The Soviet Troops Are Being Pursued Everywhere, Warsaw Announces.

REVNO: FORTRESS TAKEN

THE POLES ADVANCE AT THE PRIPET MARSHES.

The Offensive Against the Bolsheviki Also Continues by Gen. Petura and Gen. Deniken in Zubna and Morenovec Regions.

(Canadian Press Despatch) Copenhagen, Aug. 22.—Polish troops have administered a crushing defeat on the Bolsheviki. Soviet forces are being pursued everywhere, the Polish general staff at Warsaw announce. The fortress of Revno, in Volhynia, north-east of Dubno, has been captured by the Poles after hard fighting. East of Minsk the Poles have reached the line of the Ismen Doryn.

Apparently the Poles are advancing north and south of the Pripiet marshes, east of Brest-Litovsk. The line is forty miles east of Minsk. Revno is one of the triangle of fortresses in south-western Volhynia. The other two, atsk and Dubno, have been captured by Poles within the last few weeks.

General Petura, Ukrainian leader, and Gen. Deniken, anti-Bolshevik commander in Southern Russia, continue their offensive successfully, according to reports received in London Thursday by prominent Poles. The advance of the poles puts the Bolsheviki front in action from Minsk to north-east of Odessa.

A Bolsheviki wireless communication received in London Thursday night said that Soviet troops were retreating before Deniken's forces in the region of Zubna and Morenovec. Ukrainian troops have captured Odessa, the most important port in the Black Sea. It was announced here today by the Ukrainian Mission.

LALONDE'S TEAM BARRED.

N.L.U. Teams Not Allowed to Play Against Them. Dalton Phelan, secretary of the Cornwall lacrosse team, received a letter from Desse Brown, secretary of the N.L.U., stating that he had been instructed by R. Dumouchel, president of the N.L.U., to notify Cornwall that the league would not sanction an exhibition match between "Newey" Lalonde's St. Zotique team and Cornwall on Saturday, Aug. 23rd. Mr. Brown quite plainly informed the Cornwall club that if they took part in such a match the entire team would be suspended by Dumouchel. The St. Zotique team was characterized as an outlaw club, run by Lalonde, and as Lalonde was working against the interests of the N.L.U., Mr. Dumouchel would not countenance any connection between that club and any N.L.U. team. Cornwall will obey Mr. Dumouchel's orders, but will go ahead and arrange an exhibition match with some other team for next Saturday.

HANGED HIMSELF IN BARN

CHARLES R. JONES, TAMWORTH, ENDS HIS LIFE.

Was Manager of the Sterling Bank—Business Worry Supposed to Be the Cause of His Death.

(Special to The Whig) Tamworth, Aug. 22.—The village was shocked last evening when it became known that Charles R. Jones, manager of the local branch of the Sterling Bank, had hanged himself in a barn in rear of his house. His dead body was found hanging by his wife at six o'clock. Mr. Jones was preparing to go to Winnipeg, in company with his wife, to visit the latter's father, W. D. Mace. He told his wife after dinner that he would go out and straighten up things in the barn in preparation for their trip, as they were to start this morning. When he did not return, Mrs. Jones went out to look for him and found his dead body hanging from the rafters. His business worry led the deceased to end his life. Another bank recently established here and was taking a lot of business.

Mr. Jones was fifty-four years of age and was born in Cincinnati, but had lived for most of his life in Tamworth, where he was formerly a druggist. NOT TO BORROW IN U.S. FOR A WHILE

Canada to Raise Internal Loan of \$250,000,000 From Own People.

New York, Aug. 21.—The Tribune says: The Dominion of Canada is planning an internal loan of approximately \$250,000,000, it was learned yesterday.

According to the preliminary information that has reached bankers here the new bonds will be offered to the public in October on a 5 per cent. basis, without tax-exempt features. This rate, which has been mentioned in authoritative Canadian circles, is, in the opinion of bankers, far less than Canada would have to pay for a loan in this country.

For a \$75,000,000 loan which was offered here by a syndicate of bankers, headed by J. Pierpont Morgan & Co., the yield to investors was 5.5 per cent., and conditions of the investment market at that time were regarded as more favorable to borrowers than at present. Chicago and Canadian bankers underwrote \$3,000,000 of Province of Ontario bonds a short time ago, and offered them to investors on a 6 per cent. basis.

