**A MOST GIGANTIC LUMBER ENTERPRISE**

**Operation of New Company Will Be Conducted on Colossal Scale.**

Victoria, B.C., April 25.—What is undoubtedly the most gigantic lumber enterprise ever conceived, and a scheme that is fraught with tremendous possibilities in the development of the British Columbia lumber industry, is about to be launched by a syndicate headed by Percy Furber, president of the Mexican Oil Field Co., New York, and John Arbuthnot, financier, well known in this city. This syndicate will be known as the Further Lumber Company, and the operations of the syndicate will be conducted on a colossal and world-wide scale.

Orders have already been placed with the syndicate by British interests to deliver 30,000,000 feet of lumber, which, in the event of a satisfactory agreement being reached on purchase price with the sawmills and lumber manufacturers, will be supplied by British Columbia mills.

Saskatchewan Great War Veterans passed a resolution condemning the Red Triangle campaign for \$1,100,000. It defeated a move to introduce political action.

**CHURCH NOTICES**

Services in chapel daily at 10 a.m., except Tuesday. Holy communion 8 a.m., Tuesday, 10 a.m., Thursday.

**RHEUMATISM CAN BE CURED**

The Trouble Is Rooted in the Blood and Can Only Be Cured Through the Blood.

In the days of our grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of the like crippled. Now, medical science understands that rheumatism is a disease of the blood and that with good, rich, red blood any man or woman of any age can defy the trouble. Rheumatism can be cured by killing the poison in the blood which causes it. For this purpose the blood making, blood purifying, qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. In proof of Dr. Williams' Pink Pills to cure this trouble, Miss Jennie Stockdale, Hall's Bridge, Ontario, says: "Two winters ago I was taken with a bad attack of rheumatism, and was in bed for over two months, most of which time I could not sleep or enjoy rest day or night. The trouble also affected my nerves, which was very annoying. I tried several remedies but did not get any help from them, and then, acting on the advice of a friend, I decided to try Dr. Williams' Pink Pills. I soon felt that the pills were helping me, and after taking eight boxes I am glad to say I was able to go about again as usual, and am now enjoying the best of health with plenty of good, rich blood which makes me feel like an altogether different person. I earnestly advise those suffering from rheumatism, nervousness and kindred troubles not to delay using Dr. Williams' Pink Pills as they myself, I am sure they will find a cure through their use."

You can get Dr. Williams' Pink Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The steamship Corsican arrived at St. John, N.B., Friday with 1,349 passengers, including twenty-nine officers, four nursing sisters and 351 of other ranks in the military party. There were also 482 dependents, including 159 children.

Tucket's common, National Car preferred, and Maple Leaf common made notable advances on the Toronto Stock Exchange.

**The Man on Watch**

They may be "higher critics" over a Queen's Theological College, but they refuse to stand for this Oujia board spiritualistic stunt.

This has been a great week for Kingston's animals which have not yet got used to not have to dodge kicks or missiles. Now let us have a "kind to each other" week.

It is hard to convince Kingston people that smuggling is a breach of the eighth commandment. You certainly can convince the free trader of it, anyway.

Now that Queen's university has raised another endowment fund of nearly a million dollars, perhaps it will be able to afford to consign to its museum the old and worn-out wooden walks on the university grounds and replace them with something safer and more artistic.

The Lampman prefers that the mayor should tell about Kingston's future instead of its historical past to visiting organizations and at banquets. He would of course except the historical society which revels in that kind of thing. We are not responsible for the city's past and the grave mistakes of some of its leading inhabitants, but we can all help to make its future.

The provincial nurses' association would like to come back to Kingston if they could again be entertained by George Smith's motor club boys, who could not do too much for the visiting nurses on Thursday.

The latest wrinkle of retiring nursing sisters is to send them to the Cobourg military hospital, where few, outside of insane asylum trained nurses, can stand the "shock" conditions prevailing. It is a case of the "survival of the fittest."

Loud cheering is sometimes about of the same value as "the loud laugh" that shows the empty mind." So Kingston's lack of noise as veterans march through the streets in of little moment so long as the people honor and reward the men who fought for them in a more tangible way than by shouting when they come home.

Pedestrians do not respond with alacrity to the call of policemen for help in hauling in drunks. In Germany, not long ago, one would have been arrested for failing to come to the aid of a Hun "bobby" when called upon.

