

HEARD ON THE SIDE

The store clerks who have been given shorter working hours are delighted. It looks as if everything comes to him that waits—that is providing he waits long enough. The clerks have been plugging along doing their "bit" in spite of long hours, and now they are to be congratulated, and also the shopkeepers who have considered their welfare in this way.

Apparently since the war some people have a mania for firing off guns. The police are receiving many reports about firearms being used in the city limits, and there will be a special session of the police court some of these days for the offenders if they do not watch out.

There are still a number of people around the city who think it is a good joke to give the firemen a run for nothing. A new fire alarm box should be invented which would have some sort of a device to hold a person's hand in the box until the firemen arrive on the scene, and this would do away with this practice.

The Portsmouth Philosopher says that the farmers are getting too much rain because they kicked up such a fuss over the day light saving.

There is some talk of the barbers raising their prices. Guess we will have to let our hair grow long again if this is the case. The man who set the fashions should look after this matter. The barbers say they need the money.

Judging by the number of baseball teams getting ready Kingston should be on the baseball map all right this season.

It looks as if Kingston folk who want to see a circus this year will have to take a little jaunt to Brockville or Belleville, all because the powers that be did not think they were getting enough money out of the show. It is certainly a great blow to the lovers of red lemonade and peanuts, to say nothing of the big show.

SMYRNA ALLOWED TO GREECE TO ADMINISTER. British, French and Italian warships have made a demonstration in the Turkish harbor of Smyrna and Greek troops have been put ashore. This is the first indication that the expected cession to Greece of Smyrna, the most important port in Asia Minor, is being carried out. Greece will not obtain an absolute title, but be required to administer the city as a mandatory under the League of Nations, probably as a free port. The shaded areas on the accompanying map indicate the territory Greece hopes will be turned over to her.

DISPUTE OVER AGREEMENT

WITH REGARD TO PURCHASE OF ASPHALTIC ROAD OIL.

Company Wants Samples Taken Tank Cars at Montreal and the Board of Works Wants Them Taken Here.

At a meeting of the Board of Works on Thursday morning adjourned from Wednesday afternoon, it was decided after much discussion to forward another copy of an agreement prepared by the city solicitor to the Imperial Oil Company for the purchase of 16,000 gallons of 50 per cent. liquid asphalt at 8.6 cents per imperial gallon. This agreement was sent to the company on May 6th after the specifications, analysis and tender had been reviewed by the city solicitor, but less than a week ago the city was informed that the company would not sign the agreement.

In order that the matter may be discussed at the City Council on Monday next, the agreement is being dispatched to the company again for ratification. The point under dispute is with regard to the test of the road oil, the Board of Works wanting to take the samples for analysis from the tank cars when they arrive here and the company wanting to have the samples taken at Montreal, after which the cars would be sealed.

The Sawyer-Massey Company was given the contract to supply four wagons for asphalt paving work.

WHEN I HAVE TIME. When I have time, so many things I'll do. To make life happier and more fair for those whose lives are crowded now with care; I'll help to lift them from their sad despair— When I have time.

When I have time the friend I love too well. Shall know no more those weary toiling days; I'll lead his feet in pleasant paths always, And cheer the heart with words of kindly praise— When I have time.

When you have time the friend you hold so dear. May be beyond the reach of all your fair intent— May never know that you so kindly meant. To fill his life with bright content— When you had time.

Now is the time! Ah! then no longer wait. To scatter loving smiles and words of cheer. To those around whose lives are now so drear. They may not need you in the distant year— Now is the time! —anon.
