### Purina Chicken Chowder Helps Hens Mould

Few hens can produce feathers and eggs at the same time. Feathers are mostly protein. Purina Chicken Chowder helps hens moult because it is rich in protein. It is not a tonic, but a wholesome, scientific, balanced feed, to be fed with Purina Scratch Feed. These two form a perfect ration for moulting and laying hens. Grain feeds are not suitable for moulting, and unless Purina Chicken Chowder is fed, moulting will be slow, recovery slow, and the chances of winter egg laying considerably reduced. Feed Purina Chicken Chowder NOW!

## \$1550 per Annum for Family of Five

A RECENT report of the Civil Service Commission states that while \$1,000 a year supported a family of five in moderate comfort before the war, owing to the increased cost of living, \$1,550 is necessary to-day. According to the above report \$155 has only the purchasing value now that \$1,000 had in 1914.

In view of this, do you think your Life Insurance would be sufficient to protect your household in event of your death? Do you ever stop to consider how the increased cost of living would affect the struggle of your loved ones if you were taken away?

For example, if you have \$1,000 in insurance to-day it is equal to about \$600.00 before the war according to the Government Report. This means that to have the same protection your insurance should be increased by at least 60%. It would be safer to double the amount.

There is a Mutual agent in your vicinity. See him to-day or write us. We have the right class of policy to suit your requirements.