If Kingston will not appoint more policemen it might at least buy a patrol machine so that the police could load the drunks into it. There is no reason why the police department should not be supplied with some kind of an auto truck for their work. If the department had owned one it might have been saved a valuable official, for some time at least.

Some judge might quash Kingston's daylight saving by-law or make an order to that effect, but there would be nothing to quash, for the city solicitor drew the by-law in such a way that it is really no by-law at all. In these days of authority on which to base it. However, it does not matter whether the by-law stands or not. The people are using daylight saving and intend to continue using that time system.

**For You and Your Friends**

"I beg you to publish my letter."

It is only natural that people write us enthusiastic letters about Gin Pills. Wouldn't you do the same, if, after suffering from backache for years, you found relief? Wouldn't you wish your friends and others to know what Gin Pills had done for you, and what they will do for them? Of course, you would, and that is the only reason that prompts people to write us praising this great remedy.

Read what Isidore Thomas says in part:

"My case was very serious, and I was so sick everybody expected my death any day. No medicine could be worse than what I had to endure. Eight boxes of Gin Pills were sufficient to cure me entirely. I beg you to publish my letter and tell all sufferers of Kidney Trouble and others to despair no more, wait, as Gin Pills will cure them. I have to be very thankful to you, and I recommend Gin Pills to all my friends suffering from kidney trouble."

Take the advice of those who have tried most remedies and found that Gin Pills are not a cure-all—but a scientific remedy for Kidney or Bladder Troubles. They contain the beneficial ingredient of gin, without the alcohol, and gin has been recognized for years as the most perfect agent for toning up the kidneys and restoring these organs to perform their natural functions.

**Paint as a Matter of PRIDE**

You owe it to your own community to keep your home in perfect condition. Paint is a preservative.

Which House Dominates Your Block?

SOMEWHERE in "Every community" is a house which always smiles at you. It is always a little more cheerful looking than the others, brighter, better kept, and—well painted.

Inside that house lives a good citizen and a good neighbor. His house is so inviting that it is like a hand stretched out to you. You are bound to feel glad that its owner lives near you.

**B-H ENGLISH 70% Pure White Lead**  
(Equivalent to 80% Pure White Lead)  
100% Pure Paint

SOMEWHERE else in "Every community" stands another house. Its owner has become discouraged. He has quit trying. He has lost his ambition and gradually has accepted his fate as a down-and-outer.

You know that this is so, because his house says so. It is dingy, beginning to crack and sag, and is unpainted.

Its owner is not a good citizen. He has not done his share. His house stands out like a "sore thumb." It robs a whole neighborhood of legitimate real estate value. Buyers of new houses avoid its neighborhood.

**SOLDIER LABOR BUREAU.**

Continues to Do Good Work—More Applications Placed.

The report of the Kingston Office of the Information and Service Branch of the Department of Soldiers' Civil Re-establishment shows that there has been no letting up in the good work being done by the repatriation labor bureau. During the last week twenty-three applications for employment were received in Kingston, and thirteen applications were left over from the previous week. Every one of the applicants were placed in suitable positions during the week. In Belleville matters were easier, only six new applications being received. Eight men were placed in employment, two of them having applied during the previous week. Peterboro and Lindsay did not do quite so well. In the former city there were thirty-five applications for employment, and nineteen men were placed. In Lindsay there were twenty applicants, of whom five were placed. The total for the district are 126 applications, with 72 men placed in positions. This shows that a percentage of 57.7 of the men applying for positions were found suitable employment. The office is doing splendid work locally, and is doing much to prevent any large amount of unemployment. There is a great scarcity of men willing to work on farms, and many vacancies exist for such. There has been a rush of applicants for positions on the Royal North-west Mounted Police, as a result of an item which appeared in the Whig recently.

More Money, Not So Much Goods. A merchant says that in the same quantity of goods were sold now as in 1913 and 1914 the volume of trade at present would be much greater. As much or more money to be spent now, but owing to the higher values of commodities the cash turnover has grown while the quantity of goods that is changing hands has greatly decreased.

King George is giving his patronage to the appeal the Daily Telegraph is making for a fund to restore Sulgrave Manor, the old English home of the Westmorland family. He heads the list of subscriptions with a cheque for \$500.
