## THEATRICAL

**At the Grand.**  
The management of the Grand Opera House has arranged a high class motion picture and vaudeville programme for Thursday, Friday and Saturday of this week. Fannie Ward will be seen in a big seven reel feature, "Common Clay." This picture tells a very interesting story which in the dramatic form gained great favor in New York some seasons ago. Besides the charming Fannie Ward, the following take prominent parts in "Common Clay," Mary Alden, Helen Dunbar, Fred Goodwins, and Andrew Arbuckle. A laugh-provoking comedy, an educating travelogue, and the always interesting Pathe News will complete one of the season's best vaudeville programmes ever seen in Kingston will be "The Revue De Vogue," a delightful musical comedy in one act, and nine scenes. Special scenery and electrical effects are used. Together with the above, Edna La Vall, a petite serialiste who comes highly recommended will also be on the bill.—Advt.

**"Parlor, Bedroom and Bath."**  
That famous festival of fun, "Parlor, Bedroom and Bath," one of the most successful A. H. Woods' farces in years will be presented at the Grand Opera House to-morrow both matinee and night direct from a year's run in Chicago and New York. The story deals with the escapades of an eminently respectable young benedict who is compelled to assume the guise of a Don Juan to satisfy the sentimental cravings of his adoring bride. Assuming a strange role that fit him he finds himself in a desperate plight in a wayside inn, with more venturesome ladies on his hands than so gentle an individual ever dreamed of. The play has been staged with Mr. Woods' usual elaborate care and good taste. A splendid company of farceurs has been chosen to interpret the play.—Advt.

**At Griffin's.**  
It ought to be the general verdict that "The Heart of Humanity," which had its premiere showing at Griffin's last evening, is one of the most appealing of the big war pictures. This drama is also interesting because it is the first Canadian picture done on a large scale. Some movie fans will recall that Griffin placed the hero of his war pictures in the Canadian army, and the youth was represented to be a Canadian in the version of the play that we saw on this side of the line. In "The Heart of Humanity" the producers have gone much farther than that, and are paralleling a picture that has already made a deep impression in the United States, they have thoroughly Canadianized the production. They went about their task with great care with the result that Kingston audiences may see this drama in perfect form. The story is a sympathetic one with a strong heart interest. In fact the theme is one of genuine dramatic value, and deals with one of the vital and most tragic phases of the war. A great many people have been objecting for some time past to the spread-eagle war plays in which one nation seemed to be taking too large a share of the credit for winning the war. Canadians have been asking for something with a more Canadian atmosphere and a more congenial point of view. They will find that "The Heart of Humanity" comes nearer than any other picture play that has so far been screened, to meeting a long felt want. See "The Heart of Humanity" at Griffin's either to-day or to-morrow.—Advt.

### SYDENHAM STREET CHURCH.

**Meeting of the Official Boards On Monday Evening.**  
A joint meeting of the board of trustees and quarterly official board of Sydenham street Methodist church was held on Monday evening with Rev. W. T. G. Brown in the chair. On motion of Elmer Davis, the thanks of the Board were tendered to R. F. Greenless, treasurer, for his painstaking work. The property committee was instructed to redecorate and re-light the Sunday school hall and have a new cement walk and platform built at the north side of the church.

**Exchange Rate Now 3 1/2 Per Cent.**  
The rate of exchange on Canadian money to currency of the United States is now 3 1/2 per cent, the highest since the war made it necessary for the banks to discount our currency. It is stated by bankers that in a year or two, with good grain crops, this would be wiped out, as the balance of trade against Canada will gradually lessen.
