Was Troubled With BOILS For Six Months

From the days of Job to the present time, boils have been one of the greatest afflictions of the human race.

Very few people escape from having them at some time. All the poulticing and lancing you may do won't cure them and stop more coming.

Boils are caused by bad blood bursting out, and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters is the greatest blood purifier known. It cleanses the system, and purifies the blood by removing every particle of foul material from the system, and when this is done, every another boil comes and health and strength are permanently restored.

Mr. C. H. Bridges, 470 Barton St. E., Hamilton, Ont., writes: "I was troubled with boils for about six months and tried several remedies without any relief until I tried Burdock Blood Bitters, and the effect has been wonderful. After using two bottles, I was rid of them all. I feel like a new man; my appetite is better, and I sleep better than I have for years. I can highly recommend B. B. to all who are troubled as I was."

Burdock Blood Bitters has been on the market for the past 40 years and manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

THERE IS DANGER IN TENDER GUMS

To preserve healthy teeth the ordinary tooth-paste is futile. You must first care for the gums, on which tooth health depends.

How many people think of this? Yet four out of five people over forty suffer from gum-decay, or Pyorrhoea (Riggs Disease).

At first the gums become tender, though actual gum-shrinkage is imperceptible. But in time receding gums will surely loosen your teeth, and then only a dentist can save them. The tender, bleeding gums of Pyorrhoea also act as so many doorways for disease germs to enter the system—inflicting joints or tonsils—or causing other ailments.

Forhan's (For the Gums) prevents Pyorrhoea, if used in time and used consistently. This means that it prevents gum-shrinkage, gum-tenderness, gum-bleeding. So, automatically, Forhan's prevents tooth loosening. Brush your teeth with it. It scientifically cleans the teeth—keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for treatment. 30c and 60c tubes. All Drugists. FORHAN'S, LTD., 507 St. James St., Montreal.

Yes, Luke, a woman should trust her husband, but it is not always advisable to let him know it.

Varsity's Great War Record

Varsity Magazine's fourth supplement completes the series that forms a record of the work of the University of Toronto in the Great War. It is an admirable production, and a credit to the young ladies and gentlemen who are responsible for it.

Toronto in the Great War. It is an admirable production, and a credit to the young ladies and gentlemen who are responsible for it. As in its forerunners, and as is eminently apt, pride of place is given to the Honor Roll, the unreturning brave who as graduates or undergraduates heard the call and answered it, paying the "last full measure of devotion" to their Alma Mater, and all it represented. This section contains no fewer than 539 photographs and the inscribed names of 74 whose photographs could not be secured.

The total honor roll of Varsity is now 494. The fact that it was only 345 when the last special number was issued a year ago is testimony of the ferocity of the struggle in the closing months of the war, beginning with the last great German drive in March, 1918. The issue is printed on the finest of paper, is handsomely illustrated, and will be proudly cherished in the thousands of homes from which the students have gone forth.

The editor, in a preface, says that while it is difficult to give precise figures it has been estimated that between 15,000 and 20,000 graduates, undergraduates and prospective students of Canadian universities enlisted in the war. Probably no class in the country has such a high percentage of voluntary enlistments as the schools and universities. The Military Service Act applied to few of them, in English-speaking Canada, particularly. Of this number 5,400 were graduates or undergraduates of the University of Toronto, and if one were to add the prospective students, the figure might indicate that nearly one-half of the numbers to the credit of the university of Canada should be placed under the colors of the old blue and white. This is not surprising, and would be only in keeping with the general war record of the city of Toronto and the Province of Ontario, and it was equally characteristic of the students as a class all over the Empire that they should be among the first to grasp the situation and hasten to the defence of their country.

The idea was beautifully expressed by Winifred Letts, one of whose verses is reproduced in the Supplement:

God rest you happy, gentlemen, Who laid ye good lives down, Who took the khaki and the gun Instead of Cap and Gown.

In addition to the sacrifice of life Varsity has been active in other phases of war work, and through the Students' Administrative Council more than \$31,000 has been distributed among various patriotic and relief societies. The list of honors won by graduates and undergraduates is fully in keeping with the number of enlistments. Indeed, its average is probably unusually high. We notice one V.C., that of Major T. W. MacDowell, and no fewer than twenty-three C.M.C.'s, half a dozen C.B.'s, and sixty-nine D.S.O.'s, as well as three with a bar to the D.S.O., while those who won the M.C. or the M.M. number hundreds. It is a glorious company, indeed, that one is presented to in this fourth supplement.

The reading matter consists of articles by Sir Robert Falconer, Sir Edmund Walker, Roland G. Usher, of Washington University, St. Louis, one of the chief American authorities on history; Dr. Alex. Hill, of Southampton University College, and various other well-known Canadian, American and British educationists. An article we are particularly pleased to see is that of Prof. D. R. Keys, M.A., on Commencement Day, 1918. On this occasion, it will be recalled, Lord Reading and Honorable Elihu Root were given honorary degrees, and the speech made then by Mr. Root was, in the opinion of the author, the best delivered in Canada in the course of the war. It is well that it is reproduced in such a form that it is likely to be preserved. One might quote many fine things from this address, so full of an eloquence that was both tender and wise. In one place Mr. Root said:

"As I saw the slender ranks of this once crowded and populous university, as I thought of the same spectacle in all the great institutions of the United States, the skeletons remaining in Harvard, in Yale, in Princeton, in Columbia and all the other universities, I have been thinking: Shall not these universities which lose their life save life? Has not the new day come in education, through the lessons that your young men and young women are learning in these years of war? Has our education on this Western Continent done its full duty and reached the heart of the democracy which it has undertaken to educate?"

