BACKS ITALY'S DEMANDS

On Grounds of National Safety and Reward For Effort.

Washington, May 1.—Demands of Italy for the port of Fiume, denial of which led to the withdrawal of the Italian plenipotentiaries from the Peace Conference, were upheld by Senator Lodge, of Massachusetts, Republican floor leader, in a telegram sent to Italian societies of Boston.

Senator Lodge declared that Italy's demands rested on the ground of her national safety and protection, whereas reasons which had been advanced for turning the port over to the Jugo-Slavs were "purely commercial and economic." He asserted that inasmuch as Italy had sacrificed a half million of her people and burdened herself with heavy debts in aiding France, England and the United States to repel the German onset, he could not see how her request could properly be refused.

The Senator said he could not understand why arrangements had not been made for satisfying Italy's desire for military and naval control over the Adriatic and at the same time providing the Jugo-Slavs with a port through which they would have access to the sea.

Workers in Chemicals and Metals Are Often Subject to Anaemia

THE breathing of poisonous chemical fumes or of the fine dust which arises from the grinding of metals is most injurious to the blood.

As a natural result the quality of the blood deteriorates and an anaemic condition is developed.

Once the blood fails to supply an abundance of nourishment the nerves become exhausted and then there is weakness of the heart's action, inability of the stomach and other organs of digestion to perform their functions and general lassitude of the whole body.

A complete change to open air employment is the most desirable treatment, but, unfortunately, in this day of the high cost of living, not many can afford to throw up their means of subsistence and start all over again at a new occupation.

For all such there is Dr. Chase's Nerve Food as the best known means of enriching the blood and thereby nourishing and invigorating the whole human system.

The appetite is sharpened, digestion is improved, the vital organs resume their

natural functions and strength is restored to the weakened body. With strength comes new courage and energy, new confidence and good health.

Mr. Robert Blaind, painter, 28 Wharf St., Belleville, Ont., writes:

"About three years ago my nerves were so bad that I couldn't work at my occupation, as I felt so weak and nervous and couldn't get any sleep at night. I went to a doctor and doctor for fourteen weeks, and did not feel altogether right until a friend advised me to try Dr. Chase's Nerve Food. I did so, and after taking the first box I could see good results, a continuation of this treatment restored my nervous system and I have been feeling better ever since. I would recommend it to anybody suffering from nerve trouble, as I have found it to be a grand medicine."

Everybody whose occupation exposes him to the breathing of poisonous fumes or the fine dust from metals or mineral drugs will find in Dr. Chase's Nerve Food a splendid means of enriching the blood and counteracting the bad effects. Dr. Chase's Nerve Food, 50c a box, 6 for \$2.75, all dealers, or Edmanson, Bates & Co., Ltd., Toronto. The portrait and signature of A. W. Chase, M.D., are on every box of his medicines.
