Major E. P. Best GAVE ADDRESS IN CITY HALL. Stated That Money Which Was Expected Was Already Partly Spent on the Work for Soldiers. Major E. P. Best, who has been supervisor for all the Y.M.C.A. work in France during the war, gave the local Red Triangle campaign a boost forward on Tuesday evening by delivering in the City Hall a stirring address on the work of the "Y" in France, England and Canada since the war began up to the present time, showing the immediate need for more money so that the work would not have to be stopped before it was completed. R. J. Rodger, chairman of the local Red Triangle campaign committee, presided at the meeting and introduced the speaker. During the evening the R.C.H.A. band rendered several fine selections. Major Best took up the work of the Red Triangle during the war. He spoke of the canteen work, the recreation branch, the services rendered in various ways to soldiers in the field, the maintenance of the Red Triangle Clubs along the line of demobilization, through to the homes of the men in Canada and the help given to wounded soldiers in the hospitals.

The speaker answered certain critics by citing facts that had been proven in various ways. He referred to the prices charged in the canteens and showed that these were controlled, not by the Y.M.C.A., but by the British Army officials. The work generally could be judged by the opinion publicly expressed in resolutions by almost all of the G.W.V.A. branches in Canada. In speaking of the work, Major Best told an incident which happened last year when the Canadians formed part of the British army of Occupation in Germany. The Red Triangle arranged, when train accommodation could be secured, to have motor lorries bring up from Paris and Brussels sufficient turkeys to give the boys a Christmas dinner. Through purchasing six months previous the usual "fixings" for the Christmas dinner were also available. Major Best dealt with the work of the Red Triangle Clubs throughout Canada and the need for a continuation of the work until demobilization is complete. In fact he showed that part of the estimated subscriptions through this campaign had already been spent. Following the meeting, Mr. Rodger asked those who were taking an active part in the campaign to remain behind to complete the organization. Several more returned soldiers answered this call and they were assigned to teams.