He answered the question thus: "We have forgotten on this Western Continent that all our system of justice is developed so that the principle of individual liberty may be preserved by government. In a few years ago we had forgotten that liberty did not come, as the air comes, to all who choose to breathe, that justice did not come, as light comes, to all who look towards the sky. We had forgotten that not only is eternal vigilance the price of liberty, but that eternal struggle is the price of liberty. We had forgotten that no people could continue free who do not subscribe in their hearts with all sincerity and truth to the underlying principles of freedom, and this was the case in time to save us from the sad results of that forgetfulness and indifference. Let us hope and pray for true liberty, the dignity of true independent manhood, the high capacity to suffer, to sacrifice, to die if need be for a principle, the principle that makes men free."

Some men do the right thing because they are afraid of being caught if they do otherwise. Taxing beholders may not boost the matrimonial game, but it is apt to encourage emigration.

THE LYONS FAIR.

Showing of Canada at the Historic Exhibition.

The British Dominions have earned particular credit at the Lyons Fair, and so successful has been the effect of their enterprise that we may expect their regular appearance in the future. There is, of course, every reason why Canada should be especially welcome. It was the intrepid French explorers, Jacques Cartier, Orochonas and Champlain, who, in the 16th century, first settled in Canada, and the bonds of custom, language and history form an additional tie. Canada's participation is largely due to the active co-operation and help of Sir George Foster, Minister of Trade and Commerce; the Hon. Mr. Doherty, Minister of Finance, and the Hon. Mr. Sifton—all of whom are now in France as members of the British Peace Delegation. The Dominion exhibits—including those of the Canadian Manufacturers' Association, the Canadian Pacific Railway and the Canadian National Railway—occupy 72 stands covering the manufactures or industries of sixty firms. Agricultural machinery forms a prominent display in this section.

The Canadian manufacturers have set themselves the task of capturing German trade. In the case of spelter, the principal supply of which had previously been acquired by the Germans, the Canadians have established plants at Trail, B.C.; tungsten, necessary for the hardening of metals, another German monopoly, has been found in Nova Scotia, New Brunswick and the Yukon. The display of commercial minerals covers 287 varieties, and includes several specimens of asbestos. Quebec now furnishes 80 per cent. of the world's supplies of this commodity. The largest output of nickel comes from Ontario. The Province of British Columbia will soon include the immense shipbuilding yards of Vancouver (Ltd.), of Newcastle-on-Tyne, who are moving to Canada mainly to avail themselves of the unlimited supply of timber there, and also, no doubt, on account of the timber available at home.

Considering that this is the first time that Canada has participated in the Lyons Fair, the Dominion's display is altogether commendable. Much of the success is unquestionably due to the energy shown in the undertaking by the Export Association of Canada, of British Columbia House, Regent street, London. Another asset has been the presence of the Canadian Trade Commissioner, Mr. Wendell McL. Clarke, as superintendent. He has been indefatigable in his efforts to secure a really good display—and has succeeded. The Canadians have had more advertising in France than any other nation, and it has been due to the efforts of the General Publicity Agent of the Canadian Pacific and the Western Lines Railways, Sergeant Rankin.

The Canadian exhibits range from condensed milk, shown in attractive form by the Loring Produce & Storage Co., Ltd., of Brockville, and the macaroni of the Dominion Cannery Co., of Hamilton, to the massive engineering plant of the Frost & Wood Co., Ltd., of Smith's Falls, and the railway cars and brake beams of the Canadian Car & Foundry Co., Ltd., of Montreal. Some remarkably good specimens of agricultural machinery are in view from the workshops of Maxwell, Ltd., of St. Mary's; the Frost & Wood Co., Ltd., of Smith's Falls; Tudhope, Anderson & Co., Ltd., of Orillia; and the Massey-Harris Co., Ltd. Iron and steel manufactures are shown by E. T. Wright & Co., Ltd., of Hamilton; the McClary Manufacturing Co., of London, Ont.; electrical supplies by the Dominion Electrical Co., Ltd., of Montreal; axes, edged tools, saws, and farming implements by the Welland Vale Manufacturing Co., Ltd., of St. Catharines; iron and steel products by the Steel Co. of Canada, whose lead and lead products by both Brandram-Henderson, Ltd., of Montreal, and the Pacific White Lead Co., Ltd., while the textile trades are represented by the Montreal Cottons, Ltd., and the Dominion Textile Co., Ltd., also of Montreal.

Some very beautiful and remarkably low-priced wall papers are displayed by the firm of Stauntons, Ltd., of Toronto; if these could be introduced into the United Kingdom there would be a great demand for them. It is understood, however, that in the present condition of the trade the entry of these beautiful Canadian productions is impossible. The ready-made houses shown by W. H. White, of Montreal, are extremely well designed, and there should be a large demand for them should they be introduced in Canada. They would also be welcome in France.

Slang Explained. The saying, "not worth a continental," came from the fact that the Continental currency, issued by the Continental Congress, was worthless, or nearly so, during the American revolution and after. As the Continental Congress had no power to redeem its promises to pay. Besides, the country was flooded with counterfeiters which could not be detected.
