NOTABLE GROWTHS in CONCRETE Paving Yardages

Experience is the teacher. As time passes, the satisfaction given by concrete is such as to warrant unqualified recommendation of this material. All communities, who have had long experience with concrete to form an opinion of its durability and low up-keep cost, invariably give it the place of honor in all their future road-building programmes.

Writing on August 12th, 1918, Edward N. Hines, Chairman of the Board of County Road Commissioners for Wayne County, Michigan, says that: "Considering the satisfaction given by the many miles of roads in that county four, five, six, seven, eight and nine years old, they can see no reason for changing their opinions or judgment in adopting the concrete road as the standard type of construction. (At the present writing Woodward Avenue Road has been open to traffic for exactly nine years and two months.)

"We still believe," writes Mr. Hines, "and this belief is based on the satisfaction that our concrete roads have given, that you get more value for a dollar in your concrete road than in any other type of road, irrespective of its cost. We have built in round figures 170 miles of concrete road in Wayne County. We expect to continue this building programme until we have 350 miles of concrete road. This will mean about 25% of the mileage of roads in the entire county."

The figures given below indicate the ever-increasing tendency to insist upon concrete wherever concrete has been given a test over a period of years.

American Cyanide.
A 6 per cent. dividend on American Cyanide preferred shares is the first payment since May, 1918, when 3 per cent. was paid, being, as the record says, "in full to December 31st, 1916." As the stock is a 6 per cent. issue, the 1917 and 1918 dividends have been overdue, and the 6 per cent. just declared would pay the stock up to the end of 1917.

Commercial Notes.
An issue of Quebec bonds, totaling \$400,000, has been sold at 101 1/2.

The Monarch Knitting Company had an increase of seventy-five per cent. in its profits this year.

Dominion Textile rose to the highest point in Thursday's Montreal trading since 1910.

Talk of a ten per cent. dividend for Maple Leaf strengthened the common shares.

The Abitibi Power and Paper Company had a twenty-five per cent. increase in earnings last year.

The Canadian General Electric Company had a splendid year, showing a large increase in net profits.

The Maple Leaf Milling Company has declared the regular dividends of 2 and a half per cent. and a bonus of one per cent.

The Granby Consolidated Mining, Smelting and Power Co., Limited, has declared a quarterly dividend of one per cent., payable May 1st, to holders of record April 15th. Heretofore there and a half per cent. has been paid quarterly.

The promoters of the Montreal Portland Cement Co., Limited, incorporated with a capital of \$2,000,000, state that a site on the Island of Montreal has been purchased and building operations on a large and modern plant will be commenced immediately.

It is an easy matter for a girl to fall in love with a shiftless man, but when she has to take in washing to support him—aye, there's the rub.

There is no objection to a man's blowing his own horn, but it's the time he always selects that makes us tired.

The man who is looking for a girl's place without honest labor can usually find it right under his hat.
