METAL TRADES TROUBLE TIME OF RISING PRICES

RESIGNATION OF PRESIDENT FINDLAY REGRETTED.

A General Meeting Has Been Called For Today to Consider the Whole Question at Once.

The trouble in the metal trades federation, which has resulted in the resignation of President Findlay, and the withdrawal of the boiler-makers' representative, was due to a disinclination on the part of a number of members to be governed by the rules of procedure and the ruling of the president on a very important point. Last week as a result of a vote taken by the different unions, the majority were found to be in favor of accepting the terms offered by President Wallace. The unions stood 4 to 2 to go back to work, and Mr. Findlay was moved to renew negotiations with the Labor Hall, however, it is stated that certain of the members, who were not satisfied over the vote of the unions, demanded that in addition to the clauses still in dispute the meeting should vote upon the question of wages and hours as well. President Findlay, it is stated, ruled that as the question of wages and hours had already been voted on and definitely disposed of the points could not again be raised. Strong exception was taken to his ruling and an appeal was made to the meeting from it. A vote was taken to re-open the whole matter, and as it was decided contrary to the president's ruling, he left the chair and later tendered his resignation. The vice-president was directed to preside and efforts to elect a new president were futile as no person nominated for the office would accept it.

ALWAYS A TIME OF EXPANSION IN INDUSTRY.

We Cannot Hope for Lower Prices Till Productive Energies of the World Are Again at Full Strength.

The second public lecture arranged for students in the summer session in Queen's University was delivered on Tuesday afternoon in Convocation Hall by Professor H. Michell, of the Political Science Department, the subject being "Gold." Gold, as the lecturer remarked, is now the basis of all monetary systems, with the single exception of that of China, and on it we have to rely for our measure of value, a measure which, through its violent fluctuations in purchasing power is exceedingly unsatisfactory. But although unsatisfactory, it is the only one we have, and until something better is devised, we must, perforce be content with it. The first part of the lecture was devoted to an historical account of the world's history as reflected by the movements in prices, the fundamental cause of which movements being found in the fluctuations in the world's stock of the precious metals. From the dawn of history to the first century of the Christian era we find a steady rise in prices, keeping time with the increase of the world's stock of gold. From the period of Rome's greatest glory to the downfall of the empire we find a steadily dropping stock of gold accompanied by steadily falling prices, in fact we may almost say that as Rome lost her gold her power ebbed with it. From 400 A.D. to 1492 we have an era of low prices, and not till the conquest of the Spaniards in America brought new stocks of gold and silver to Europe do we find prices on the upward trend. The era of the struggle with Napoleon sent prices up to levels never since surpassed, but with the return of the gold from California and Australia began in 1850 and sent them up again. The new supplies only lasted a few years, and by 1876 we find a new period of falling prices beginning, which lasted until the South African gold began to renew the depleted stock of world's gold in 1896.

Keep Children Well During Hot Weather

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours' illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if troubles come suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE LATE JOHN JOHNSTON.

The Funeral Took Place on Tuesday Afternoon Last. The funeral of the late John Johnston took place from his home, "Sunyside," Cataract, on Tuesday afternoon, July 22. The service was conducted by Rev. E. R. Kelly, pastor of Cataract Methodist church, of which the deceased was a member. The pall-bearers were, five cousins, Alfred Benington, Frederick Johnston, Hubert Johnston, A. Bruton, S. Abbott and a nephew, Harold Day. Many and beautiful were the floral offerings, kind remembrances of relatives and friends.

WEDDED IN TENNESSEE

The Groom Was Charles R. Bennett, Formerly of Kingston. The marriage took place at the residence of Mr. and Mrs. Edmund H. Cairns, of North Chattanooga, Tennessee, on the evening of the 24th of July, of Miss Lena Fuller, James Bennett, King street west, Kingston, and office manager of the Vesta Gas Range company of Chattanooga. Dr. J. W. Buchanan officiated. Following the ceremony an ice course was served, the ice being molded in the shape of hearts, slippers and wedding bells. Mr. and Mrs. Bennett will take up residence on Union avenue, Highland Park. They received a large collection of beautiful gifts. The groom is one of the youngest men to be elected master of a Masonic lodge in Tennessee.

Summer Complaint

IS A SERIOUS BOWEL TROUBLE. Very few people escape an attack of Summer Complaint. It may be slight, or it may be severe, but nearly everyone is liable to it. You can't tell, when it seizes on you, how it may end. Allow the profuse diarrhoea, the vomiting and purging to continue for a day or two and you will become weak and prostrated. Just as soon as the bowels become loosened up, get a bottle of Dr. Fowler's Extract of Wild Strawberry and check these unnatural movements, and thus prevent the system from becoming weakened. Mrs. L. J. Alteen, wife of the well known wholesale and retail Fish Dealer, 44 Hill St., Amherst, N. E., writes: "I have four children, the oldest being eight years old. Every summer they were troubled with Summer Complaint. Doctors' prescriptions did not seem to help them any. One day a friend asked me to use Dr. Fowler's Extract of Wild Strawberry. I at once got a bottle, and to my surprise and wonder, I soon saw a change in them. I now keep a bottle of it in the house all the time and will recommend it to any mother."

Reason to Complain.

Waterbury, N. Y., Times. Perhaps the Canadians have reason to complain because we are discounting Canadian money. River towns are suffering. There is objection from Buffalo to mean through to House's Point on this point. The trade that usually comes from across the line is objecting to the discount and is staying at home to do its trading. It is difficult to see why the exchange should be established when the money are supposed to be on the same basis of value. Indeed much of our present financial system is modeled after the Canadian.

Asked to Inform Them.

There are a lot of people in the city who say that W. F. Nickle should issue a statement to the electors defining reasons for his retirement. They had no knowledge that he was to serve during the time of the war; they supported him as a Union government helper so long as the government continued in power.

Men Who Have Been Through Agency Need Care.

"Melinda Young" writing in the Toronto Globe, says things which are applicable to Kingston: "I was out on a city street, I saw an endless succession of cars go by, and there has not been one but has had its empty seats. Up in the north of the city there are big buildings filled with men whose days are one long agony of bodily pain, whose nights are one long torture, because of the memories that crowd the hours of darkness. The evening light is golden; the evening air is sweet; the robins, whose voices even fiery August cannot rob of music, trill gaily in the trees. Nature has many kinds of balm for many kinds of trouble, but there are those who cannot get themselves to her sources of healing because their bodies have been broken—for us, for you and me, for the world that rose and worked and played and laid itself down in safety to untroubled sleep, because the men whom we now so soon forget were as a wall between us and harm."

Lawn Social.

The Ladies Aid of the Union church, near Bath, are holding a lawn social at the home of Wesley Sharpe, third Concession of Ernestown, next Tuesday evening, August 12th. All the delicacies of the season may be secured at the booths on the grounds. A table of home-made cooking and a fish pond for the children are two of the special features of the evening. Smith's orchestra in attendance. Admission, 15 cents.