Although the exchange rate is more than 4 per cent. against Canada, the Dominion Finance Ministry, it is said, feels that it would be inadvisable to borrow more in this country in the near future. The Canadian authorities share the British view that an adverse exchange situation will act as a barrier to extension of the purchase of merchandise in this country, and thus prevent the unlimited piling up of indebtedness. But Canada, bankers say, especially objects to paying the high interest rate which the American investment market would demand.

TAKES NATURE OF A SUBSIDY

The British Wheat Price is Nothing to Worry Over Here.

SIR GEORGE FOSTER TALKS

HE DISCUSSES THE FIGURE SET IN THE RED LAND

It Is, He Says, the Selling Price to the Millers—The Difference Up to the Price of Purchase Will Be Met By The Government.

Ottawa, Aug. 22.—In the opinion of Sir George Foster, Minister of Trade and Commerce, the cable to the effect that Great Britain has fixed \$1.80 per bushel as the domestic price of wheat is nothing to worry about. As understood here, that is the price at which the wheat will be sold to the millers over there, but not the price to be paid for it in the open market. The difference will be made up by the Government.

It is to be remembered, the Minister pointed out, that Great Britain has a nine-penny loaf, and the wheat to make it has to be furnished the millers at a corresponding rate. The Government, by way of subsidy, pays the difference between this fixed price and the price which it has to pay in the wheat market.

Sir George expressed the opinion that it is an idle thing to suppose that \$1.80 is the maximum figure to be paid for wheat, because, in his opinion, it cannot be secured for any such quotation. Rather, as stated, it is the selling price to the millers in view of the fixed price of bread.

If the \$1.80 price were the limit, Canada, guaranteeing \$2.15 per bushel, and the United States \$2.24, would have to raise millions to meet the deficits between the British price and that guaranteed the Canadian and American farmers.

JAPAN MOULDED ENTIRELY ON PRUSSIAN LINES.

And Broke Its Word to the United States—Illinois Guy Talks Nonsense in the U.S. Senate.

Washington, Aug. 22.—Senator Medill McCormick, the junior senator from Illinois, paid his respects to the treaty of peace yesterday afternoon when he delivered a speech to the Senate in which he denounced the imperialistic ambitions, as he termed them, of Great Britain, France and Japan, ambitions which, he added, he doesn't believe are endorsed by the great masses of the British and French people. It is, he said, a new imperialism which threatens future wars and that "British liberalism and British labor have joined their protests to that of Japan's against the terms of the treaty."

SAYS EGYPT IN VASSALAGE

JAPAN MOULDED ENTIRELY ON PRUSSIAN LINES.

And Broke Its Word to the United States—Illinois Guy Talks Nonsense in the U.S. Senate.

Washington, Aug. 22.—Senator Medill McCormick, the junior senator from Illinois, paid his respects to the treaty of peace yesterday afternoon when he delivered a speech to the Senate in which he denounced the imperialistic ambitions, as he termed them, of Great Britain, France and Japan, ambitions which, he added, he doesn't believe are endorsed by the great masses of the British and French people. It is, he said, a new imperialism which threatens future wars and that "British liberalism and British labor have joined their protests to that of Japan's against the terms of the treaty."

"For thirty-five years," said the senator from Illinois, "Japan's foreign policy in Asia has been one of consistent perfidy and aggression. I defy any one to make candid answer to that charge. The wonderful material advance of Japan has been contemporaneous with that of modern Prussia, and in close imitation of it. Japanese society, the Japanese constitution, the Japanese junk, the Japanese army—all have been moulded on Prussian lines. The diplomacy of Japan has been patterned after that of Frederick the Great in its disregard of truth, solemn pledges and human rights. If any one doubts this, let him review his own memory of Japan's relations with China and Korea, her secret and newly discovered violation of the pledge exchanged with the Government of the United States."

"It was not until 1907," said Mr. McCormick, "that the protectorate over Korea was at last proclaimed. In the following year Marquis Ito categorically declared that Japan had no intention of annexing Korea. Two years later—fifteen years after Japan had fought China to assure Korean independence—in 1916, there were published to the world the abject declaration of the Korean emperor and the annexation of Korea to Japan."

"It may be said in extenuation of Japan's perfidious aggression upon Korea that she only followed the example of Great Britain, which went to war with China in order to force her to permit the importation of opium and, as an additional reward of victory, wrung from her the cession of Hong Kong. It may be said that in Korea Japan did only that which France had done in Indo-China, and that subsequently she mended her ways. But not so. During the course of the great war Japan twice broke her solemn undertaking with the United States, and, in deliberate violation of her other international engagements, sought to reduce China to the state of vassalage in which Britain holds Egypt and into which she is drawing Persia."
