WILD SPECULATION IS RIFE IN INDIA

Orgy of Industrial Gambling in Big Cities May Hurt Development.

Bombay, Sept. 12.—Commenting on a statement in the speech of the Viceroy on the subject of the development of India directs attention to the orgy of industrial gambling going on in Bombay and Calcutta, which far exceeds the historical example of the sixties.

It says that new companies are springing up by the score, and there is no sign of a cessation of the business which is being done in short-selling at a premium before the prospectus is issued and before the company is registered and before various details of the company, are known to the public.

If this universal gambling continues, the paper says sound concerns must suffer with the unsound when the reaction comes. The real evil of this speculation lies in the effect it must have on industrial development in India.

CANNOT PRECIPITATE NATIONAL PARALYSIS

To Accomplish Political Demands—Direct Action By Labor Is Defeated.

(Canadian Press Despatch.) Glasgow, Sept. 12.—The Trades Union Congress yesterday after three hours debate on the subject of direct action by labor to enforce its political demands, checked off further discussion of the subject by adopting the previous question by a small majority.

This makes it impossible for the triple alliance of railwaymen, transport workers and miners to obtain a desired mandate from five and a quarter millions of British organized labor to precipitate a national railway and industrial paralysis if it were necessary to accomplish its political demands. These demands are originally made were withdrawn from Russia, to lift the blockade, abolish conscription, release conscientious objectors and do not use military in industrial disputes.

THE MEMO ABOUT THE NOVITIATE

The Minister of Militia Tells About the Now Famous Note.

GEN. MEWBURN EXPLAINS THAT SOME ONE COPIED THE FIRST SIX LINES

And Sent It To Capt. Tyndale—The Memo Bore the Initials of the Minister of Militia.

Ottawa, Sept. 12.—The now famous "S.C.M." memorandum in the Guelph Novitiate case, and about which so much controversy has raged, is really the first six lines of a memorandum admittedly signed by General Meuburn and sent to Capt. Tyndale. The first six lines read:

"I am informed that there is a very reliable source that there are several men at the Jesuit College, Guelph, particularly men by the names of Noonan and Craig, who are escaping military service. Steps should be taken to get after these men, S. C. M."

General Meuburn's explanation is that some one copied the first six lines and added his initials and sent memorandum, which was also sent to Capt. Tyndale, had the following additions:

"There is also another very glaring case and that is James Alexander, son of A. W. Alexander, of Guelph. Can you have these cases followed up? Probably the provost marshal would help you."

The explanation of the additional lines being omitted from the copy is that when the copy was made, the case of the man Alexander had already been dealt with and there was no need to make further reference to it.
