Why It's a Mistake To Delay Your Purchase of a New Edison

Most everything you buy wears out eventually. An automobile, for example—or a suit of clothes. So the longer you delay its purchase the longer you'll have to enjoy it.

Not so with a New Edison. It will outlive you anyway. Every month you delay is just one more month gone from your life—another month in which you might have had your life enriched by music—but didn't.

Under our new plan by which payment can be made so much a month there's no reason why you shouldn't be enjoying your New Edison right now.

The New Edison cost \$3,000,000 to perfect. It is the only instrument which successfully meets the test of direct comparison with the living artist's voice or instrument. It will bring into your home the world's best music, sung or played by the world's great artists.

Call to-morrow for a demonstration. "Send it out to the house" will be your verdict. If you desire it, we will make easy terms of payment.
