## Insurance for Salaried Men

Lloyd George says:

"The willingness to take risks is, in the great merchant or capitalist, a virtue. It is to him what courage is to a soldier, or imagination to a poet. But the willingness to take risks is in the wage earner or the salary earner, a weakness, yes, even a vice. The contrary of the vice of gambling is the virtue of thrift, and the system of life insurance has given the thrifty man his opportunity."

Life insurance is a supreme benefit to the capitalist, the manufacturer, and the man of fixed income; but it is absolutely essential to the salaried man. It is the only means that can be employed by which most salaried men can hope to leave an estate.

Many alluring investments tempt us to "get rich quick," but life insurance—especially Mutual Endowment Insurance, which combines savings, investments and protection—is sure and safe.

## The Man on Watch

The Lampman supposes that among "the marginal folk" would be included those who spend the Sabbath repairing their automobiles.

Auto drivers passing churches on the Sabbath during service hours should know enough not to sound their horns. Let them drive slowly and reverently past the places of worship and they will not require to sound blasts.

Frontenac may not want daylight saving, but there is one thing it will never refuse, and that is its toddy.

Will Robert J. Bushell kindly offer a prize at his exhibition next autumn for the best Frontenac county still-made whiskey?

If everybody served Kingston as faithfully and well as Inspector Nicholas Timmerman, who is retiring, there would be no necessity of calling upon the people to wake up.

Kingston's Board of Trade representatives to the big meeting in Toronto apparently felt that they were "all dressed up" but with nothing to ask for.

It is alleged that a young lady asked His Worship the Mayor to have the road in front of her house scraped and cleaned, as she was having a "party." The Mayor will have to wear bells to attend to all requests made of him by the ladies.

The farmers kick about the corporations running things, and as a remedy they decide that it is the farmers who should be the bosses. Now did you ever!

Perhaps the Portsmouth man who refused to turn his clock ahead an hour to conform to daylight saving does not need to. His timepiece may be running fast anyway.

Sunday should not be allowed to become a day of restriction as is argued. It certainly is not allowed to do that by many people, who have a high old time on the Sabbath day.

The G. W. V. A. is tired of being on the fence and would become partisan. The soldiers took a decided stand on a world political question, and why should they not on smaller matters of politics?

—THE TOWN WATCHMAN.

Three-year Term for Constable, Niagara Falls, April 12.—Freeman C. Evans, special constable for the Grand Trunk here for the past two years, was sentenced to three years in the penitentiary on a charge of pilfering cars. It was his duty to see that they were not pilfered by other thieves. A cache of about \$1,500 worth of goods stolen by Evans was found hidden in the railway, cattle sheds.

If the average man could live his life over he would probably be a bigger fool than ever.

TO FEED RUSSIA IF FIGHTING STOPS  
Allies Appoint Commission to Investigate This Possibility.  
London, April 12.—Herbert Hoover, Director-General of the inter-allied relief organization, has requested Dr. Fridtjof Nansen, head of the Norwegian Food Mission to the United States, to become chief of an international neutral commission to investigate the possibility of feeding Russia on condition of its cessation of hostilities in Russia, according to a despatch to the Exchange Telegraph from Copenhagen.

The despatch says that £10,000,000 monthly will be required for the carrying out of the problem.

Doesn't hurt a bit to lift any corn right off with fingers

Drop a little Freestone on an aching corn. Instantly the corn stops hurting, then you lift it right out. It doesn't pain one bit. Yes, magic!

Why wait? Your druggist sells a tiny bottle of Freestone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and callouses, without soreness or irritation. Freestone is the much talked of other discovery of a Cincinnati genius.

THE LATE MRS. BOTTERELL  
She Will Be Greatly Missed and Deeply Mourned

The announcement of the death of Mrs. R. E. Botterell, of Montreal, will bring sorrow to a wide circle of friends. Mrs. Botterell (before her marriage, Miss Ethel Macnee of Kingston), had recently been spending two weeks with her sister at Atlantic City, to recuperate after an attack of influenza, and returned to her home at 10 Belvedere Road, Westmount, on Sunday apparently in her usual health, but was carried off by a sudden internal hemorrhage on Monday morning.

