CHURCH FREE OF DEBT

Burning of Mortgage by Brockville Congregation

Brockville, April 28.—Free of debt after 44 years, the parish of Trinity Anglican Church Friday celebrated the event by destroying the mortgage on the edifice with an appropriate ceremony...

Trinity parish was formed in 1875 and the first rector was Rev. E. P. Crawford, at the time of his death dean of the diocese of Nova Scotia.

Rt. Rev. Dr. Harding, present Bishop of Qu'Appelle, and Most Rev. G. L. Worrell, Archbishop of Nova Scotia, were early in their careers, curates of Trinity. Rev. G. L. Starr, dean of the diocese of Ontario, is a former member of the church.

Wm. S. Turnbull, postmaster at Galt for the past twenty years, died following a stroke of paralysis.

WILL TAKE SEVENTY YEARS

TO MAKE UP LOSSES IN FRANCE DURING THE WAR.

Great Britain Will Make Good Her Deficit in Ten Years, Italy in Thirty-eight Years, and Germany in Twelve.

Paris, April 29.—With the return of peace, France has to face problems of great danger to her immediate future. Foremost among these is the question of repopulation. How shall France make good her losses by war and sickness when the birth rate continues to drop every week that goes by?

A French statistician has reckoned that at the present rate it will take seventy years to make up her losses during the war. From Aug. 2, 1914, to Jan. 1, 1918, the deaths in seventy-seven departments not invaded by the enemy totalled 883,150. In 1918 there were 300,000 deaths, while it is reckoned that 1919, if the present sanitary arrangements are not improved, will see the passing away of another 250,000 men and women.

Cruel treatment inflicted by Germans in the invaded districts is said to have been the cause of 130,000 deaths, and if one adds to this the already heavy list of 1,335,000 soldiers killed in battle the total deaths is very close to 3,000,000. If the French birth rate continues as it was in the ten years from 1900 to 1910, France, forty years hence, will have become a secondary power. According to the statistics published in other countries, Great Britain will make good her deficit of 800,000 deaths in the war in ten years; Germany will replace her 1,500,000 killed in twelve years, and Italy her 800,000 in thirty-eight years.

Woman Shoots Husband. Chicago, April 28.—A divorce case in Judge Brothers' court came to a dramatic close Friday afternoon when Mrs. Elmer P. Simpson shot her husband through the mouth, inflicting a probable fatal wound. Simpson was testifying quietly. Suddenly his wife leaped to her feet. "That's a lie," she cried, and fired. Simpson crumpled up in the chair, blood oozing from his mouth. Mrs. Simpson was arrested and court adjourned.

Successfully Operated Upon. Calabogie, April 28.—Patrick Maloney, who has been a sufferer for several weeks past from an inward trouble, was on Monday last removed to Kingston Hospital. There he underwent an operation. Dr. J. O'Reilly went out with the patient and assisted at the operation. He returned Tuesday and reports Mr. Maloney as well as could be expected.

ONLY ONE OF 126 WENT TO WARRIOR.

London, April 28.—It is expected that the British honors list, delayed since the New Year, will be published in the course of the next few days.

Since December, 1916, there have been created 59 new peers or promotions in peerage, and 76 new baronets. Out of these 126 hereditary honors, all except one, have been granted to politicians, diplomats, and other civilians, the single exception being the viscountcy given to Jellicoe.

CANADIAN MUSEUM IN TOWN OF YPRES

Belgian Government Has Offered Site for Its Erection.

Paris, April 29.—The Belgian Government has offered Canada a site in the town of Ypres for a museum to contain souvenirs of the battles fought on the famous salient. A Canadian staff officer thus describes the scope of this memorial:

"Canadian visitors will come to Ypres in thousands for years. They will come to see the graves of their dead, and we have thought that it would be a good plan that they should have a meeting place where they can find all the documents explaining the tactics of the combats fought on the salient. There will be, therefore, a museum, a library, models of the trenches, etc. The monument will be surrounded by a garden, planted with Canadian flowers and trees only." Baron de Vleesch has already offered to the committee of organization a painting showing the chateau of Hoogo as it was before the war.

DETROIT PLANS TO HOLD WORLD FAIR

Peace Exposition is Announced by Mayor Couzens for 1922 or 1923.

Detroit, Mich., April 29.—Establishment of a world peace exposition in Detroit that will eclipse all world fairs ever held in this country is planned. Announcement of the project has been made by Mayor Couzens. The organization of the exposition will be under the direction of Charles M. Schwab. Two or three years will be required to put the exposition in shape, thus setting the date at 1922 or 1923. Millions of dollars will be required.

Frank J. Skiff, director of the Field Museum at Chicago, will draw plans for the exposition. Mr. Skiff was manager of the Chicago, Buffalo, St. Louis and San Francisco fairs. Mr. Charles M. Schwab has consented to come here, it is understood, and take the organization of the exposition in hand. His record during the war in whipping the United States Government's shipbuilding programme in shape is considered a guarantee of success.

As Old as his Arteries

The doctor can't help it. He knows that the man has hard arteries, high blood pressure, and beginning kidney and heart disease, due to long neglected chronic constipation.

It isn't the other man's fault—directly. He's only 45—but he never realized that his constipation was a serious thing. He never knew how to treat it. He has taken bushels of pills, gallons of castor oil, mineral waters and salts, which have battered and tortured his alimentary canal from one end to the other; and he wonders why his health keeps getting worse. He doesn't know that his food waste has poisoned him, and has bred disease that is going to "get him" before his time.

Nujol is for just such a man—for every person whose bowels do not move easily and thoroughly at regular intervals—especially for those in advancing years whose body machinery will not stand rough treatment.

Nujol softens the accumulated food waste in the large intestine, and moves it gently out of the system, carrying those poisons with it, which, if allowed to remain, cause over 90% of human illness. Nujol supplies the lubrication that Nature can't supply as age begins to make itself felt.

This man might have known in time—but Nujol is new—the accepted-modern treatment for constipation.

You can avoid such a misfortune as his. Get a bottle of Nujol from your druggist today and send for free booklet "Thirty Feet of Danger" expressing clearly the soundest medical authority on constipation and self-poisoning.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. At all druggists. Insist on Nujol. You may suffer from substitutes.
