Cured Of Dyspepsia BY USING

Burdock Blood Bitters

The symptoms of dyspepsia are so numerous and diversified in different individuals that probably no description could exactly represent them as they occur in any given case, but a few of the most prominent are a rising and souring of food, pain, flatulence and distention of the abdomen, a sensation of discomfort after every meal, which is sometimes followed by sickness and vomiting. To get rid of dyspepsia a careful arrangement of the diet is necessary and due time must be given for the digestion of the meal. You will find that Burdock Blood Bitters will help with this digestion. It does this by toning up the stomach in such a way that the dyspepsia soon disappears. Mr. Robt. Baldwin, Winnifred, Alta., writes: "I cannot speak too highly of Burdock's Blood Bitters for curing dyspepsia, of which I have been a sufferer for years. I have tried a good many doctors and proprietary medicines, so one day I thought I would try something different. I got a bottle of B. B. B. from our local store, as it was about the only remedy he kept, and I can certainly say that I was more than pleased with the results, as I got better right away. I will always recommend it to other sufferers." Manufactured only by The T. M. Burn Co., Limited, Toronto, Ont.

The ceremony was performed by Rev. A. W. Stewart. The bride just arrived in Canada a few days ago, coming over on the SS. Tunisian. Mr. Good enlisted in the 59th Battalion, and went overseas in April, 1916. He was sent to France in August, spent ten months in the trenches and he was invalided to England with sepsis poisoning in his right foot. He returned to Canada in May, 1918. Best wishes are extended to Mr. and Mrs. Good.
