

Brand Whitlock's BELGIUM

The Story of the Heart of the War

By far the most important book of the Twentieth Century—the tragic story of the Rape of Belgium—the heart of the war—a book that will live forever, by a great diplomat and a distinguished author, the United States Minister to Belgium.

The complete story by the man whose testimony is final—the official whom the Germans permitted to leave Belgium with the diaries he had kept during the invasion—the most valuable literary work that has grown out of the war.

CIRCUS DAY.

The Kids are Planning a Big Holiday.

On Friday, July 4, Sparks World's Famous Shows will come to this city for a matinee and night exhibition, and the rare, unique and wonderful things that have been pictured on paper will become a reality.

The day riders who, in diaphanous skirts have been prouising on the expansive backs of beautiful and speedy circus horses (on the bit) will be seen in all our gorgeousness of lullie and seductive smile; the elephants will copy their pictured acts of comedy and go them one better; the contortionists will proceed to disentangle themselves from two knots he tied in his response to last year; the acrobatic families will turn dizzy somersaults and the clowns will work off their latest comedy stunts to the great delight of the crowds present—we all like the clowns.

There is nothing on earth like the circus. It is the people's show par excellence. It is the one great American amusement that appeals to all the people. The merit in a big circus like the Sparks Shows is in the fact that everything in the show is the very best of its kind. There must inevitably be riding acts, but the riders are the leaders of their profession. There must be acrobats, but the acrobatic artists and aerialists are gathered from the wide world, and are the best that money can procure. It is this superiority in the quality of the performers that makes the Sparks Shows such a welcome visitor.—Advt.

THE "TIMES" OF K.C.I.

Second Number of School Paper is Very Attractive. The pupils of the Kingston Collegiate Institute have just issued the second annual number of the "Times" of K. C. I. and it is very attractively made up. The number was prepared by Bruce Taylor, editor-in-chief, assisted by a large staff of competent sub-editors and the subject matter is very interesting and original. The pages are brightened by a number of pictures and the issue reflects great credit upon the pupils of K.C.I.

Dominion Day Game.

The Board of Management of the City League has completed arrangements for the game on Dominion Day when morning and afternoon games have been arranged with the Manhattan Giants. They are under considerable expense in bringing the Americans to the city and they are hoping that Kingstonians will loosen their pocketbook strings when the dippers go around.
