Whether you desire waist seam; single breasted, double breasted or models of conservative styles you will find the proper garments here, each finely tailored and exclusive in design.

Livingstons

75-77-79 BROCK STREET.

THEATRICAL

At the Grand.
An excellent performance of feature photoplay and superior vaudeville was presented to the large crowd at the Grand Opera House last evening. George Walsh, the famous Fox athletic star, appeared in a five-reel feature, "I'll Say So." This picture is one full of the thrills and stunts that have made this popular star the idol of filmdom. Gloria Joy, the beautiful young artiste, was seen in a five-reel photoplay, "A Loaded Heart," a story of youth, love and adventure, and contains many scenes set the great outdoors that makes a very entertaining play. Other reels shown were a Mutt and Jeff cartoon, "The Accident Attorney," and a good comedy, "A Double-barrelled Courtship." The vaudeville, Barkham and Wagner, provided much amusement by their clever wit in an act of singing and dancing. This splendid bill will be repeated to-night and to-morrow afternoon and evening only.—Advt.

At Griffins.
Dorothy Glah in "I'll Get Him Yet" won the heartiest approval of the audience who saw her last night at this theatre when this delightful comedy was shown for the first time. This picture affords her abundant opportunities for effective work along the precise lines which won her fame as "The Little Disturber" in "Hearts of the World," and her admirers may look forward to seeing their favorite in a typical role. The story has to do with a girl of millions and a reporter of decidedly radical ideas. Dorothy plays the part of the girl and Richard Barthelmess plays the boy. This ideal couple make the most of the story which is sure to please everyone. Besides the above is shown an all Canadian picture produced by the addnac Co., entitled "Freight 249," and also a Sunshine-comedy and the British News, the whole making an exceptionally good programme.—Advt.

ANNUL THE MARRIAGE OF MONTREAL WOMAN

Who Wedded Again After First Husband Was Missing Sixteen Years.

Montreal, Aug. 5.—After sixteen years absence, James Barclay Moore who married Georgette Bouchard on June 16th, 1902 and disappeared a few months afterward, appears in Montreal as a result of which Mr. Justice Monet on Saturday annulled a marriage which Miss Bouchard contracted with Louis Joseph alias Phileas Laplante in December 1911. The annulment was granted upon the application of Laplante, based on the fact that Miss Bouchard had produced no legal proof of the death of her first husband at the time of her marriage with him in 1911. Mr. Justice Monet based himself on an article of the Civil Code which stipulates that the presumption of death arising from absence no matter how long duration, do not apply in the case of marriage. The husband or wife of the absentee cannot marry again without producing positive proof of the death of such absentee. At the time of the marriage with Laplante there was no positive proof of the death of the first husband produced, and now that there is an affidavit of Louis William Johnson of 1718 Mance street that he had seen the first husband on the street two months ago, together with the fact that Miss Bouchard did not appear in Court to answer the action in annulment, judgment was rendered by default.

WHEAT SHORTAGE IN UNITED STATES

Believed There Will Not Be Enough in the World to Supply All Needs.

Washington, Aug. 5.—Declaring it is the "cost of high living," instead of the high cost of living which is causing trouble in the United States, Senator Smith, South Carolina, today told the Senate it's time to stop everybody running to Congress with a demand for regulatory legislation to control economic conditions. Smith said automobile, moving picture shows, and the pursuit of pleasure generally are to blame for a good deal of the inequality between wages and food prices. Smith's speech was part of a lively Senate debate on the cost of living. A world shortage of wheat was predicted during the debate by Senator Gronna, North Dakota. "Instead of having 1,250,000,000 bushels as estimated by the Department of Agriculture, we have not to exceed 850,000,000 bushels," Gronna said. "There will be a shortage of wheat throughout the world and the United States will not be able to furnish all the wheat Europe will need."

A COAL COMMISSION PROPOSED FOR EUROPE

In An Effort to Avert What Threatens To Be a Disaster Over There.

