law preventing such places by refusing licenses to restaurants which are not of the "open variety." The matter of having a police alarm system here was taken up. This alarm would make it possible for policemen to be in convenient reach of the station at any hour of the day or night. It would also give better protection by acting in the same capacity as a watchman's clock. The resignation of Constable Graham was accepted. No appointments were made to fill the vacancies on the force as men suitable to the commission are not available. No action was taken on the matter of having a motor patrol wagon.

LABRADOR NATIVES DYING LIKE BEASTS

Influenza Epidemic Cutting Great Swath in Coast Population. Harbor Grace, Nfld., April 11.—Mr. John McRae, of Messrs. R. D. McRae & Sons, received a telegram showing the terrible ravages influenza has made on the Labrador coast amongst the Esquimaux population. If at all possible (and it is not possible by way of Quebec) aid should be sent in the shape of doctors and medicine to save the remainder of these poor natives. The Government should also take measures to prevent our own people going down there in thousands next summer from meeting a like fate. Influenza is expected to revisit Europe and America next year in a more deadly form. Amongst the things found to be safeguards to some extent elsewhere is inoculation with serum. If our Medical Society approve, the Government should procure a supply for our Newfoundland and Labrador population, and have enough doctors, nurses and other means of relief in readiness. No time is to be lost. The telegram read: Battale Harbor, via Fogo, March 21.—"Mr. Jack McRae: Many hundreds Esquimaux dead of Labrador Spanish influenza. Okak nearly cleaned out; Hebron, over 200 dead; Nain, over 100. Number of bodies eaten by dogs, and over 100 bodies buried in one pit. Believed that not over 400 Esquimaux left on coast. Weather mild. No ice in the Frobisher Bay. Wind, south-west.—S. W. Braall."

WAR CAN'T START AGAIN BELIEVES GEN. MAURICE. Allies Control Two-Thirds of the Heavy Artillery of World. Toronto, April 11.—"I don't believe," said Major-General Sir F. B. Maurice, K.C.M.G., C.B., director of military operations on the British general staff from 1915 to 1918, "that the war can break out again, for the reason that the Allies have practically all of the available military stores in their hands. Furthermore, we have absolute control of the heavy artillery, and were serious uprisings or outbreaks to occur which might menace Allied interests, we could send a squadron of bombing aeroplanes. We also have in our possession two-thirds of the heavy artillery of the world. As it stands purely and simply, the other side has no material with which it could make war."
