## **Burdock Blood Bitters**

The symptoms of dyspepsia are so humerous and diversified in different individuals that probably no description could exactly represent them as they occur in any given case, but a few of the most prominent are a rising and souring of food, pain, flatulence and distention of the abdomen, a sensation of discomfort after every meal, which is sometimes followed by sickness and vomiting.

To get rid of dyspepsia a careful arrangement of the diet is necessary digestion of the meal.

You will find that Burdock Blood Bitters will help with this digestion. It does this by toning up the stomach in such a way that the dyspepsia soon disappears.

Mr. Robt. Baldwin, Winnifred, Alta., writes: "I cannot speak too highly of Burdock Blood Bitters for curing dyspepsia, of which I have been a sufferer for years. I have tried a good many doctors and prothought I would try something dif-ferent. I got a bottle of B. B. B. from our local store, as it was about the only remedy he kept, and I can certainly say that I was more than pleased with the results, as I got better right away. I will always recommend it to other sufferers." Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

danger to both gums and teeth. Ten-der gums indicate it, and with it come loosening teeth. Imperceptibly, at first, the gums recede from the normal gum line. They inflame. They present many tiny openings for millions of bacteria to attack the unenameled tooth base. Tooth-base decay quickly follows. Even if the cavity be filled and the tooth saved the gums con collows. Even if the cavity be filled and the tooth saved, the gums continue to recede. Remember, too, that inflamed and bleeding gums act as so many doorways for disease germs to enter the system—infecting joints or toneils—or causing other ailments.

Against this Pyorrhea (Riggs' Disease) ordinary tooth-pastes are powerlass. Yet Pyorrhea attacks four out of five people who are over forty, and many under this age. But Forhan's—if used in time and used consistently—positively prevents Pyorrhea. It is a scientific tooth cleanser as well. Brush your teeth with it. See how promptly bleeding or gum tenderness ceases and how your teeth are kept white and clean. gum-shrinkage has already a start using Forhan's and consu-dentist immediately for speci-tment.