(Canadian Press Despatch.)
Paris, Aug. 5.—Shipping and fuel representatives of France, Belgium and Italy conferred with Herbert Hoover, head of the international relief organization here yesterday, and decided to urge the supreme council of the peace conference to appoint a European coal commission to co-ordinate the distribution of European coal in an effort to avert what threatens to be a disaster. Only greatly increased coal production and improved organization for its distribution can save Europe from disaster next year, Mr Hoover said. According to figures gathered by experts England's annual production of coal has fallen from two hundred and ninety-two million tons in 1913 to one hundred and eighty-three million tons. Add Paris coal. Germany's decline is slighter greater. Europe at present rate will produce 422,000,000 tons next year while the amount needed is estimated at 615,369,000 tons. Germans are threatening to destroy twenty-four Zeppelins near Berlin, rather than surrender them to the Allies.

LOCAL POLITICAL SITUATION.

The resignation of W. F. Nickle as federal member for Kingston gave a great surprise to Kingstonians when they read the announcement in the Whig. The first thought that came into the mind was, "What does it mean?" "What is the cause?" The citizens generally were well satisfied with the way Mr. Nickle had conducted himself in parliament. He had been aggressive, independent, fearless; he had fought with great tenacity for the soldiers, and had equally fought for a democracy in Canada, keeping her free from snobbery and artificiality. Has his attitude on these issues militated against him in powerful circles? This is a question that is stirring the minds of many people. Has his course precluded him from positions to which his experience and intelligence entitled him to fill? The city and country is full of enquiries, but so far Mr. Nickle is silent. He says he served the time he intended to serve, and that is all there is to it. In 1947 he acquiesced to the public call in a time of crisis, and having fulfilled his work has asked for relief. There may be much more than this in it, but information is lacking. The issue now is to make ready for his successor in the Union government.

There are those who say that Gen. A. E. Ross, the sitting member in the Ontario Legislature, is the logical successor to Mr. Nickle. He is at present overseas, and his friends say that he has never referred to Canadian politics since he crossed to the front. His acceptance would probably be followed by an acclamation, thus leaving a vacancy in the provincial house for which a strong fight would probably be made.

Think What You May, You're Probably Wrong

Report on the street had it on Tuesday morning that Premier Hearst of the Ontario Government was to retire and that W. F. Nickle, whose resignation from the Federal Parliament was announced on Monday, was to succeed him. Mr. Nickle was informed of the rumor by the Whig, but he asserted that there was no truth in it. "I never heard of it until you told me," said Mr. Nickle. "Well, that was the report on the street this morning," responded the scribe. "Hereafter don't you believe everything you hear on the street," concluded Mr. Nickle, and the advice may be well taken. Various conjectures have been made as to the probable reason for the retirement of Kingston's member from public life, but he is saying absolutely nothing about it.

POLICY OF LIBERALS.

Western Ministers Explain Stand of Provincial Men.
Winnipeg, Aug. 5.—The delegation from the provincial liberal caucus to the Dominion Liberal convention, Ottawa, led by Premier T. C. Norris, Hon. Edward Brown and Hon. Dr. Thornton, have left. The stand taken by the provincial liberals, it was announced, is that the provincial government is not necessarily bringing itself under the domination of the Liberal party. It was stated that the Provincial Government had steadily supported Union Government since its formation; but owing to the changing of the status of the country from a war to a peace basis, the provincial party does not feel bound to continue that allegiance. If the new Liberal party adopts a platform and elects a leader not in accordance with the platform and the leader that the provincial Liberals think the country needs, the Norris Government and supporters will be entirely free to sever political connections with it, the ministers stated.

Population of Petrograd Dwindling.
Omsk, Aug. 5.—Petrograd population, which was more than 2,000,000 in 1912, has decreased under Bolshevik rule to 800,000, according to documents and newspapers taken from Bolshevik prisoners here. Moscow's population was shown to have been diminished by 40 per cent.

The Prince of Wales left Portsmouth, England, Tuesday morning, on the cruiser Renown for Canada.
