

WILSON ISSUES NEW STATEMENT

Telling Why Italy Cannot Receive the Territory She Wants.

PERSONALLY IS IN FAVOR

BUT SAYS PACT OF LONDON CANNOT LONGER APPLY.

Orlando's Government Was Given a Unanimous Vote of Confidence by the Italian Senate.

(Canadian Press Despatch) Paris, April 30.—A statement was issued by President Wilson dealing with the memorandum sent by him to the Italian delegation on April 14th. He says: "I felt bound to square every conclusion that I should reach as accurately as possible with the fourteen principles of peace which I set forth in my address of the United States on the 8th of January, 1918, and in subsequent addresses.

"Personally, I am quite willing that Italy should be accorded along the whole front of her northern frontier, and wherever she comes into contact with Austrian territory that was accorded her in the so-called Pact of London, but I am of the clear opinion that the Pact of London can no longer apply to the settlement of her eastern boundaries."

Italian Senate, Unanimous.
(Canadian Press Despatch) Rome, April 30.—Premier Orlando's Government was given a unanimous vote of confidence in the Italian senate following the vote of confidence given him in the house of deputies. A great demonstration followed the premier's address before the senate. The vote of confidence in the chamber of deputies was 332 to 40. Ballots opposing the resolution were cast by the intransigent socialists.

The Council of Three.
(Canadian Press Despatch) Paris, April 30.—The council of three met to-day half an hour earlier than usual. While no programme was announced, it was believed an Italian situation had developed by the parliamentary action of the Italian delegations. The position was considered and discussion over Kiao-Chau resumed. It was understood that the Japanese would be called in during the afternoon for further consideration of a suggested compromise regarding Kiao-Chau.

ASSIST THE RETURNED MEN QUEEN'S WANTS TO SAVE THEM A YEAR IN THEIR COURSE.