Mrs. Botterell took an active part in many local charities and patriotic work and will be greatly missed and deeply mourned by friends in all classes of the community. She was one who was always ready with help and sympathy to all in trouble. Many beautiful floral offerings were sent as a last tribute; amongst them were wreaths from the following Montreal societies: The Montreal Patriotic Committee, the Women's Auxiliary of the Church of the Advent, the Committee of the Labrador Mission and the St. George's Club Red Cross Circle. Wreaths were also sent from the Kingston Charity Circle of King's Daughters, and from many personal friends in Victoria, Winnipeg, Hamilton, Kingston and Montreal. Amongst the relatives left to mourn her loss are her three brothers, Walter, James and Francis Macnee, and two sisters, Mrs. James Cappon and Miss Alice H. Macnee.

## HAD SEVERE COLD AND TICKLING SENSATION IN THE THROAT

This trouble is most distressing, and is caused from a cold that has settled in the throat.

How many people have lost a good night's sleep by that nasty, tickling, irritating sensation in the throat? The dry, hard cough keeps you awake, and when you get up in the morning you feel as if you had had no rest at all.

Dr. Wood's Norway Pine Syrup, which is composed of the most soothing and healing expectorant herbs and barks, combined with the lung healing virtues of the world-famous Norway pine tree, will give almost instant relief in all cases of this nature.

Mrs. G. C. Routley, Bright, Ont., writes:—"I take great pleasure in writing you of Dr. Wood's Norway Pine Syrup.

For several weeks I was troubled with a severe cold, and a tickling in the throat. I tried numerous remedies, but found no relief until I used Dr. Wood's Norway Pine Syrup, which I had heard so much about, and on taking one bottle got instant relief. I highly recommend it to those who need a quick cure."

So great has been the success of "Dr. Wood's" in curing coughs, colds, bronchitis, etc., it is only natural that many imitations have been placed on the market. The genuine is put up in a yellow wrapper; three pine trees the trade mark; price 25c and 50c. Manufactured only by the T. Milburn Co., Limited, Toronto.

THE LATE F. W. WOOLWORTH.  
He Was Married to a Lady From Pictou.

New York, April 11.—Frank W. Woolworth, who started a five and ten cent store at Utica, forty years ago on a capital of \$50, and eventually became the millionaire proprietor of a great chain of these stores in the United States, Canada and England, died at his home at Glen Cove, L.I. In addition to establishing a business with profits said to be nearly \$8,000,000 yearly, he built the celebrated 54 story Woolworth building in Lower New York, the tallest building in the world.

Born in Rodman.

He was born on a farm at Rodman, Jefferson county, on April 12, 1852. Until he was 21 years old he worked on his father's farm, obtaining a meager education in the district school and later at a business college. His first position was an errand boy in a drygoods store, and when he got to be a clerk, he got married on \$50 per week. He worked six years in the drygoods business in various stores before a successful bargain counter sale gave him the idea of the possibilities of making substantial profits from nickle and dime purchases.

His idea, when broached to his employers, was termed visionary and he was advised to stick to the "old fashioned" plan of conducting a store. Nevertheless he was determined to test his plan and his first venture was at Utica, in 1879. He had but \$50 in cash and gave his personal note for the goods. In a year he had paid off his debt and saved some money. Closing out his store, he located at Lancaster, Pa., and established not only a store, but the foundation of his fortune.

Business Romance.

His rapid rise from a small "pigeon hole" store to the palatial Woolworth building in this city—with more than 800 branch stores in the United States, more than 80 in Canada and England—forms one of the greatest business romances of the history of the world. The business was incorporated seven years ago for \$5,000,000.

In addition to being president of the firm of F. W. Woolworth & Company, he was the director of a number of banks and business enterprises here. He maintained a residence in Fifth avenue noted for its rare paintings, and a country home at Glen Cove.

Mr. Woolworth was married June 11th, 1876, to Miss Jennie Creighton, Pictou, Ont., and they resided in Watertown until Mr. Woolworth removed from the city.

## The Outstanding Product of a Large Manufacturing House

FOUR large factories and five distributing warehouses stand back of Brandram's Genuine B.B. White Lead.

Every step in its manufacture is closely watched by chemical engineers—nothing is left undone which would help to maintain the quality of the world's finest white lead.

## Brandram's Genuine B.B. White Lead

is different from any other white lead. To begin with, it is corroded by several secret processes which are then merged into a pigment of marvellous smoothness. This pigment is ground no less than five times, first under huge stones, and finally between heavy steel rolls. In this grinding process, it is made into a pulp by being mixed with pure refined linseed oil made in our own linseed mills.

Whenever you paint, use Brandram's Genuine B.B. White Lead if you mix your own paint. If you want to save the labor of mixing you can ensure the use of this quality pigment only by getting B-H "English" Paint.
