New Invention Retains Rupture Without Pain or Loss of Time. Old-fashioned galling, slipping trusses and foreign mail order methods are done away with by the surgical inventions of a Cauadian specialist who has devoted years to this one study. The perfected new Egan "CURATRUS" (as prepared to order) gives instant retention rest and security where others have failed. It prevents all irritation, retains every part in its natural position as soon as it is used, and ready made trusses are thrown away. Egan's "Curatrus" is intended to assist nature in her work of closing the opening in the shortest time known closing the opening in the shortest time known and at small cost. Testimonials from men, women and parents. Nothing complicated. No inconvenience, but just a natural retentive method. It costs you nothing to investigate Delays may be dangerous. Now is the time to make yourself comfortable for your daily work. J. V. EGAN, SPECIALIST, WILL VISIT the towns below. Free demonstration and examina-tion of samples. Ask at hotel office for my room. Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy.

They inflame, then shrink, thus ex-

posing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious con-