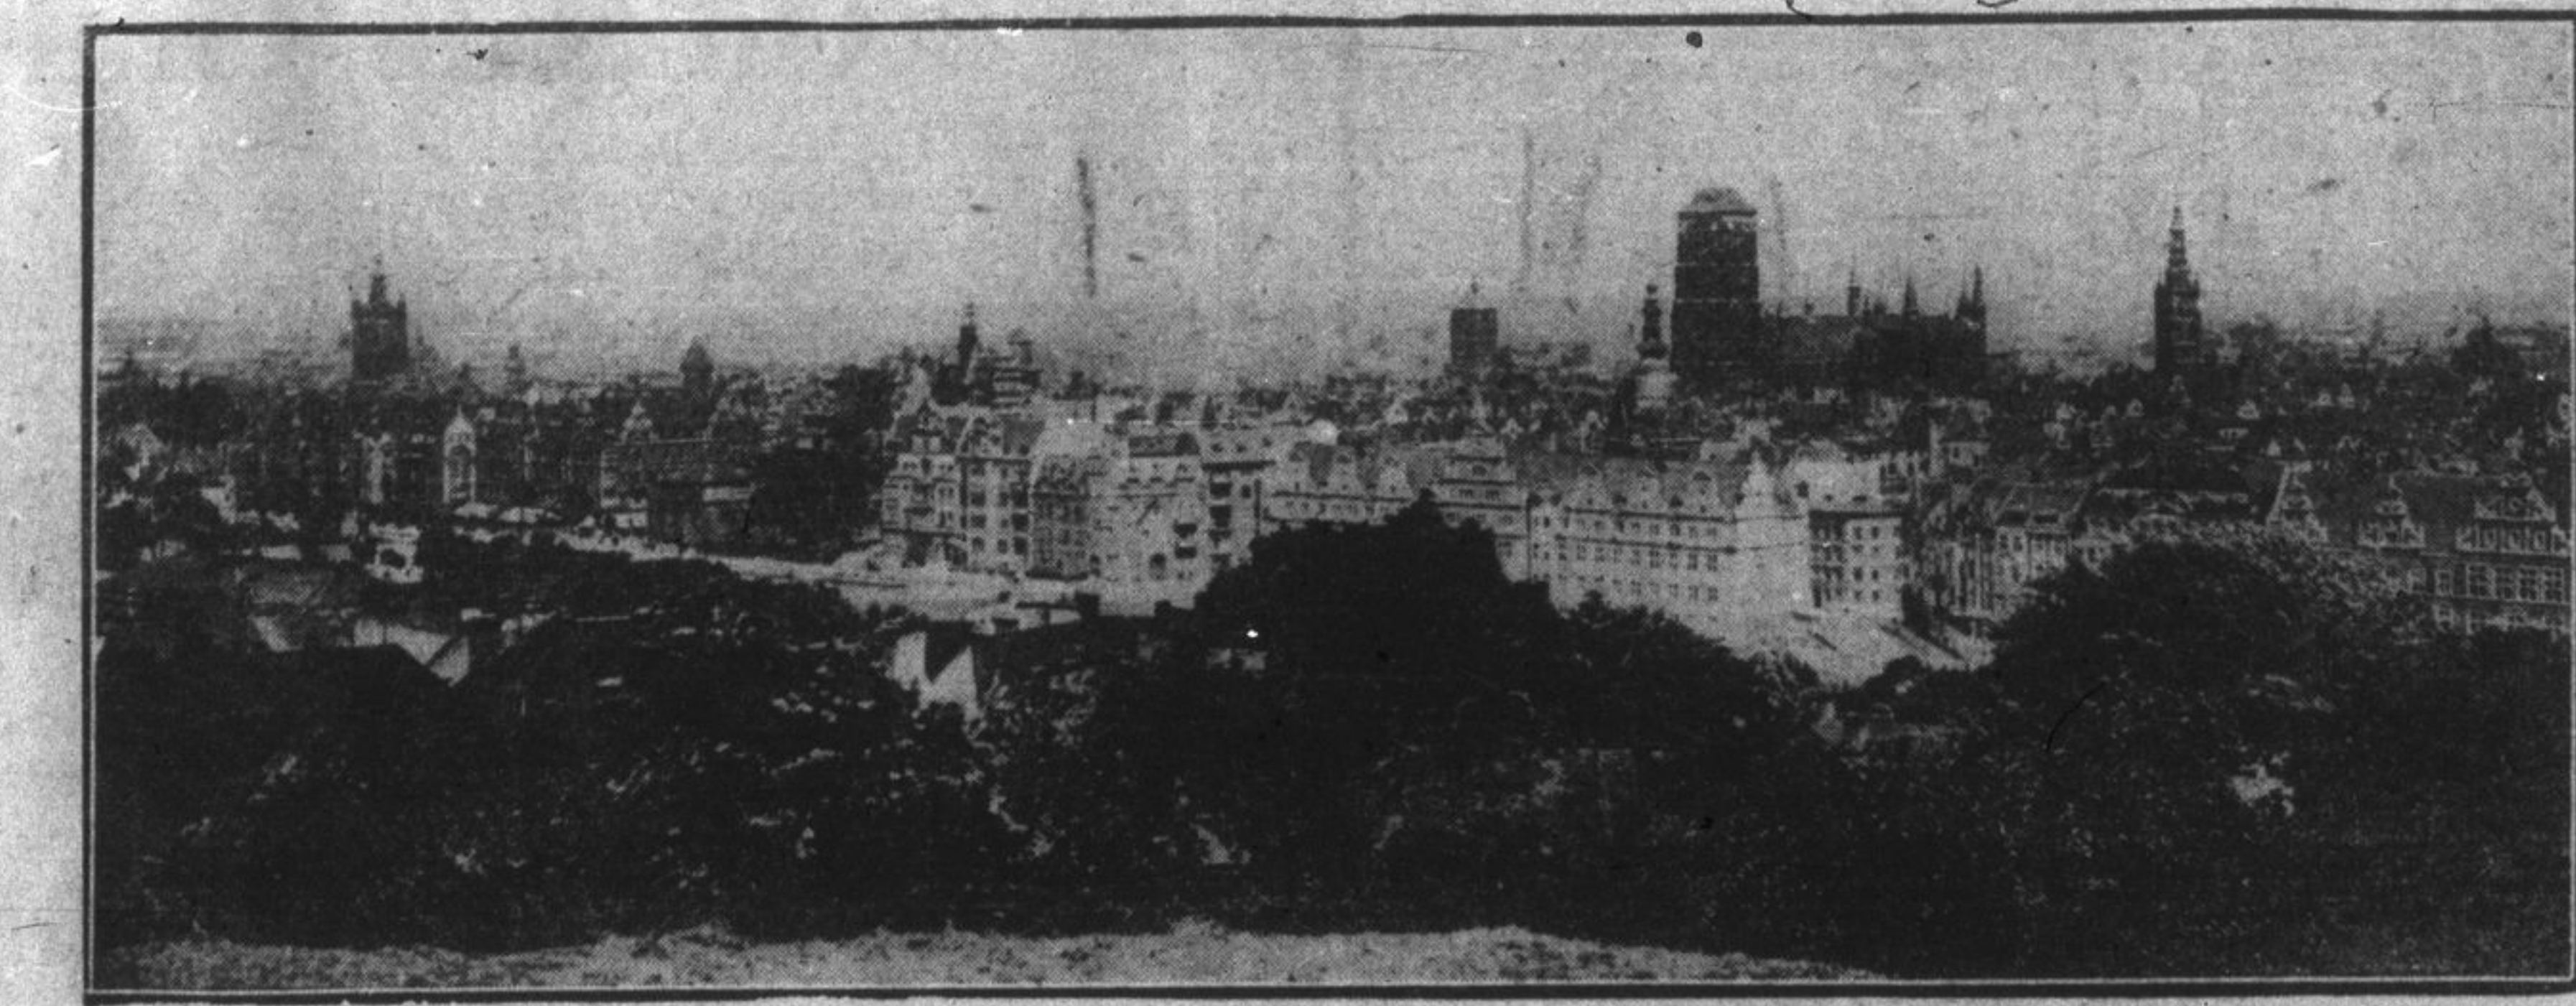

By Providing a Summer Course and Appeals to Government for Financial Assistance.—D. M. McIntyre and Alexander Longwell Re-elected Trustees.

A meeting of the council of Queen's University was held on Tuesday afternoon, at which the principal, Dr. Bruce Taylor presided.

D. M. McIntyre and Alexander Longwell, of Toronto, were re-elected trustees, their term having expired. Their names were the only ones placed in nomination.

Principal Taylor told the council about the work which is being carried on at the university for the returned men and of the efforts which are being made to get the government to provide for the expense in carrying on a summer session for the returned men, with the idea of saving a year in their course. Saving to secure this government support, it is the intention of the university to undertake the work with an anticipated deficit in the neighborhood of from \$10,000 to \$15,000.

Principal Taylor also explained the position the university was in as regards the proposed endowment fund. Two weeks yet remained, and in that time about \$12,000 had to be raised, to complete the endowment fund. This amount must be raised to secure the balance promised through the Dr. Douglas estate and the money from the Carnegie foundation, in all about \$675,000 to complete the mil-

ALLIES TO PROCEED WITHOUT ITALIANS

A Formula For Solution of Problem of Kiao-Chau is Reported.

Paris, April 30.—It is planned in the conference circle to go ahead with the treaty of peace without regard to any action by Italy, as it is considered probable that the Italian delegation will not return, certainly not within the present week. The delivery of the treaty and the first exchange with the Germans, therefore, will occur without the participation of Italy, and it is said that this procedure will go forward steadily up till the signing of the treaty.

