

The Emergency Brake in Business

Practically every business firm carries fire, burglar and accident insurance. What about Financial Insurance—a protection fund to provide ready cash when sales fall off or collections are slow?

THE MERCHANTS BANK

Head Office: Montreal, OF CANADA Established 1864. Kingston Branch, Verona Branch. H. A. TOFIELD, Manager. J. W. McCLYMONT, Manager.

Cool and Dainty for the Warmer Months

Now that summer is really with us, the well dressed woman seeks a comfortable and snug-fitting pump. We have just received a new lot of pumps and Oxfords in canvas, buck and poplin, from \$3 to \$8.00.

NO DISGRACE TO FEEL FEAR

One Result of War Has Been Saner Idea of What Constitutes Real Bravery.

An English observer calls attention to the fact that our world war has destroyed the fear of being afraid. Heretofore, even the most distant antiquity, the one quality insisted on in the soldier was that he should be fearless and the more callously so the better.

This theory held, as many will remember, even till the period of the Boer war, when the British suffered so severely in officers because it was held cowardly for a commander to seek cover. Men, then as now, felt fear, for that is one of flesh's attributes and, indeed, is one of the most valuable of human possessions, since fear is our protection from dangers and harms innumerable.

So it was only in battle that chivalry insisted that man should be without fear, or pretend to be. With the coming of new warfare, however, all lands at once came to a new sense of understanding and the old physical bravery has given place to moral resolution.

Therefore, it is no longer a disgrace to feel fear or to admit it; the only disgrace is to allow fear to prevent one doing his duty.

Need for More Consuls. The chairman of the shipping board has called the attention of congress and the people to the need of enlarging our consular service abroad.

Mr. Hurley tells us, observes the Independent (New York), that the United States will have 25,000,000 tons of merchant shipping by the end of 1920.

These new facilities give a daily capacity of 35,000 bottles, but as Tanlac is rapidly being introduced into foreign countries it is probably only a question of a few years before even larger facilities will become necessary.

Uniform quality is guaranteed by a series of careful inspections by expert chemists, from the time the roots, herbs, and barks are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved processes.

"Look here," said the city editor to the cub reporter, "you should write everything as briefly as possible. Instead of saying 'the middle-aged bald-headed performer in the hired aggregation of followers of Orpheus who slightly provide the harmony at one of our leading temples of mirth, seized his trombone firmly in his hands, placed his feverish lips to the mouth-piece and sounded thereon an unearthly tone like the wailing of a lost soul on the main street of Inferno'—now shorten that up."

So the reporter merely wrote: "The slip horn player in the orchestra blew a heiva note."

A Gentleman of Leisure. "Madly, do you want a divorce from Uncle Ned?" "I sh' do, judge. Dat nigger ain't no 'count, nohow."

"It's a case of incompatibility, I suppose?" "Well, judge, if settin' in de sun when de sun shines an' settin' by de fire when de fire blows an' eatin' me out o' house an' home is dat incompatibility, dem I sh' do, dem I sh' do, dem I sh' do dat kind o' case against 'im."

His Find. Secretary of State Lansing slipped out of the council chamber and went over to hunting in the palace. Luck was with him, he said, for he found a remarkable piece of antique wall paper.

Back in the Game. "Another sign that the war is over." "Yes."

"An old-fashioned stock promoter, wearing diamonds and flashy clothes, was in here the other day." "Well! Well!"

"These chaps are crawling out of their dugouts again!"—Birmingham Age-Herald.

A Realization. "How's prohibition workin' in Crimston Gulch?"

"All right," replied Three Finger Sam. "The boys are beginnin' to realize that a man's conversation is jes' as interestin' when he's sober as 'a been more reliable."

Houston's meat shop near the Mississippi hotel, Carlston Place, was destroyed by fire on Tuesday. A valuable cow, the property of Mrs. Emma Myers, Roslin, was killed by lightning.

NEW TANLAC PLANT IS NOW COMPLETED

Magnificent New Laboratory Has Daily Capacity of 35,000 Bottles.

What is said to be one of the largest pharmaceutical laboratories in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, the well-known medicine, which according to recent reports is now having the largest sale of any medicine of its kind in the world.

The erection of the new plant was made necessary by the rapid growth of the business, as the older plant was found to be wholly inadequate to supply the ever-increasing demand which at the recent rate of sale will amount to more than five million bottles for the present year alone.

The new building occupies 60,000 square feet of floor space. It is six stories in height, practically fireproof throughout, and is of striking architectural design.

Visitors to the laboratories are strongly impressed with the extremely modern character of the equipment. Everything is provided and splendidly arranged to promote systematic and rapid production.

The interior throughout is finished in a spotless white, and all of the large force of employees wear white uniforms, which they are required to change daily.

The entire process of manufacture is conducted under absolutely sanitary conditions. Even the bottles made expressly to contain Tanlac are washed and sterilized electrically by the ultra violet ray process.

When Tanlac was introduced into Canada history repeated itself, and the demand which had been created in the United States was quickly duplicated in the Dominion provinces.

These new facilities give a daily capacity of 35,000 bottles, but as Tanlac is rapidly being introduced into foreign countries it is probably only a question of a few years before even larger facilities will become necessary.

While the manufacturers are necessarily working for capacity production, it is fundamental rule of the Tanlac Laboratories that the quality of the medicine shall never be sacrificed to secure quantity output.

The executive sales offices are located in Atlanta, Ga., and occupy almost an entire floor of the Fourth National Bank Building of that city.

Tanlac is sold in Kingston by A. P. Chown, in Plebna by Gilbert Ostler, in Battersby by C. S. Clark, in Fernleigh by Ervin Martin, in Ardooch by M. J. Scullion, in Sharbot Lake by W. Y. Cannon.

Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetite poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. J. Bunyan, Pilot Butte, Sask., writes:—"I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak, and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the floor without trembling all over."

I had hot flushes and fainting spells. When I was on the second box of your Heart and Nerve Pills, I began to feel that they were doing me good, so I kept on until I had used six boxes, when I felt like a different person.

I am forever without them in the house, and highly recommend them to all who suffer with their heart."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

GRAND TRUNK RAILWAY SYSTEM AGENCY FOR ALL STEAMSHIP LINES

Special attention will be given your family or friends, going to or returning from the Old Country.

For information and rates apply to J. P. Hauley, C.P.A.T.A., G.T. Ry., Kingston, Ont.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion, or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation.

This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of painful pills or artificial digestants.

Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and is the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

INFLAMED GUMS—THE CAUSE OF TOOTH-BASE DECAY

Just as the strength of a building is dependent upon its foundations, so are healthy teeth dependent upon healthy gums.

Permit the gums to become inflamed or tender and you weaken the foundation of the teeth. This condition is called Pyorrhoea (Riggs' Disease). Loosening of teeth is a direct result. And speedy, soothing relief is given by the use of Forhan's Gums.

They act, too, as so many doorways for disease germs to enter the system—inflicting the joints or tonsils—or causing other ailments.

Pyorrhoea (Riggs' Disease) attacks four out of five people who are over forty, and many under that age, also. Its first symptoms is tender gums. So you should look to your gums! Use Forhan's, which positively prevents Forhan's if used in time and used consistently. It also scientifically cleans the teeth—keeps them white and clean. Brush your teeth with it.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.