The first reading with the Germans will probably occur Friday afternoon or Saturday, when the pact will be presented. The French view is that the Germans may ask for two weeks' delay to permit them to return to Weimar, with an additional week for discussing the points presented after their return from the temporary German capital.

A formula for the solution of the problem of Kiao-Chau, which it is hoped will remove any possibility of a definite break and prove mutually acceptable to the Chinese and Japanese, has been reported, but has as yet not been disclosed.

CONSCRIPTION OF UNDERWEAR

Sets Stippled According to Income of Male Population.

Vladivostok, April 30.—The Russian Siberian army needs underwear and the powers that be have devised a unique plan for providing this wearing apparel. In brief, the solution is conscription of underwear.

The male population of the city is ordered to provide the clothing on the following scale: Those enjoying a salary of 600 to 1,000 roubles a month must supply 1 set. Those who earn from 1,000 to 1,500 roubles a month are asked for two sets. From 1,500 to 2,000 roubles, the tax is 3 sets and from 2,000 roubles upwards 4 sets. Owners of real estate and commercial and industrial firms have to furnish underwear on the same scale, according to the income of their business. A set of underwear consisting of one shirt, one pair of pants, one pair of socks and two pairs of foot-rags.

Caused a Stir.
S. W. Jacobs, of Cartier division, Montreal, caused a stir in the House by his suggestion that the proposal to exclude aliens of enemy nationality was undemocratic and might be contrary to the canons of international law. The alien enemy of today, he said, might be the friendly alien of to-morrow and the friendly alien of today might be the alien enemy of to-morrow. He was also opposed to the proposal to exclude persons unable to read, saying that would only serve to keep out poor people.

"I think the limit is reached when a member gets up in his place in this House and makes a plea for the admission of alien enemies," declared Donald Sutherland, of North Oxford, indignantly. "I think that should be the unpardonable sin."

Such a plea, he said, would not comment itself to the returned soldiers or their families. He objected to any movement to restrict desirable immigration from the British Isles. Hume Cronyn, of London, favored a definite declaration as to race immigration from which Canada profited to prohibit.

The bill was read a second time and considered for a time in committee; after which estimates of the Department of Militia were taken up in committee of supply.

Winipeg City Council voted against daylight saving by 8 to 5.

LITTLE TOTS SENT IN CALL

GAVE FIREMEN FALSE ALARM TUESDAY AFTERNOON.

"Jimmy Made Her Go," Said Little Girl Who Was Standing Near Fire Alarm Box With Her Companion—Youngsters Given a Reprimand.

The firemen were given a call from box 76, at the corner of Johnson and Victoria streets about 4.30 o'clock on Tuesday afternoon, only to find that they had been called out for the amusement of a couple of youngsters, one aged six and the other seven.

Firemen Hugh Polley, who lives close by, was the first member to get to the scene, and as he reached the box he noticed the two children. "Did you pull that box?" asked the fireman of the two little tots.

"Jimmy made her go," said the girl in great glee.

"Jimmy" did not like the idea of being named in this way, however, and he was about to take to his heels, but Fireman Polley invited him to remain till the other members of the department arrived.

The father of the children also appeared on the scene in a minute or so, and after the hose wagons come up, the youngsters were given a severe reprimand, and it is not likely that they will give the firemen a run again, at least not for some time at least.

It is believed that the girl boosted the boy up the post and held him there while he opened the fire alarm box and pulled off the "trick."

A chimney fire, at the home of David Vick, corner of Barrie and Brock streets, gave the firemen a run at 7.25 o'clock on Tuesday evening.

HUN DELEGATES AT VERSAILLES

The Enemy Party Includes Fourteen Women Stenographers.

TO RECEIVE TREATY FRIDAY

AS FORMALITIES WILL OCCUPY WEDNESDAY AND THURSDAY.

Enemy Prisoners to be Released in the Proportion That Germany Furnishes Civilian Labor Demanded in Peace Treaty.

Versailles, April 30.—The German delegates will receive the peace treaty Friday, according to the programme outlined.

Foreign Minister Brockdorff Rantzau and the other principals of the enemy delegation arrived last night. Verification of the Germans' credentials together with other preliminary formalities are expected to occupy Wednesday and Thursday.

Posters have been put up all over Versailles asking the public to maintain its usual calm demeanor while the Germans are here. The streets leading to the hotels where the Germans are quartered are not barred, but "move-on" notices have been posted in conspicuous places.

The question of German war prisoners, which is expected to be the first one brought up by the enemy delegates, is understood to have already been settled by the foreign ministers' council—the last transaction by that body before the Italians withdrew. Enemy prisoners, it is said, will be released in the exact proportion that Germany furnishes civilian labor demanded in the peace treaty.

The Arrival.

The enemy representatives arrived in Versailles on a special train. They were met by Col. Henry French liaison officer, and his staff. The party, which included fourteen women stenographers, most of whom carried hat boxes, huddled in a group, ill at ease under a barrage of flashlight beams. Curious villagers clustered about them.

Herr Von Keller, a member of the German delegation, who had preceded them, shook hands with the leaders of the party. Colonel Henry then announced the motor-cars were ready. The Germans, passing between two lines of gen-darmes, boarded the forty motor-buses and automobiles which brought them to Versailles. Their baggage was carried in camions. Upon their arrival here they were taken at once to the Hotel des Reservoirs.

The first session of the peace congress will be held in the room now used by the supreme war council and will be devoted to the verification of credentials. The text of the peace treaty will be presented to the Germans at the second session in the dining room of the hotel Trianon.

A German Submarine Coming.

Halifax, N.S., April 30.—Within the next week Halifax will likely have in its harbor a German submarine, which will call here en route to the great lakes from an American Atlantic port. It will be one of the U-boats which were recently brought across the Atlantic to assist in the American Victory Loan campaign. The U-boat will be escorted here by the United States cruiser Bachel.

Fifty Cents For Hair Cut.

Quebec, April 30.—A minimum charge of fifty cents for haircutting, and uniform closing hour of seven o'clock, that all barbers should be licensed by law, and that a general organizer for Canada be appointed, were the chief resolutions passed at the annual convention of the Journeymen Barbers' Federation of Ontario held here.

BORDEN SHONE AS A MEDIATOR

His Chief Activities Were Devoted to, an Endeavor of Reconciliation.

PREMIER GAINED HIS GOAL

SECURED THE ACCEPTANCE OF NEW DRAFT

Which He Moved at the Monday Meeting of the Peace Conference at Paris.

Paris, April 30.—The new draft of the covenant is generally regarded as a great improvement upon that which was first presented. It is believed that the Canadian delegates pressed strongly for certain amendments, some of which are embodied in the new draft, while others were not accepted. The Canadian representatives urged their views with vigor both before the commission and at meetings of the British delegation. Their belief, however, is that the one great advantage to accrue from the constitution of the league is that it will bring to the world first-hand discussions of world affairs. Through this understanding-ground will and co-operation in maintaining world peace will naturally follow.

Sir Robert Borden's chief activities have been devoted recently to an endeavor at reconciliation on the conflicting viewpoint respecting the form of the nine articles to be inserted in the peace treaty relative to labor conditions. There has been a danger that the strong divergence of opinion on this subject would lead to the withdrawal of some members of the league, as the labor convention is closely linked in every way to the League of Nations covenant. Sir Robert was eventually successful in securing the acceptance of a new draft which he moved at Monday's meeting. He was supported by Mr. Barnes, of Great Britain, and Mr. Vanderveldt, of Belgium, and had also secured the assent of the United States, French and Japanese delegates. In a short speech Mr. Vanderveldt stated his hearty co-operation and the Borden amendment was then unanimously accepted.
